BODY SIGN

SINYAL-SINYAL BAHAYA TUBUH ANDA DARI UJUNG RAMBUT HINGGA UJUNG KAKI

Buku yang komprehensif dan sangat menarik ini memuat setiap bagian tubuh dari ujung rambut hingga ujung kaki untuk membantu Anda menguraikan pesan-pesan misterius hingga sinyal-sinyal bahaya yang dikirimkan tubuh Anda kepada Anda. Mulai dari rambut yang mudah patah hingga rambut yang tumbuh di mana-mana, gigi kecokelatan, mata yang tidak sama, kuku yang retak-retak, puting terbalik, dan gas perut yang berlebihan, tubuh kita terus-menerus menyampaikan tanda-tanda yang berhubungan dengan keadaan kesehatannya. Seringkali kita merespons tanda-tanda ini dengan lari ke toko obat, atau malah tidak berbuat apa-apa sama sekali. Atau, di saat yang lain Anda mungkin pergi ke dokter, atau bahkan ke unit gawat darurat. Bersumber dari berbagai penelitian terbaru dan diawasi oleh sebuah panel yang berisi pakar-pakar kesehatan, buku ini berisi berbagai informasi penting dan seringkali menghibur mengenai segala sesuatu yang ingin Anda ketahui soal tubuh Anda—tapi selama ini Anda segan menanyakannya. “Body Signs adalah buku yang sempurna bagi orang-orang yang terpesona pada tubuh manusia dan cara kerjanya. Bacalah dan Anda akan tahu apa yang harus dicemaskan dan apa yang perlu diabaikan.” —Barbara Kantrowitz, penulis-pendamping Is It Hot in Here? Or Is It Me? “Buku ini lucu, informatif, dan berpotensi menyelamatkan hidup Anda.” —Joel Gurin, mantan Direktur Editorial, Consumer Reports “Buku ini mudah dibaca dan berguna bagi setiap orang. Saya banyak belajar tentang fakta-fakta medis yang mengagumkan!” —Gayatri Devi, Presiden Dewan Nasional tentang Kesehatan Perempuan

A PEOPLE THAT SHALL DWELL ALONE

JUDAISM AS A GROUP EVOLUTIONARY STRATEGY, WITH DIASPORA PEOPLES

iUniverse This book attempts to understand an ancient people in terms of modern evolutionary biology. A basic idea is that Judaism is a group evolutionary strategy-what one might term an evolutionarily significant way for a group of people to get on in the world. The book documents several theoretically interesting aspects of group evolutionary strategies using Judaism as a case study. These topics include the theory of group evolutionary strategies, the genetic cohesion of Judaism, how Jews managed to erect and enforce barriers to gene flow between themselves and other peoples, resource competition between Jews and non-Jews, how Jews managed to have a high level of charity within their communities and at the same time prevented free-riding, how some groups of Jews came to have such high IQ's, and how Judaism developed in antiquity. This book was originally published in 1994 by Praeger Publishers. The Writers Club edition contains a new preface, Diaspora Peoples, describing several interesting group evolutionary strategies: The Gypsies, the Hutterites and Amish, the Calvinists and Puritans, and the Overseas Chinese.

ASIAN GODFATHERS

MONEY AND POWER IN HONG KONG AND SOUTH EAST ASIA

Profile Books 40 or 50 families control the economies of Hong Kong, Singapore, Thailand, the Philippines and Indonesia. Their interests range from banking to property, from shipping to sugar, from vice to gambling. 13 of the 50 richest families in the world are in South

East Asia yet they are largely unknown outside confined business circles. Often this is because they control the press and television as well as everything else. How do they do it? What are their secrets? And is it good news or bad for the places where they operate? Joe Studwell explosively lifts the lid on a world of staggering secrecy and shows that the little most people know is almost entirely wrong.

THE SECRET HISTORY OF THE WORLD

[Hachette UK](#) **THE INTERNATIONAL BESTSELLER** The complete history of the world, from the beginning of time to the present day, based on the beliefs and writings of the secret societies. Jonathan Black examines the end of the world and the coming of the Antichrist. Or is the Antichrist already here? How will he make himself known and what will become of the world when he does? Will it be the end of Time? Having studied theology and learnt from initiates of all the great secret societies of the world, Jonathan Black has learned that it is possible to reach an altered state of consciousness in which we can see things about the way the world works that hidden from our everyday commonsensical consciousness. This history shows that by using secret techniques, people such as Leonardo da Vinci, Isaac Newton and George Washington have worked themselves into this altered state - and have been able to access supernatural levels of intelligence. This book will leave you questioning every aspect of your life and spotting hidden messages in the very fabric of society and in life itself. It will open your mind to a new way of living and leave you questioning everything you have been taught - and everything you've taught your children.

A DICTIONARY OF GLOBALIZATION

[Routledge](#) Globalization has become one of the most important topics within politics and economics. This new title explains some of the related terminology, summarizes the surrounding theories and examines the international organizations involved. With the proliferation of communications and the rise of the multi-national corporation, the concept of globalization is vitally important to the modern political environment. The structure of the modern economy, based on information production and diffusion, has made national boundaries largely irrelevant. A Dictionary of Globalization explains theories, philosophies and ideologies, and includes short biographies of leading activists, theorists and thinkers such as Noam Chomsky, Karl Marx and José Bové. Concepts, issues and terms key to the understanding of globalization also have clear and concise definitions, including democracy, civil society, non-governmental organizations and ethnicity. Cross-referenced for ease of use, this title aims to be of great benefit to anyone studying politics or sociology. It will prove essential to public and academic libraries, as well as to businesses, government departments, embassies and journalists.

THE GEOGRAPHICAL PIVOT OF HISTORY

MASTERING SPACE

HEGEMONY, TERRITORY AND INTERNATIONAL POLITICAL ECONOMY

[Routledge](#) For over two hundred years the domination of some countries by others has been intrinsic to international relations, with national economic and political strength viewed as essential to a nation's survival and global position. Mastering Space identifies the essential features of this "state-centredness" and suggests an optimistic alternative more in keeping with the contemporary post-Cold War climate. Drawing on recent geopolitical thinking, the authors claim that the dynamism of the international political economy has been obscured through excessive attention on the state as an unchanging actor. Dealing with such topical issues as Japan's rise to economic dominance and America's perceived decline, as well as the global impact of continued geographical change, the book discusses the role of geographical organization in the global political economy, and the impact of increasing economic globalisation and political fragmentation in future international relations. The authors identify the present time as crucial to the global political economy, and explore the possibilities of moving the world from mastering space to real reciprocity between peoples and places. John Agnew is a Professor of Geography at the Maxwell School of Citizenship and Public Affairs, Syracuse University. Stuart Corbridge is a lecturer in Geography at the University of Cambridge and a Fellow of Sidney Sussex College.

LANGUAGE AND POWER

EXPLORING POLITICAL CULTURES IN INDONESIA

[Equinox Publishing](#) In this lively book, Benedict R. O'G. Anderson explores the cultural and political contradictions that have arisen from two critical facts in Indonesian history: that while the Indonesian nation is young, the Indonesian nation is ancient originating in the early seventeenth-century Dutch conquests; and that contemporary politics are conducted in a new language. Bahasa Indonesia, by peoples (especially the Javanese) whose cultures are rooted in medieval times. Analyzing a spectrum of examples from classical poetry to public monuments and cartoons, Anderson deepens our understanding of the interaction between modern and traditional notions of power, the mediation of power by language, and the development of national consciousness. Language and Power, now republished as part of Equinox Publishing's Classic Indonesia series, brings together eight of Anderson's most influential essays over the past two decades and is essential reading for anyone studying the Indonesian country, people or language. Benedict Anderson is one of the world's leading authorities on Southeast Asian nationalism and particularly on Indonesia. He is Professor of International Studies and Director of the Modern Indonesia Project at Cornell University, New York. His other works include Imagined Communities: Reflections on the Origin and Spread of Nationalism and The Spectre of Comparisons: Nationalism, Southeast Asia, and the World.

THE FUTURE OF POLITICAL SCIENCE

[Routledge](#) Harold D. Lasswell is arguably the quintessential face of political science to the larger public of the past century. However, there is a side to Lasswell less well known, but of special importance in this day and age: the place of the profession of politics as an academic activity. This book, written at the start of the culture wars thirty years ago, outlines the basic core position of political science practitioners. It helps to explain why the field kept its collective cool, when other social science professionals veered to more extreme activist positions. The Future of Political Science grew out of the phenomenally rapid expansion of the study of government in the United States and elsewhere. The study of professionalism among physical scientists, lawyers, engineers, etc. was not matched by such internal examination within the social sciences until much later. Lasswell's overview centered on developments in the United States. There unfettered study of government reached unprecedented heights in the final stage of the twentieth century. The key concept of this volume, one that continues to inform discourse, is the relationship of political science as a mechanism for the study and teaching of the political system to the field as a tool of the Establishment. This concern grew in the wake of a variety of scandals and secret support sponsored by both government and non-government organizations alike. The Future of Political Science covers areas ranging from membership size and disparities, intervention scenarios in world events, the nature of creativity in political research

collaboration in projects with the other social sciences, and the location of scientific centers of gravity in the study of politics. Because of Lasswell's works we have a field of the political science of knowledge as well as the sociology of knowledge. Harold D. Lasswell served as Ford Foundation Professor of the Social Sciences at Yale University, Distinguished Professor of Policy Sciences at Joh

ISLAM IN THE INDONESIAN WORLD

AN ACCOUNT OF INSTITUTIONAL FORMATION

Mizan Pustaka The early history of Islam in Indonesian world is bewilderingly complex, not only in the context of the spread of Islam in the area, but also in the terms of its institutional formation. This book, therefore, discusses such themes as the early introduction of Islam to the Indonesian archipelago, the development of Islamic learning, educational, and legal institutions. Not least important, the book also reveals the religious, intellectual and political relations between Islam in the archipelago with that of the Arabian world "Professor Azyumardi Azra is a brilliant authority in Islam in Indonesia. LANGUAGE AND SPACE

AN INTERNATIONAL HANDBOOK OF LINGUISTIC VARIATION. THEORIES AND METHODS

Walter de Gruyter The dimensions of time and space fundamentally cause and shape the variability of all human language. To reduce investigation of this insight to manageable proportions, researchers have traditionally concentrated on the deepest dialects. But it is increasingly apparent that, although most people still speak with a distinct regional coloring, the new mobility of speakers in recently industrialized and postindustrial societies and the efflorescence of communication technologies cannot be ignored. This has given rise to a reconsideration of the relationship between geographical place and cultural space, and the fundamental link between language and a spatially bounded territory. Language and Space: An International Handbook of Linguistic Variation seeks to take full account of these developments in a comprehensive, theoretically rich way. The introductory volume examines the concept of space and linguistic approaches to it, the structure and dynamics of language spaces, and relevant research methods. A second volume offers the first thorough exploration of the interplay between linguistic investigation and cartography, and subsequent volumes uniformly document the state of research into the spatial dimension of particular language groupings. Key features: comprehensive coverage of the field in terms of theory and methods the unique volume stands alone, since it neither is a handbook of dialectology or of areal linguistics, nor a handbook on language variation alone gathers together a great number of distinguished scholars and experts in the field "

A THEORY OF COMPUTER SEMIOTICS

SEMIOTIC APPROACHES TO CONSTRUCTION AND ASSESSMENT OF COMPUTER SYSTEMS

Cambridge University Press Semiotics is the science of signs: graphical, such as pictures; verbal (writing or sounds); or others such as body gestures and clothes. Computer semiotics studies the special nature of computer-based signs and how they function in use. This 1991 book is based on ten years of empirical research on computer usage in work situations and contains material from a course taught by the author. It introduces basic traditional semiotic concepts and adapts them so that they become useful for analysing and

designing computer systems in their symbolic context of work. It presents a novel approach to the subject, rich in examples, in that it is both theoretically systematic and practical. The author refers to and reinterprets techniques already used so that readers can deepen their understanding. In addition, it offers new techniques and a consistent perspective on computer systems that is particularly appropriate for new hardware and software (e.g. hypermedia) whose main functions are presentation and communication. This is a highly important work whose influence will be wide and longlasting.

THE DYNAMICS OF PERSUASION

COMMUNICATION AND ATTITUDES IN THE 21ST CENTURY

The Dynamics of Persuasion provides a comprehensive and up-to-date introduction to persuasive communication and attitude change. Offering a thorough discussion of classic and contemporary theories of persuasion, this text explores the structure and functions of attitudes, consistency between attitude and behavior, and issues in attitude measurement. Examining persuasion through media, interpersonal, and psychological lenses, author Richard M. Perloff systematically investigates the impact of persuasive communication on attitudes toward a variety of topics, including health, politics, and racial prejudice. In addition to presenting persuasion theory and research, he provides numerous examples of persuasion in action, demonstrating the role of persuasion research in everyday life. Written in a highly accessible and clear style, The Dynamics of Persuasion serves to: introduce the social science perspective on persuasion enhance understanding of persuasion theories and research highlight the major issues discussed in the field of persuasion research explore the complexities and subtleties in the dynamics of everyday persuasion raise awareness about the ethics of contemporary persuasion. New to this edition are: 2008 election examples interspersed throughout the text focused discussions on compliance-gaining and negative advertising examples of strong attitude, such as the pros and cons of using animals in research. Complimented by a Companion Website (www.routledge.com/textbooks/dynamicsofpersuasion4e) with resources for students and instructors, The Dynamics of Persuasion is an engaging text appropriate for advanced courses on persuasion in communication, psychology, marketing, and sociology. In its exploration of the dynamics of persuasive communication, it illuminates the powerful effects persuasion has in contemporary society and enhances understanding of this ubiquitous communicative strategy.
