**Boundaries of Obligation in American Politics Geographic, National, and Racial Communities** Cambridge University Press This book shows how ordinary Americans imagine their communities and the extent to which their communities' boundaries determine who they believe should benefit from the government's resources via redistributive policies. By contributing extensive empirical analyses to a largely theoretical discussion, it highlights the subjective nature of communities while confronting the elusive task of pinning down 'pictures in people's heads'. A deeper understanding of people's definitions of their communities and how they affect feelings of duties and obligations provides a new lens through which to look at diverse societies and the potential for both civic solidarity and humanitarian aid. This book analyzes three different types of communities and more than eight national surveys. Wong finds that the decision to help only those within certain borders and ignore the needs of those outside rests, to a certain extent, on whether and how people translate their sense of community into obligations. **Membership and Morality in American Politics Obligation to Racial, National, and Geographic Communities No There There Race, Class, and Political Community in Oakland** Univ of California Press "This sophisticated account of a remarkable city's coalitions and conflicts over half a century is an outstanding contribution to urban history and political analysis. Clearly written and amply supplied with good stories, the book will interest students of urban history, social movements, and American political change."—Charles Tilly, author of Durable Inequality "An altogether

exemplary book. Rhomberg uses a combination of traditional class analysis, an institutional perspective on urban politics, and social movement theory to fashion a rich and persuasive account of the history of urban political conflict in Oakland between 1920-1975. In combining these strands of theory and research, he has also given us a model for the kind of dynamic, historically grounded political sociology that has been sadly missing in recent years."—Doug McAdam, author of *Freedom Summer* "Race, class, and local politics are key components of America's social fabric. On the basis of his outstanding scholarly research, Rhomberg examines the complex web of their interaction by focusing on one of the most conflicted urban scenes: Oakland, California; and taking a historical perspective on the evolving pattern of power struggles. This book will become required reading for students of urban politics."—Manuel Castells, author of *The Rise of the Network Society* "No There There combines a sophisticated interpretation of political and sociological urban theory with rigorous historical research... An important and stimulating book." —Joseph A. Rodriguez, University of Wisconsin-Milwaukee, *Western Historical Quarterly*

**Reading National Geographic** Discusses the ways that the magazine and its authors and editors have both passively and actively shaped American opinions of other cultures and caused us to reflect on our own culture.

**Communities in Action Pathways to Health Equity** National Academies Press In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

**Rethinking Community Resilience The Politics of Disaster Recovery in New Orleans** NYU Press Explores the unintended consequences of civic activism in a disaster-prone city After Hurricane Katrina, thousands of people swiftly mobilized to rebuild their neighborhoods, often assisted by government organizations, nonprofits, and other major institutions. In *Rethinking Community Resilience*, Min Hee Go shows that these recovery efforts are not always the panacea they seem to be, and can actually escalate the city's susceptibility to future environmental hazards. Drawing upon interviews, public records, and more, Go explores the hidden costs of community resilience. She shows that—despite good intentions—recovery efforts after Hurricane Katrina exacerbated existing race and class inequalities, putting disadvantaged communities at risk. Ultimately, Go shows that when governments, nonprofits, and

communities invest in rebuilding rather than relocating, they inadvertently lay the groundwork for a cycle of vulnerabilities. As cities come to terms with climate change adaptation—rather than prevention—Rethinking Community Resilience provides insight into the challenges communities increasingly face in the twenty-first century.

**Contested Waters A Social History of Swimming Pools in America** Univ of North Carolina Press From nineteenth-century public baths to today's private backyard havens, swimming pools have long been a provocative symbol of American life. In this social and cultural history of swimming pools in the United States, Jeff Wiltse relates how, over the years, pools have served as asylums for the urban poor, leisure resorts for the masses, and private clubs for middle-class suburbanites. As sites of race riots, shrinking swimsuits, and conspicuous leisure, swimming pools reflect many of the tensions and transformations that have given rise to modern America.

**Washington County Politics and Community in Antebellum America** Correlating hundreds of individual voting records and voluminous social, cultural, and economic data, Paul Bourke and Donald DeBats take full advantage of the evidence and supply us with an unprecedented study of how people in the 1850s developed political identities and made political choices. In this long-awaited book, Bourke and DeBats show in compelling richness of detail how these decisions more often resulted from private considerations than from the highly publicized appeals of parties and their candidates.

**The Politics of Race and Schooling Public Education in Georgia, 1900-1961** Chronicles and analyzes the spread of universal public education in Georgia during the period, showing that, far from embodying democratic equality and inducting the state's young into citizenship, the Georgia public school served as a vehicle for maintaining race and class privilege. Argues that the Georgia public school was a calculated result of a society that prefers and empowers whiteness, and considers the political dynamics emanating from both black and white communities, concluding that race politics continue to compromise the way we school our children. **The Negro Motorist Green Book 1938-1963** Skyhorse Students of African American history, the Jim Crow era, and legacy of American racial discrimination will value this historical resource for African American travelers, now introduced by Henry Louis Gates, Jr. Traveling the country was dangerous for African Americans in the Jim Crow period, when overt racial discrimination, prejudice, violence, and price gouging were commonplace. The Negro Motorist Green Book, assembled by New York City postal worker Victor H. Green, was a landmark resource that made travel much more accessible for African Americans. Published annually from the 1936 until two years after the passage of the Civil Rights Act of 1964, it was a guidebook for African American travelers that provided a list of hotels, boarding houses, taverns, restaurants, service stations and other establishments throughout the country that African Americans could feel welcome at. The Oscar-winning film Green Book, which starred Mahershala Ali and Viggo Mortensen and won Best Picture, Best Original Screenplay, and Best Supporting Actor (Ali), was named for these seminal books. This volume compiles four editions of the book: 1938, 1947, 1954, 1963. Accompanying these works of history is an introduction by Henry Louis Gates, Jr, the Harvard professor, accomplished author and filmmaker, and host of PBS's groundbreaking series, Finding Your Roots. Never

before have these historical resources been published with commentary from such an important and leading voice in the African American community. **Destructive Impulses An Examination of an American Secret in Race Relations : White Violence** University Press of America White violence in America is a hidden issue in race relations that must be addressed before the racial impasse between black and white can be transcended. This innovative book cites the failure to raise this issue of white violence in the race relations debate as the cause of the omnipresent gap in the search for a resolution to the race problem. Serving also as an historical essay that looks at white violence in America in its overt and secretive forms, this book suggests that allowing history to teach us how to avoid the mistakes of the past will make bridging the racial abyss more probable. Contents: Introduction; In Search of a Theoretical Basis for White Violence Against Blacks: Finding Windows of Opportunity; Crucible of American Violence: Historical Perception; White Violence: The Sealing of a Partnership in a Cultural Community of Whiteness; White Violence: The Leveling Force in Race Relations; Destructively Common: Racial Radicalism and the Era of Separate But Equal; Images: The Ritual of Lynching; Johnny's March Home: A Violent Perception in the Inter-War Years; Destructive Impulses: Circumventing Brown v. Board of Education; Black Violence: A Mirror Image of its Creator; Seeds of Destruction: The White Backlash and an Attack on Affirmative Action; Past, Present, Future: The State of Race Relations; Notes. **Latino Politics in America**

**Community, Culture, and Interests** Rowman & Littlefield Latino Politics in America discusses what it means to be a Latino American culturally and politically. It provides an in-depth examination of the individual communities that comprise the Latino culture, and how those bonds affect political development and decisions.

**Freedom is Not Enough Black Voters, Black Candidates, and American Presidential Politics** Rowman & Littlefield Black voters can make or break a presidential election - look at the close electoral results in 2000 and the difference the disenfranchised black vote in Florida alone might have made. Black candidates can influence a presidential election-look at the effect that Jesse Jackson had on the Democratic party, the platform, and the electorate in 1984 and 1988, and the contributions to the Democratic debates that Carol Moseley Braun and Al Sharpton made in 2004. American presidential politics can't get along without the black vote-witness the controversy over candidates' appearing (or not) at the NAACP convention, or the extent to which candidates court (or not) the black vote in a variety of venues. It all goes back to the Voting Rights Act of 1965 which formally gave African Americans the right to vote, even if after all these years that right is continuously contested. address to Howard University just before signing the Voting Rights Act), Ron Walters traces the history of the black vote since 1965, celebrates its 40th anniversary in 2005, and shows why passing a law is not the same as ensuring its enforcement, legitimacy, and opportunity. **Race and Ethnicity: Solidarities and communities**

**Taylor & Francis Violence and Indigenous Communities Confronting the Past and Engaging the Present** Northwestern University Press In contrast to past studies that focus narrowly on war and massacre, treat Native peoples as victims, and consign violence safely to the past, this interdisciplinary collection of essays opens up important new perspectives. While recognizing the long history of genocidal violence against Indigenous peoples, the

contributors emphasize the agency of individuals and communities in genocide's aftermath and provide historical and contemporary examples of activism, resistance, identity formation, historical memory, resilience, and healing. The collection also expands the scope of violence by examining the eyewitness testimony of women and children who survived violence, the role of Indigenous self-determination and governance in inciting violence against women, and settler colonialism's promotion of cultural erasure and environmental destruction. By including contributions on Indigenous peoples in the United States, Canada, the Pacific, Greenland, Sápmi, and Latin America, the volume breaks down nation-state and European imperial boundaries to show the value of global Indigenous frameworks. Connecting the past to the present, this book confronts violence as an ongoing problem and identifies projects that mitigate and push back against it.

**Ethnic Labels, Latino Lives Identity and the Politics of (re)presentation in the United States** U of Minnesota Press

Hispanic or Latino? Mexican American or Chicano? Social labels often take on a life of their own beyond the control of those who coin them or to whom they are applied. In "Ethnic Labels, Latino Lives" Suzanne Oboler explores the history and current use of the label "Hispanic", as she illustrates the complex meanings that ethnicity has acquired in shaping our lives and identities. Exploding the myth of cultural and national homogeneity among Latin Americans, Oboler interviews members of diverse groups who have traditionally been labelled "Hispanic", and records the many different meanings and social values which they attribute to this label. She also discusses the historical process of labelling groups of individuals and shows how labels affect the meaning of citizenship and the struggle for full social participation in the United States. Ultimately, she rejects the labelling process altogether, having illustrated how labels can obstruct social justice, and vary widely in meaning from individual to individual. Though we have witnessed in recent years the fading of the idealized image of US society as a melting pot, we have also realized that the possibility of recasting it in multicultural terms is problematic. "Ethnic Labels, Latino Lives" aims to understand the role that ethnic labels play in our society and brings us closer towards actualizing a society which values cultural diversity.

**The Negro Motorist Green Book 1940 Edition** Colchis Books

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some

other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. **Race and Ethnicity in America: From Pre-contact to the Present [4 volumes]** ABC-CLIO Divided into four volumes, Race and Ethnicity in America provides a complete overview of the history of racial and ethnic relations in America, from pre-contact to the present. Contextualizes the political experiences and contributions of minorities within American politics, society, and culture Includes people of color (e.g., African Americans, Latinos, Asians, and American Indians), those of mixed races, and ethnic groups that experienced minority status in politics, particularly in the 19th century (e.g., Irish, Jewish, Italian) Features chronological organization as well as a historical overview and timeline for contextual understanding and ease of reference Comprises A-Z entries that detail the political, social, and cultural histories of racial and ethnic minority groups, and concludes with a curated selection of key primary source documents Provides cross-disciplinary information that explores the experiences of racial and ethnic minorities in America over a period of five hundred years through history and social studies, political science, and ethnic studies **The Human Mosaic** Macmillan Carrying forward the legacy of original author Terry Jordan-Bychkov, Mona Domosh and new coauthors Roderick Neumann and Patricia Price offer this thoroughly updated new edition of the acclaimed introduction to the cultural geography of the world today. The result is a text that maintains its original distinctive style while addressing contemporary issues and situations that students care about, most importantly, the continuing phenomenon of globalization. The Thematic Approach of The Human Mosaic The Human Mosaic introduces five themes in the opening chapter--culture region, cultural diffusion, cultural ecology, cultural interaction, and cultural landscape--then uses those themes as a framework for the topical chapters that follow. Each theme is applied to a variety of geographical topics: demography, agriculture, the city, religion, language, ethnicity, politics, industry, folk and popular culture. Through this organization, students are able to relate to the most important aspects of cultural geography at every point in the text. **Eudora Welty, Whiteness, and Race** University of Georgia Press Faced with Eudora Welty's preference for the oblique in literary performances, some have assumed that Welty was not concerned with issues of race, or even that she was perhaps ambivalent toward racism. This collection counters those assumptions as it examines Welty's handling of race, the color line, and Jim Crow segregation and sheds new light on her views about the patterns, insensitivities, blindness, and atrocities of whiteness. Contributors to this volume show that Welty addressed whiteness and race in her earliest stories, her photography, and her first novel, Delta Wedding. In subsequent work, including The Golden Apples, The Optimist's Daughter, and her memoir, One Writer's Beginnings, she made the color line and white privilege visible, revealing the gaping distances between lives lived in shared space but separated by social hierarchy and segregation. Even when black characters hover in the margins of her fiction, they point readers toward complex lives, and the black body is itself full of meaning in her work. Several essays suggest that Welty represented race, like gender and power, as a performance scripted by whiteness. Her black characters in particular recognize whiteface and blackface as performances, especially comical when white characters

are unaware of their role play. Eudora Welty, *Whiteness, and Race* also makes clear that Welty recognized white material advantage and black economic deprivation as part of a cycle of race and poverty in America and that she connected this history to lives on either side of the color line, to relationships across it, and to an uneasy hierarchy of white classes within the presumed monolith of whiteness. Contributors: Mae Miller Claxton, Susan V. Donaldson, Julia Eichelberger, Sarah Ford, Jean C. Griffith, Rebecca Mark, Suzanne Marrs, Donnie McMahan, David McWhirter, Harriet Pollack, Keri Watson, Patricia Yaeger. **Race and Ethnic Relations: American and Global Perspectives** Cengage Learning Reflecting the latest data and theoretical literature available, *RACE AND ETHNIC RELATIONS: AMERICAN AND GLOBAL PERSPECTIVES, 10e* tackles diversity issues from both the American and global perspective, offering an in-depth exploration of today's globally diverse world. The text's expansive coverage of race and ethnic relations across the globe highlights major points of difference and similarity between the United States and a number of other societies, as well as includes a unique case study comparing four different countries. This unique comparative approach is vital with the increasing ethnic diversity in most contemporary societies as well as the prominence of ethnic conflicts in virtually all world regions. Current statistics, figures, maps, and citations provide up-to-the-minute insight. The Tenth Edition also includes an all-new chapter devoted to Arab Americans. In addition, end-of-chapter critical-thinking questions encourage readers to think in a sociological mode and examine current issues using concepts presented in the text. Fowler (political science, U. of Wisconsin) tells the story of the coming of age of community in the thought of American political intellectuals and provides measured analysis and reflection on some of the directions in which thinking about community has proceeded. Annotation copyrighted by Book News, Inc., Portland, OR **The National Geographic Magazine The Big Sort Why the Clustering of Like-Minded America Is Tearing Us Apart** Houghton Mifflin Harcourt The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In *The Big Sort*, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about how we live today and then draws on history, economics, and our changing political landscape to create one of the most compelling big-picture accounts of America in recent memory. **Wonderful Adventures of Mrs. Seacole in Many Lands** Prabhat Prakashan First published in the year 1857, the present book 'Wonderful Adventures of Mrs. Seacole in Many

Lands' was written by Mary Seacole. As evident from the title, this is a fictional novel of women's adventures. **God and Race in American Politics A Short History** A critical analysis of the explosive political effects of the religious intermingling with race reveals the profound role of religion in American political history and in the American discourse on race and social justice. **Slow Violence and the Environmentalism of the Poor** Harvard University Press "Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. **Asian American Political Action Suburban Transformations** Lynne Rienner Pub Looking beyond traditional conceptions of immigrant political behavior in gateway cities, James Lai comprehensively analyzes how Asian Americans are not only winning elected office, but also sustaining representation, in places as diverse as California, Texas, Wisconsin, and Maryland. Lai's multidimensional approach and vivid case studies illustrate both the unique characteristics and the political commonalities of Asian communities throughout the United States: their core populations, civic organizations, political leanings, and specific electoral challenges and successes. The result is a complex portrait of the breadth of Asian American participation in contemporary multiracial politics. **Handbook of Research on Teachers of Color and Indigenous Teachers** American Educational Research Association Teachers of Color and Indigenous Teachers are underrepresented in public schools across the United States of America, with Black, Indigenous, and People of Color making up roughly 37% of the adult population and 50% of children, but just 19% of the teaching force. Yet research over decades has indicated their positive impact on student learning and social and emotional development, particularly for Students of Color and Indigenous Students. A first of its kind, the Handbook of Research on Teachers of Color and Indigenous Teachers addresses key issues and obstacles to ethnoracial diversity across the life course of teachers' careers, such as recruitment and retention, professional development, and the role of minority-serving institutions. Including chapters from leading researchers and policy makers, the Handbook is designed to be an important resource to help bridge the gap between scholars, practitioners, and policy makers. In doing so, this research will serve as a launching pad for discussion and change at this critical moment in our country's history. The volume's goal is to drive conversations around the issue of ethnoracial teacher diversity and to provide concrete practices for policy makers and practitioners to enable them to make evidence-based decisions for supporting an ethnoracially diverse educator workforce, now and in the future. **Confronting Diversity Issues on Campus** SAGE The authors of this volume discuss diversity issues such as admission policies and the role of ethnic studies departments, then suggest strategies for dealing with questions of racism, diversity and intercultural communication. Suggestions range from ways to improve intercultural interpersonal skills through to the broad structural changes needed if a university is to embrace its diverse population. **Political Speech as a Weapon: Microaggression in a Changing Racial and Ethnic Environment** ABC-CLIO Provides a penetrating examination of how political rhetoric from public officials

creates tensions via microaggression cues due to changing demographics, campaign rhetoric, and the use of social media. • Explains how hostile rhetoric by public officials can lead to the marginalization of groups and a polarizing environment • Suggests that political discourse is used to accentuate cultural differences due to changing demographics in the United States • Illustrates that microaggression cues are a pervasive and damaging component of the U.S. political culture • Appropriate reading for anyone interested in or students of modern social movements, U.S. media and politics, race and ethnicity, political behavior, social psychology, and Latino American or African American studies

**Race-ing Fargo Refugees, Citizenship, and the Transformation of Small Cities** Cornell University Press Tracing the history of refugee settlement in Fargo, North Dakota, from the 1980s to the present day, *Race-ing Fargo* focuses on the role that gender, religion, and sociality play in everyday interactions between refugees from South Sudan and Bosnia-Herzegovina and the dominant white Euro-American population of the city. Jennifer Erickson outlines the ways in which refugees have impacted this small city over the last thirty years, showing how culture, political economy, and institutional transformations collectively contribute to the racialization of white cities like Fargo in ways that complicate their demographics. *Race-ing Fargo* shows that race, religion, and decorum prove to be powerful forces determining worthiness and belonging in the city and draws attention to the different roles that state and private sectors played in shaping ideas about race and citizenship on a local level. Through the comparative study of white secular Muslim Bosnians and Black Christian Southern Sudanese, *Race-ing Fargo* demonstrates how cross-cultural and transnational understandings of race, ethnicity, class, and religion shape daily citizenship practices and belonging.

**Ethnic Pride, American Patriotism Slovaks And Other New Imigrants** Temple University Press Creating a community that respected tradition but adapted to new circumstances.

**The Price of Racial Reconciliation** “In *The Price of Racial Reconciliation*, Ronald Walters offers an abundance of riches. This book provides an extraordinarily comprehensive and persuasive set of arguments for reparations, and will be the lens through which meaningful opportunities for reconciliation are viewed in the future. If this book does not lead to the success of the reparations movement, nothing will.” —Charles J. Ogletree, Jesse Climenko Professor of Law, Harvard Law School “*The Price of Racial Reconciliation* is a seminal study of comparative histories and race(ism) in the formation of state structures that prefigure(d) socioeconomic positions of Black peoples in South Africa and the United States. The scholarship is meticulous in brilliantly constructed analysis of the politics of memory, reparations as an immutable principle of justice, imperative for nonracial(ist) democracy, and a regime of racial reconciliation.” —James Turner, Professor of African and African American Studies and Founder, Africana Studies and Research Center, Cornell University “A fascinating and pathbreaking analysis of the attempt at racial reconciliation in South Africa which asks if that model is relevant to the contemporary American racial dilemma. An engaging multidisciplinary approach relevant to philosophy, sociology, history, and political science.” —William Strickland, Associate Professor of Political Science, W.E.B. Du Bois Department of Afro-American Studies, University of Massachusetts Amherst The issue of reparations in America provokes a lot of interest, but the public debate usually occurs at the level of

historical accounting: “Who owes what for slavery?” This book attempts to get past that question to address racial restitution within the framework of larger societal interests. For example, the answer to the “why reparations?” question is more than the moral of payment for an injustice done in the past. Ronald Walters suggests that, insofar as the impact of slavery is still very much with us today and has been reinforced by forms of postslavery oppression, the objective of racial harmony will be disrupted unless it is recognized with the solemnity and amelioration it deserves. The author concludes that the grand narrative of black oppression in the United States—which contains the past and present summary of the black experience—prevents racial reconciliation as long as some substantial form of racial restitution is not seriously considered. This is “the price” of reconciliation. The method for achieving this finding is grounded in comparative politics, where the analyses of institutions and political behaviors are standard approaches. The author presents the conceptual difficulties involved in the project of racial reconciliation by comparing South African Truth and Reconciliation and the demand for reparations in the United States. Ronald Walters is Distinguished Leadership Scholar and Director, African American Leadership Program and Professor of Government and Politics, University of Maryland. **Race, Ethnicity, and Place in a Changing America** Global Academic Publishing **Racial Disproportionality and Disparities in the Child Welfare System** Springer Nature This volume examines existing research documenting racial disproportionality and disparities in child welfare systems, the underlying factors that contribute to these phenomena and the harms that result at both the individual and community levels. It reviews multiple forms of interventions designed to prevent and reduce disproportionality, particularly in states and jurisdictions that have seen meaningful change. With contributions from authorities and leaders in the field, this volume serves as the authoritative volume on the complex issue of child maltreatment and child welfare. It offers a central source of information for students and practitioners who are seeking understanding on how structural and institutional racism can be addressed in public systems. **The Farrakhan Phenomenon Race, Reaction, and the Paranoid Style in American Politics** Presents an analysis of Farrakhan's career, drawing on interviews, records, and speeches
