The Jam Fruit Tree

Penguin UK Winner of the Gratian Memorial Prize for the best work in English Literature by a Sri Lankan for 1993 Hilarious, affectionate, candid and moving, this is the story of the Burghers of Sri Lanka... Who are the Burghers? Descended from the Dutch, the Portuguese, the British and other foreigners who arrived in the island-nation of Sri Lanka (and 'mingled' with the local inhabitants), the Burghers often stand out because of their curiously mixed features—grey eyes in an otherwise Dravid face, for instance.... A handsome and guileless people, the Burghers have always lived it up, forever willing to 'put a party'. Carl Muller, a Burgher himself, writes in this quasi-fictional, engaging biography of the lives of his people; they emerge, at the end of his story, as a race of fun-loving, hardy people, much like the jam fruit tree which simply refuses to be contained or destroyed.

Yakada Yaka

Penguin UK Yakada Yaka is the second part of the Burgher trilogy that began with The Jam Fruit Tree When the conquering British roll out the first railway steam-driven locomotive in Sri Lanka, it causes quite a stir. The smoke-spewing, banshee-wailing, fearsome black thing hisses like a thousand cobras... and the villagers declare that this Thing is an Iron Demon—a yakada yaka. The Burghers who drive these Iron Demons have a penchant for challenging authority and courting trouble, sometimes just to liven things up in the railway outposts... and so it is that Sonnaboy and Meerwald chase a large group of villagers all across Anuradhapura, mother-naked but not much bothered by it, Ben Godlieb conjures up a corpse in his cowcatcher, Dickie Byrd single-handedly demolishes a Pentecostal Mission and is hailed as the messiah of the Railway fraternity, and Basil Van der Smaght filches a human heart and feeds it to the Nawalapitiya railway staff ...and to cap it all, Sonnaboy takes French Leave to act in The Bridge on the River Kwai! '(Muller) tells his tale with a gentle humour often bordering on tenderness, but couched in the vigorous rugged localese. Almost immediately we find ourselves empathizing with Muller's roistering band that sins and prays with equal zest.' —Business Standard '... The Burghers ...believed in living life to the hilt. Every situation occasioned wild revels, and there was nothing that could not be solved through a brawl.' —India Today.

Maudiegirl

and the von Bloss Kitchen

Penguin UK Nobody – and the whole of Boteju Land agreed – could cook like Maudiegirl. She wielded a wizard's wand not only in the kitchen but also over domestic problems, however large in magnitude; from predicting the sex of an unborn child to knowing more than a dozen ways to cook eels; from cutting a goat in the right way to setting failing marriages straight; from nursing the ailing to health to keeping the best kitchen, Maudiegirl had a solution to every little problem. Her home was her castle and the kitchen her domain. In the fourth serving of his Burgher chronicles, Carl Muller reverts to his favourite family, the von Blosses of his first 'Burgher' book, The Jam fruit Tree. A hungry family and a wonderful cook, a kind paedophile, a cantankerous mother-in-law, a disloyal husband, good-for-nothing uncles, prudish Pentecostals, Dunnyboy's exhibitionism, Sonnaboy's show-of-strength- the author captures the hallmarks of the von Blosses' days and ways in his quintessentially irreverent, witty and heart-warming style. Maudiegirl and the von Bloss Kitchen features many of Maudiegirl's famous recipes making the book a treat not only for Muller fans but also for the senses!

Writing Within / Without / About Sri Lanka

Discourses of Cartography, History and Translation in

Selected Works by Michael Ondaatje and Carl Muller

Columbia University Press Paola Brusasco's study offers an original insight into Sri Lankan literature in English and an exploration of cultural, social, and linguistic issues at the basis of the country's ethnic conflict. By focussing on two distinctive and representative writers, both Burghers, yet with different personal histories, Brusasco confronts issues of cartography, history, and language, all contributing to a specific definition of identity. Both Ondaatje and Muller are outsiders, the former because of his diasporic existence, the latter because of his excentricity within the reality of a divided country where the legacy of British colonialism and the process of redefinition following independence in 1948, as well as matters of geography and history, become crucial to writers.

Once Upon A Tender Time

Penguin UK *Once Upon a Tender Time*, a poignant tale of childhood, is the concluding part of Carl Muller's Burgher trilogy. The Burghers of Sri Lanka, hardy and fun-loving, produce children by the dozen-but often forget them. Carloboy Prins von Bloss and his companions are usually considered a pain in the neck by the adults they encounter as they go about the serious business of discovering the world and, primarily, the facts of life. Romps in the backyard, trysts in deserted houses and long bicycle rides to discover true love are commonplace. Also frequent are thrashings and canings as adults try to do.

Children Of The Lion

Penguin Books India Fictionalized account of the history of Sri Lanka from the earliest times; includes the spread and development of Buddhism in Sri Lanka.

A Funny Thing Happened on the Way to the Cemetery

Penguin Books India Nineteen side-splitting stories from Sri Lanka to begin this chronicle of the funny things that have happened to him, Muller goes back to his days as a recruit in the Royal Ceylon Navy when the Queen of England came a-visiting: the saucy sailors decide to tip her a wink! The second story takes us back to Muller's childhood in Anuradhapura where two visiting rat snakes turn out to be a railway linesman's grandparents there are further hilarious adventures in the navy, encounters with more snakes of different sizes and lineage, graphic descriptions of jam-making factories, and hazardous days in the Gulf. Effortlessly, Muller creates caricatures that leave you helpless with laughter as they highlight the follies and foibles of the human race.

Trees II

Springer Science & Business Media 'Trees contribute a major part of fuel, fodder and fruit, and are an im of bioenergy. They are now needed in large numbers more portant source than ever before for afforestation and social forestry, so that fast-grow ing and multipurpose trees assume great importance. After extensive in discriminate deforestation and rapid depletion of genetic stocks, efforts are now being made to evolve methods for clonal mass propagation of improved and elite trees. Production of short-duration trees with a rapid turnover of biomass, and induction of genetic variability through in vitro manipulation for the production of novel fruit and forest trees, which are high-yielding and resistant to pests and diseases, and trees which display increased photosynthetic efficiency are in demand. These objectives are well within the realm of horticultural and forest biotech nology. Some of the recent advances, such as the regeneration of complete trees from isolated protoplasts, somatic hybridization, and the Agrobacterium-mediated transformation in various tree species have opened new vistas for the genetic engineering of fruit and forest trees. This book is a continuation of the earlier volume *Trees I*, and presents 31 chapters on fruit, forest, nut and ornamental trees, such as avocado, pineapple, crabapple, quince, pistachio, walnut, hazelnut, date palm, oil palm, cacao, rubber, maple, sweet-gum, poplars, birches, Chinese tallow, willows, oaks, paper mulberry, rhododendrons, Scots pine, Calabrian pine, Douglas-fir, redwood, ginkgo, cycads and some flowering trees.

Postcolonial Urban Outcasts

City Margins in South Asian Literature

Taylor & Francis Extending current scholarship on South Asian Urban and Literary Studies, this volume examines the role of the discontents of the South Asian city. The collection investigates how South Asian literature and literature about South Asia attends to urban margins, regardless of whether the definition of margin is spatial, psychological, gendered, or sociopolitical. That cities are a site of profound paradoxes is nowhere clearer than in South Asia, where urban areas simultaneously represent both the frontiers of globalization as well as the deeply troubling social and political inequalities of the global south. Additionally, because South Asian cities are defined by the palimpsestic confluence of, among other things, colonial oppression, anticolonial nationalism, postcolonial governance, and twenty-first century transnational capital, they are sites where the many faces of empowerment and disempowerment are elaborated. The volume brings together essays that emphasize myriad critical approaches—geospatial, urban-theoretical, diasporic, subaltern, and others. United in their critical empathy for urban outcasts, the chapters respond to central questions such as: What is the relationship between the politico-economic narratives of globally emerging South Asian cities and the dispossessed? How do South Asian cities stand in relationship to the nation and, conversely, how might South Asians in diaspora construct these cities within larger narratives of development, globalization, or as sources of authentic ethnic identities? How is the very skeleton—the space, the territory—of South Asian cities marked with and by exclusionary politics? How do the aesthetic and

formal choices undertaken by writers determine the potential for and limit to emancipation of urban outcasts from their oppressive circumstances? Considering fiction, nonfiction, comics, and genre fiction from India, Pakistan, Bangladesh, and Sri Lanka; literature from the twentieth and the twenty-first century; and works that are Anglophone and those that are in translation, this book will be valuable to a range of disciplines.

City Of The Lion

Penguin Random House India For many centuries, Lanka was referred to as Sihaladipa—the island of the Sihala, the people of the lion. This is the magnificent story of Anuradhapura, the greatest Asian Buddhist city of ancient times, and the proud capital of the lion kings of Lanka. In Children of the Lion, Carl Muller recreated the story of the conquest of Lanka by Sihabahu and Sihasivali's eldest son, the disgraced and banished Vijaya. Continuing this monumental saga, richly embedded in myth and legend, City of the Lion, the second book in the series, carries forward the story of the Sinhala race. The book recreates the return of the lion people to Anuradhapura after the bold and reckless Sinhala prince, Duttha Gamani, waged war, slaying the usurping Damila king, Elara, who had ruled over their precious city for forty-four years. The city, where Duttha Gamini built the most enduring monuments of Buddhism, grew, flourished, and the edifices of Buddhist glory rose to become the wonders of the East. A celebration of the people of Sri Lanka, and the island's culture and heritage, City of the Lion is a robust retelling of history.

Colombo

A Novel

Penguin UK Colombo is in the throes of an explosion. Its face changes continuously, its vices are legion, its future as yet obscure and its paths speak of sunlight as well as of shadow.-' Carl Muller begins his quasi-fictional portrait of this beautiful, war-torn city by describing the great battles fought over it by European colonizers-. In AD 1505, a Portuguese fleet blown off-course took shelter in Galle, overthrew the local kings, fortified Colombo and decided to stay. The Dutch came along, ousted the Portuguese, made Colombo their capital and ruled till the British arrived and sent them packing. Muller intersperses the tales of the past into descriptions of the battles that are being fought in Colombo today"political battles in which vested interests play a major role as well as battles fought on the individual level in the struggle to survive: young women and children turning to prostitution to earn an extra buck, people begging in the streets to make ends meet, unemployed young men turning to crime in frustration, students demonstrating against atrocities, lovers pining for nightfall in order to push away loneliness if only for a few moments... Written in Muller's lucid style, Colombo: A Novel is a chronicle of a city's trials and triumphs.

Like Bug Juice on a Burger

Abrams I hate camp. I just hate it. I wish I didn't. But I do. Being here is worse than bug juice on a burger. Or homework on Thanksgiving. Or water seeping into my shoes. In this sequel to Like Pickle Juice on a Cookie, Eleanor is off to summer camp. At first she's excited, but when she gets there she finds bugs, no electricity, and terrible food. And worst of all: swim class, where she just can't seem to keep up with the other campers. But as the days go by, Eleanor realizes that life is full of special surprises—even after some belly flops. Praise for Like Bug Juice on a Burger "Eleanor doesn't just survive, she grows...Readers will celebrate and look forward to more." —Kirkus Reviews "Sternberg gets all of the details exactly right, from the "orange, oozing sloppy joes" to the frustrations of trying to swim in a life jacket. Susan Dove Lempke." —The HornBook "This is a really sweet novel in verse and a good sequel to Like Pickle Juice on a Cookie (Abrams, 2011), though it works fine as a stand-alone." —School Library Journal "Eleanor's tentative yet heartfelt voice comes through as clearly as in the first volume, with the short, ragged-right-margin lines as approachable as her personality. Sternberg is particularly deft at leaving young-reader-sized room for interpretation and extrapolation." —The Bulletin of the Center for Children's Books "This sequel to Like Pickle Juice on a Cookie (2011) is just as endearing and wise, illustrating how small triumphs can help children survive what, at the time, seems an insurmountable trial." —Booklist Award Bulletin of the Center for Children's Books Blue Ribbons List 2013 Honor list - 2014 Gryphon Award

Tomatoland

How Modern Industrial Agriculture Destroyed Our Most Alluring Fruit

Andrews McMeel Publishing "An indictment of our modern agricultural system . . . in the tradition of the best muckraking journalism" from the three-time James Beard Award-winner (The Washington Post). In Tomatoland, investigative food journalist Barry Estabrook reveals the huge human and environmental cost of the \$5 billion fresh tomato industry. He traces the supermarket tomato from its birthplace in the deserts of Peru to the impoverished town of Immokalee, Florida, a.k.a. the tomato capital of the United States. He visits the laboratories of seedsmen trying to develop varieties that can withstand the rigors of agribusiness and still taste like a garden tomato, and then moves on to commercial growers who operate on tens of thousands of acres, and eventually to a hillside field in Pennsylvania, where he meets an obsessed farmer who produces delectable tomatoes for the nation's top restaurants. Throughout Tomatoland Estabrook presents a who's who cast of characters in the tomato industry: the avuncular octogenarian whose conglomerate grows one out of every eight tomatoes eaten in the United States; the ex-Marine who heads the group that dictates the size, color, and shape of every tomato shipped out of Florida; the U.S. attorney who has doggedly prosecuted human traffickers for the

past decade; and the Guatemalan peasant who came north to earn money for his parents' medical bills and found himself enslaved for two years. Tomatoland reads like a suspenseful whodunit and is "at its most potent and scathing in its portrayal of South Florida's tomato growers and their tactics over the past half-century" (The New York Times). "An important and readable book." —The Atlantic

Billion Dollar Burger

Inside Big Tech's Race for the Future of Food

Penguin The riveting story of the entrepreneurs and renegades fighting to bring lab-grown meat to the world. The trillion-dollar meat industry is one of our greatest environmental hazards; it pollutes more than all the world's fossil-fuel-powered cars. Global animal agriculture is responsible for deforestation, soil erosion, and more emissions than air travel, paper mills, and coal mining combined. It also, of course, depends on the slaughter of more than 60 billion animals per year, a number that is only increasing as the global appetite for meat swells. But a band of doctors, scientists, activists, and entrepreneurs have been racing to end animal agriculture as we know it, hoping to fulfill a dream of creating meat without ever having to kill an animal. In the laboratories of Silicon Valley companies, Dutch universities, and Israeli startups, visionaries are growing burgers and steaks from microscopic animal cells and inventing systems to do so at scale—allowing us to feed the world without slaughter and environmental devastation. Drawing from exclusive and unprecedented access to the main players, from polarizing activist-turned-tech CEO Josh Tetrick to lobbyists and regulators on both sides of the issue, Billion Dollar Burger follows the people fighting to upend our food system as they butt up against the entrenched interests fighting viciously to stop them. The stakes are monumentally high: cell-cultured meat is the best hope for sustainable food production, a key to fighting climate change, a gold mine for the companies that make it happen, and an existential threat for the farmers and meatpackers that make our meat today. Are we ready?

Bento's Sketchbook

Verso Books A meditation, in words and images, on the practice of drawing, by the author of Ways of Seeing. The seventeenth-century philosopher Baruch Spinoza—also known as Benedict or Bento de Spinoza—spent the most intense years of his short life writing. He also carried with him a sketchbook. After his sudden death, his friends rescued letters, manuscripts, notes—but no drawings. For years, without knowing what its pages might hold, John Berger has imagined finding Bento's sketchbook, wanting to see the drawings alongside his surviving words. When one day a friend gave him a beautiful virgin sketchbook, Berger said, "This is Bento's!" and he began to draw, taking his inspiration from the philosopher's vision. In this illustrated color book John Berger uses the imaginative space he creates to explore the process of drawing, politics, storytelling and Spinoza's life and times.

The Book of Delights

Essays

Algonquin Books "Ross Gay's eye lands upon wonder at every turn, bolstering my belief in the countless small miracles that surround us." —Tracy K. Smith, Pulitzer Prize winner and U.S. Poet Laureate The winner of the NBCC Award for Poetry offers up a spirited collection of short lyric essays, written daily over a tumultuous year, reminding us of the purpose and pleasure of praising, extolling, and celebrating ordinary wonders. Ross Gay's *The Book of Delights* is a genre-defying book of essays—some as short as a paragraph; some as long as five pages—that record the small joys that occurred in one year, from birthday to birthday, and that we often overlook in our busy lives. His is a meditation on delight that takes a clear-eyed view of the complexities, even the terrors, in his life, including living in America as a black man; the ecological and psychic violence of our consumer culture; the loss of those he loves. Among Gay's funny, poetic, philosophical delights: the way Botan Rice Candy wrappers melt in your mouth, the volunteer crossing guard with a pronounced tremor whom he imagines as a kind of boat-woman escorting pedestrians across the River Styx, a friend's unabashed use of air quotes, pickup basketball games, the silent nod of acknowledgment between black people. And more than any other subject, Gay celebrates the beauty of the natural world—his garden, the flowers in the sidewalk, the birds, the bees, the mushrooms, the trees. This is not a book of how-to or inspiration, though it could be read that way. Fans of Roxane Gay, Maggie Nelson, and Kiese Laymon will revel in Gay's voice, and his insights. *The Book of Delights* is about our connection to the world, to each other, and the rewards that come from a life closely observed. Gay's pieces serve as a powerful and necessary reminder that we can, and should, stake out a space in our lives for delight.

Priest

Sierra Simone There are many rules a priest can't break. A priest cannot marry. A priest cannot abandon his flock. A priest cannot forsake his God. I've always been good at following rules.
