American Colonies

The Settling of North America (The Penguin History of the United States, Volume 1)

Penguin A multicultural, multinational history of colonial America from the Pulitzer Prize-winning author of The Internal Enemy and American Revolutions In the first volume in the Penguin History of the United States, edited by Eric Foner, Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America, from the native inhabitants from millennia past, through the decades of Western colonization and conquest, and across the entire continent, all the way to the Pacific coast. Transcending the usual Anglocentric version of our colonial past, he recovers the importance of Native American tribes, African slaves, and the rival empires of France, Spain, the Netherlands, and even Russia in the colonization of North America. Moving beyond the Atlantic seaboard to examine the entire continent, American Colonies reveals a pivotal period in the global interaction of peoples, cultures, plants, animals, and microbes. In a vivid narrative, Taylor draws upon cutting-edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery, opportunity and loss. "Formidable . . . provokes us to contemplate the ways in which residents of North America have dealt with diversity." -The New York Times Book Review

A History of the United States and Its People

For Use of Schools

A History of the U.S. and Its People

For the Use of Schools

Settle and Conquer

Militarism on the American Frontier, 1607-1890

McFarland This rereading of the history of American westward expansion examines the destruction of Native American cultures as a successful campaign of "counterinsurgency." Paramilitary figures such as Daniel Boone and Davy Crockett "opened the West" and frontiersmen infiltrated the enemy, learning Indian tactics and launching "search and destroy" missions. Conventional military force was a key component but the interchange between militia, regular soldiers, volunteers and frontiersmen underscores the complexity of the conflict and the implementing of a "peace policy." The campaign's outcome rested as much on the civilian population's economic imperatives as any military action. The success of this three-century war of attrition was unparalleled but ultimately saw the victors question the morality of their own actions.

AP U.S. History Prep

John Wiley & Sons You've studied the history, but are you ready for the test? The AP U.S. History exam is notoriously tough. This Wiley Prep guide will help you maximize your score and earn the college credits you've been working for all year. AP U.S. History Prep

explains exactly how your test responses will be scored. You'll also learn strategies for answering multiple choice questions as quickly and accurately as possible, even if you aren't sure of the answers. When you sit down on test day, you'll feel confident and calm, so you can do your absolute best. Inside AP U.S. History Prep, you'll find two full-length practice exams, so you can get a feel for how the test session will really go. The guide also includes access to a 500-question online test bank, so you can gain extra practice answering multiple choice questions and test your knowledge of U.S. history. Brush up on every area of history covered by the exam, sharpen your test-taking skills, and be ready for every type of AP U.S. history question. Take two full-length AP U.S. History practice exams and avoid surprises on test day. Ensure that you know your history with 500 online multiple choice questions to improve your readiness. Understand how the test is written and learn the fastest and most accurate way to complete each question type. Learn how your document based questions, short answer questions, and long essays questions will align to the scoring rubric, so you can write correctly for the test. You've been working hard in class to prepare for the AP U.S. History exam—don't waste this opportunity to earn college credit and show what you know. With Wiley's AP U.S. History Prep, you'll be ready to earn your best score!

The Penguin History of the United States of America

Penguin UK This new edition of Brogan's superb one-volume history - from early British colonisation to the Reagan years - captures an array of dynamic personalities and events. In a broad sweep of America's triumphant progress. Brogan explores the period leading to Independence from both the American and the British points of view, touching on permanent features of 'the American character' - both the good and the bad. He provides a masterly synthesis of all the latest research illustrating America's rapid growth from humble beginnings to global dominance.

A Child's Story of America

Christian Liberty Press Answers for Child's Story of America, Grade 4.

Visible Saints: The History of a Puritan Idea

Ravenio Books From the time they stepped ashore at Plymouth and Salem, the New England Puritans have commanded attention, partly because of the boldness of their undertaking, partly because of its material success, but also because of the tension, excitement, and hope aroused by a large-scale effort to deal rationally with society. Their attempt to direct human relations into a consistent pattern derived from Biblical precepts has been the focus of my own interest in the Puritans. In previous works I have discussed their concepts of family relationships and of civil government. Currently I am engaged in a study of the way their ideas affected economic problems. In the ensuing pages I have tried to examine the origins and history of an idea that they considered more important for society than domestic, political, or economic ones, the idea of membership in the church.

Story of the Middle Ages Answer Key

Christian Liberty Press Students will gain a solid overview of Old World history as they study this text. The book opens with the collapse of the Roman Empire and the rise of Christianity in Europe. It then covers the Dark Ages, the Renaissance, the Reformation, and the early era of exploration. Readers discover why so many of the religious beliefs and cultural values of Medieval Europe were later transplanted in the Americas. Includes chapter questions, vocabulary drills, and maps.

Artisans in the North Carolina Backcountry

University Press of Kentucky During the quarter of a century before the thirteen colonies became a nation, the northwest quadrant of North Carolina had just begun to attract permanent settlers. This seemingly primitive area may not appear to be a likely source for attractive pottery and ornate silverware and furniture, much less for an audience to appreciate these refinements. Yet such crafts were not confined to urban centers, and artisans, like other colonists, were striving to create better lives for themselves as well as to practice their trades. As Johanna Miller Lewis shows in this pivotal study of colonial history and material culture, the growing population of Rowan County required not only blacksmiths, saddlers, and tanners but also a great variety of skilled craftsmen to help raise the standard of living. Rowan County's rapid expansion was in part the result of the planned settlements of the Moravian Church. Because the Moravians maintained careful records, historians have previously credited church artisans with greater skill and more economic awareness than non-church craftsmen. Through meticulous attention to court and private records, deeds, wills, and other sources, Lewis reveals the Moravian failure to keep up with the pace of development occurring elsewhere in the county. Challenging the traditional belief that southern backcountry life was primitive, Lewis shows that many artisans held public office and wielded power in the public sphere. She also examines women weavers and spinsters as an integral part of the population. All artisans -- Moravian and non-Moravian, male and female -- helped the local market economy expand to include coastal and trans-Atlantic trade. Lewis's book contributes meaningfully to the debate over self-sufficiency and capitalism in rural America.

Teaching What Really Happened

How to Avoid the Tyranny of Textbooks and Get Students Excited About Doing History, Second Edition

Teachers College Press James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retelling of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: an up-to-date assessment of the potential and pitfalls of U.S. and world history education; information to help teachers expect, and get good performance from students of all racial, ethnic, and socioeconomic backgrounds; strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography; ideas from teachers across the country.

The Americans

The Complete Idiot's Guide to the American Revolution

Penguin You're no idiot, of course. You know the American Revolution started when those guys in Boston threw some tea off a boat. Or was it when Paul Revere made his famous ride? Let's face it: when it comes to knowing about our nation's struggle for independence, our grade-school memories are about as trustworthy as Benedict Arnold. Don't blush red (or white, or blue) yet! The Complete Idiot's Guide® to the American Revolution is an authoritative overview of the conflict, filled with little-known facts that will enlighten even the most educated history buff. In this Complete Idiot's Guide®, you get:

Cracking the SSAT & ISEE, 2012

The Federal Theatre Project in the American South

The Carolina Playmakers and the Quest for American Drama

Lexington Books The Federal Theatre Project in the American South introduces the people and projects that shaped the regional identity of the Federal Theatre Project. When college theatre director Hallie Flanagan became head of this New Deal era jobs program in 1935, she envisioned a national theatre comprised of a network of theatres across the country. A regional approach was more than organizational; it was a conceptual model for a national art. Flanagan was part of the little theatre movement that had already developed a new American drama drawn from the distinctive heritage of each region and which they believed would, collectively, illustrate a national identity. The Federal Theatre plan relied on a successful regional model - the folk drama program at the University of North Carolina, led by Frederick Koch and Paul Green. Through a unique partnership of public university, private philanthropy and community participation, Koch had developed a successful playwriting program and extension service that built community theatres throughout the state. North Carolina, along with the rest of the Southern region, seemed an unpromising place for government theatre. Racial segregation and conservative politics limited the Federal Theatre's ability to experiment with new ideas in the region. Yet in North Carolina, the Project thrived. Amateur drama units became vibrant community theatres where whites and African

Americans worked together. Project personnel launched *The Lost Colony*, one of the first so-called outdoor historical dramas that would become its own movement. The Federal Theatre sent unemployed dramatists, including future novelist Betty Smith, to the university to work with Koch and Green. They joined other playwrights, including African American writer Zora Neale Hurston, who came to North Carolina because of their own interest in folk drama. Their experience, told in this book, is a backdrop for each successive generation's debates over government, cultural expression, art and identity in the American nation.

CliffsNotes AP U.S. History Cram Plan

*Cliffs Notes CliffsNotes AP U.S. History Cram Plan gives you a study plan leading up to your AP exam no matter if you have two months, one month, or even one week left to review before the exam!
