ETHNOBOTANY AND BIOCULTURAL DIVERSITIES IN THE BALKANS

PERSPECTIVES ON SUSTAINABLE RURAL DEVELOPMENT AND RECONCILIATION

Springer This volume addresses recent and ongoing ethnobotanical studies in the Balkans. The book focuses on elaborating the relevance of such studies for future initiatives in this region, both in terms of sustainable and peaceful (trans-regional, trans-cultural) rural development. A multi-disciplinary viewpoint is utilized, with an incorporation of historical, ethnographic, linguistic, biological, nutritional and medical perspectives. The book is also authored by recognized scholars, who in the last decade have extensively researched the Balkan traditional knowledge systems as they pertain to perceptions of the natural world and especially plants. Ethnobotany and Biocultural Diversities in the Balkans is the first ethnobotany book on one of the most biologically and culturally diverse regions of the world and is a valuable resource for both scholars and students interested in the field of ethnobotany.

KOSOVO AND SERBIA

CONTESTED OPTIONS AND SHARED CONSEQUENCES

University of Pittsburgh Press Following the 1992 breakup of Yugoslavia, the region descended into a series of bloody conflicts marked by intense ethnic and religious hatreds. Kosovo emerged at the epicenter of these disputes and the site of innumerable human rights violations, as Serbia, united with Montenegro at the time, sought to remove the Albanian presence. Kosovo (roughly ninety percent Albanian) declared independence in 2008, and although it is recognized by over one hundred UN member states, it is still not recognized by Serbia. This volume brings together scholars of Serbian, Albanian, Christian, and Muslim backgrounds to examine the Serbian-Albanian dynamic in Kosovo through historical, political, economic, and social perspectives. The contributors offer fresh insights on the consequences of internationalizing the conflict, the impact of international agencies and institutions since the 1999 intervention, the continuing human rights violations, present day party politics, and the prospects for economic cooperation with Serbia, among other topics. Kosovo and Serbia will inform scholars and students of the region, exploring the nature of a tragic political and strategic struggle that has existed for centuries and drawn the attention of the entire international community.

THE MIRACULOUS LANGUAGE OF THE QUR'AN

International Institute of Islamic Thought (IIIT) This study illustrates why the language of the Qur'an is miraculous, unique, and evidence of divine authority. The author compares the language of the Qur'an with the language of pre-Islamic poetry, the Prophet's words (hadith), and the language of the Arabs both past and present, to demonstrate that although the Qur'an was revealed in Arabic it was at the same time an Arabic which was entirely new. Original and early Muslim audiences viewed this as miraculous and responded to the Qur'an's words, sounds, rhythms, etc. in a manner consistent with a deeper appreciation of its beauty and majesty which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.

LINEAR REGRESSION ANALYSIS

YEARS OF CONFLICT

ADOLESCENCE, POLITICAL VIOLENCE AND DISPLACEMENT

Berghahn Books Recent years have witnessed a significant growth of interest in the consequences of political violence and displacement for the young. However, when speaking of "children" commentators have often taken the situation of those in early and middle childhood as representative of all young people under eighteen years of age. As a consequence, the specific situation of adolescents negotiating the processes of transition towards social adulthood amidst conditions of violence and displacement is commonly overlooked. Years of Conflict provides a much-needed corrective.

Drawing upon perspectives from anthropology, psychology, and media studies as well as the insights of those involved in programmatic interventions, it describes and analyses the experiences of older children facing the challenges of daily life in settings of conflict, post-conflict and refuge. Several authors also reflect upon methodological issues in pursuing research with young people in such settings. The accounts span the globe, taking in Liberia, Afghanistan, South Africa, Peru, Jordan, UK/Western Europe, Eastern Africa, Iran, USA, and Colombia. This book will be invaluable to those seeking a fuller understanding of conflict and displacement and its effects upon adolescents. It will also be welcomed by practitioners concerned to develop more effective ways of providing support to this group.

REFLECTIONS ON FREEDOM OF SPEECH AND THE FIRST AMENDMENT

University Press of Kentucky The guarantee of free speech enshrined in the U.S. Bill of Rights draws upon two millennia of Western thought about the value and necessity of free inquiry. Acclaimed legal scholar George Anastaplo traces the philosophical development of the idea of free inquiry from Plato's Apology to Socrates to John Milton's Areopagitica. He describes how these seminal texts and others by such diverse thinkers as St. Paul, Thomas More, and John Stuart Mill influenced the formation and the earliest applications of the First Amendment. Anastaplo also focuses on the critical free speech implications of a dozen Supreme Court cases and shows how First Amendment interpretations have evolved in response to modern events. Reflections on Freedom of Speech and the First Amendment grounds its vision of America's most basic freedoms in the intellectual traditions of Western political philosophy, providing crucial insight into the legal challenges of the future through the lens of the past.

WOMEN IN DIFFERENT GLOBAL CONTEXTS

CULTURE - GENDER - VIOLENCE

Oficyna Wydawnicza Impuls Oficyna Wydawnicza „Impuls”, we współpracy z Uniwersytetem Pedagogicznym im. KEN w Krakowie, wystąpiła z międzynarodowym projektem, zatytułowanym *Women in different global contexts. Culture – Gender – Violence*. Redaktorkom, a zarazem Autorkom kilku z zamieszczonych w tomie tekstów, udało się namówić do współpracy światowej klasy pedagogów, socjologów, psychologów, filozofów, prawników z polskich i zagranicznych ośrodków akademickich, co czyni publikację Jolanty Maćkowicz i Ewy Pająk-Ważnej szczególnie cenną, mającą charakter interdyscyplinarny a nawet multuidyscypliny. Osia, wokół której skupia się uwaga badaczy, jest sytuacja kobiety we współczesnym świecie, czemu służy przejrzysty podział książki na trzy części – trzy odmienne konteksty: kobieta postrzegana jest kolejno przez pryzmat kultury (m.in. sytuacja kobiety w romskiej społeczności oraz działalność żydowskich organizacji charytatywnych z przełomu XIX i XX w.), uwikłania w płeć (min. kwestia ról politycznych jakie mogą/nie mogą pełnić kobiety, mit Bilderberg Group oraz role, jakie przyjmują na siebie młode kobiety, dopiero wchodzące w dorosłość), a także jako ofiara przemocy, przede wszystkim domowej. Tematy skądinąd dobrze znane, w ujęciu Maćkowicz i Pająk-Ważnej zyskują nowy – międzynarodowy wymiar, rzucając na zawartą tu problematykę odmienne światło i pokazując, jak odmienne kulturowo środowisko modyfikuje rolę kobiety i koleje jej losów. Serdecznie zapraszamy do lektury.

LAW IN THE UNITED STATES

Cambridge University Press Law in the United States, Second Edition, is a concise presentation of the salient elements of the American legal system designed mainly for jurists of civil law backgrounds. It focuses on features of American law likely to be least familiar to jurists from other legal traditions, such as American common law, the federal structure of the U.S. legal system, and the American constitutional tradition. The use of comparative law technique permits foreign jurists to appreciate the American legal system in comparison with legal systems with which they are already familiar. Chapters in the second edition also cover such topics as American civil justice, criminal law, jury trial, choice of laws and international jurisdiction, the American legal profession, and the influence of American law in the global legal order.

A MANUAL OF HEBREW POETICS

Gregorian Biblical BookShop "This manual closes a circle which began almost thirty-five years ago (November, 1954) with the beginning of work on a doctoral dissertation defended at the Pontifical Biblical Institute in April, 1957 (published in Spanish in 1962). During three decades of teaching and writing the author has kept an active interest in poetics and stylistics and the resulting accumulated knowledge has been concentrated in the present manual. The primary purpose of the book is not to serve as a source of information about facts and authors but rather to initiate the reader into the

stylistic analysis of poetry. To obtain Information and to classify it the reader can turn to recent works (Watson), earlier works (Knig, Hempel), or reprinted works (Bullinger). Among the poetic techniques discussed are Sound and sonority, rhythm, imagery, figures of Speech, dialogue and monologue, development and composition"--Page 4 of cover.

TEMPERAMENT IN CONTEXT

Psychology Press Although the importance of context has been emphasized by temperament researchers, until now there has been remarkably little systematic research on the unique role specific aspects of context play in the development and impact of temperament. The goal of this volume is to systematize current knowledge and theory on the role played by specific aspects of context in the etiology, expression, and influence of temperament, particularly for those aspects of temperament that are most likely to relate to later personality traits. Reflecting the editors' view that the interface between temperament and context is a bidirectional phenomenon, this volume focuses on two broad issues: 1) How does context moderate the expression, continuity, or consequences of individual differences in introversion-extraversion, sociability, emotionality, and inhibition (the I-ESEI family of traits)? 2) How do individual differences in the I-ESEI family of traits moderate the nature of characteristics of the individual's context? By bringing together outstanding international researchers who present their current research and theories, the editors systematize research contributions in the domain of contextual contributions to the I-ESIA family of traits and set the agenda for future research directions. Appropriate for use by scholars and practitioners in developmental science and family studies.

LANGUAGE ACQUISITION AND THE THEORY OF PARAMETERS

Springer Science & Business Media This book is perhaps the most stunning available demonstration of the explanatory power of the parametric approach to linguistic theory. It is akin, not to a deductive proof, but to the discovery of a footprint in a far-off place which leaves an archeologist elated. The book is full of intricate reasoning, but the stunning aspect is that the reasoning moves between not only complex syntax and diverse languages, but it makes predictions about what two-year-old children will assume about the jumble of linguistic input that confronts them. Those predictions, Hyams shows, are supported by a discriminating analysis of acquisition data in English and Italian. Let us examine the linguistic context for a moment before we discuss her theory. The ultimate issue in linguistic theory is the explanation of how a child can acquire any human language. To capture this fact we must posit an innate mechanism which meets two opposite constraints: it must be broad enough to account for the diversity of human language, and narrow enough so that the child does not make irrelevant hypotheses about his own language, particularly ones from which there is no recovery. That is, a child must not posit a grammar which permits all of the sentences of a language as well as other sentences which are not in the language. In a word, the child must not create a language in which one cannot make adult discriminations between grammatical and ungrammatical.
