Free Culture

Lulu Press, Inc **Lawrence Lessig, “the most important thinker on intellectual property in the Internet era”, masterfully argues that never before in human history has the power to control creative progress been so concentrated in the hands of the powerful few, the so-called Big Media. Never before have the cultural powers- that-be been able to exert such control over what we can and can’t do with the culture around us. Our society defends free markets and free speech; why then does it permit such top-down control? To lose our long tradition of free culture, Lawrence Lessig shows us, is to lose our freedom to create, our freedom to build, and, ultimately, our freedom to imagine.**

Princeton Architectural Press **"Architect Tom Kundig is known worldwide for the originality of his work. This paperback edition of Tom Kundig: Houses, first published in 2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and the vibrant craft cultures that are fostered there." --**
