A History and Critical Analysis of Piano Methods Published in the United States from 1796 to 1995

Scuola Preparatoria Del Pianoforte Op. 101

Bibliographic Guide to Music

Elementary Method for the Piano, Op. 101

Alfred Music Vorschule Im Klavierspiel, Op. 101, by Ferdinand Beyer (1803--1863) was first published in 1860. Since that time, it has been used by piano students throughout the world, especially in Asian countries. When compared with piano methods written in the 20th and 21st centuries, it appears more like a technique book than a piano method. This edition has been edited to be useful for today's piano students, either as a method (with teacher guidance) or as a supplementary book.

Play Melodica with Both Hands! Vol. 1

Japanese Style

An adaptation of the well-known F. Beyer piano method "Preparatory School for Piano", op. 101. Volume I - Beginner to Intermediate The intent of this publication is to have a few beginning exercises to start playing the melodica the "Japanese" way: vertical, with both hands. Playing the melodica in this style means having the left hand reversed thus the need, even for experienced piano players, to re-train the brain in the use of the left hand with mirrored fingerings: the use of simple materials can be of tremendous help in doing so. This publication contains a short essay by Alan Brinton, Professor Emeritus of Philosophy at Boise State University, where he presents us with a brief history of the melodica and its playing styles. After a brief technical introduction by the author, the book contains the first part of the original book, including the introductory music theory elements and the first 64 exercises. Everything was adapted to be played with a standard 32-keys melodica. You can download a few sample pages from the following link:
