## Shame

### Interpersonal Behavior, Psychopathology, and Culture

Oxford University Press One of the most commonly reported emotions in people seeking psychotherapy is shame, and this emotion has become the subject of intense research and theory over the last 20 years. In *Shame: Interpersonal Behavior, Psychopathology, and Culture*, Paul Gilbert and Bernice Andrews, together with some of the most eminent figures in the field, examine the effect of shame on social behavior, social values, and mental states. The text utilizes a multidisciplinary approach, including perspectives from evolutionary and clinical psychology, neurobiology, sociology, and anthropology. In Part I, the authors cover some of the core issues and current controversies concerning shame. Part II explores the role of shame on the development of the infant brain, its evolution, and the relationship between shame as a personal and interpersonal construct and stigma. Part III examines the connection between shame and psychopathology. Here, authors are concerned with outlining how shame can significantly influence the formation, manifestation, and treatment of psychopathology. Finally, Part IV discusses the notion that shame is not only related to internal experiences but also conveys socially shared information about one's status and standing in the community. *Shame* will be essential reading for clinicians, clinical researchers, and social psychologists. With a focus on shame in the context of social behavior, the book will also appeal to a wide range of researchers in the fields of sociology, anthropology, and evolutionary psychology.

### Lion of Babylon (A Marc Royce Thriller Book #1)

Bethany House Marc Royce works for the State Department on special assignments, most of them rather routine, until two CIA operatives go missing in Iraq--kidnapped by Taliban forces bent on generating chaos in the region. Two others also drop out of sight--a high-placed Iraqi civilian and an American woman providing humanitarian aid. Are the disappearances linked? Rumors circulate in a whirl of misinformation. Marc must unravel the truth in a covert operation requiring utmost secrecy--from both the Americans and the insurgents. But even more secret than the undercover operation is the underground dialogue taking place between sworn enemies. Will the ultimate Reconciler between ancient enemies, current foes, and fanatical religious factions be heard?

## The Nuts and Bolts of NASCAR

### The Definitive Viewers' Guide to Big-Time Stock Car Auto Racing

Simon and Schuster When people think of NASCAR, many think of cars racing around a track. But those with a more intimate knowledge of the sport understand that there is much more to it. *The Nuts and Bolts of NASCAR* uncovers everything you need to know to properly watch and enjoy the sport. Author Greg Engle uncovers the history of the sport, as well as an explanation of the rules, flags, and key terms. He reveals the best practices for watching it on TV, how to experience a NASCAR race in person, and much more. Along the way, he weaves in interviews with key figures from the NASCAR community to offer insiders' perspectives on the ins and outs of NASCAR. Some of the many questions that this book answers include: •What does NASCAR stand for? •How did it get to where it is today? •What goes on at a pit stop? •What is it like to race 400 or 500 miles in just a few hours? •What is a wedge? •What is the best way to meet a driver? •How do you best enjoy a race in person? •And all the

other things a new fan needs to know to understand and enjoy America's fastest sport, NASCAR!

## A House to Remember

## 10 Rillington Place

Mereo Books, mereobook, mereobooks What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In A House To Remember, she explains why.

## 30-Second Brain

## The 50 most mind-blowing ideas in neuroscience, each explained in half a minute

Icon Books Ltd Are we all at the mercy of our brain chemistry? Do you think that the amygdala and the hippocampus are fantastical sea monsters? What can an MRI scan tell us? Could you explain to dinner-party guests why we don't giggle when we tickle ourselves? 30-Second Brain is here to fill your mind with the science of exactly what's happening inside your head. Using no more than two pages, 300 words and an illustration, this is the quickest way to understand the wiring and function of the most complex and intricate mechanism in the human body. Discover how the networks of 90 billion nerve

cells work together to produce perception, action, cognition and emotion. Explore how your brain defines your personality, and what it gets up to while you are asleep. Illustrated with mind-bending graphics and supported by biographies of pioneers in the field of neuroscience, it's the book to get your grey matter thinking about your grey matter.

## Art of "X-Men 2"

The X-Men are back in the cinema. Wolverine, Professor X, Cyclops, Jean Grey and the rest of the team return in X2, facing a new threat so dangerous that former enemy Magneto must join their ranks to defeat it.

## Even More Parts

Penguin Chip Block, the hero of Parts, is back, and still worried about falling apart based on the things he hears. This time he's made a list of all the strange, crazy things he's heard people say: "I lost my head." "My nose is running." "I sang my heart out. . . ." It's scary stuff, but he has a plan for making sure he doesn't accidentally leave any of his parts behind. A hilarious sequel to the wildly popular Parts and More Parts.

## Fodor's Berlin

Fodor's Travel Written by locals, Fodor's travel guides have been offering expert advice for all tastes and budgets for 80 years. Berlin is the fastest growing, hottest destination in Europe, and now Fodor's has a guidebook to help travelers navigate this exciting city. Our essential new city guide showcases the best way for travelers to explore the city's history, where to go for cutting-edge arts and entertainment, and, of course, the best food and nightlife spots. This travel guide includes: · Dozens of maps · An 8-page color insert with a brief introduction and spectacular photos that capture the top experiences and attractions throughout Berlin · Hundreds of hotel and restaurant recommendations, with Fodor's Choice designating our top picks · Multiple itineraries to explore the top attractions and what's off the beaten path · Major sights such as The Reichstag, Berlin Wall, Holocaust Memorial, Museumsinsel, DDR Museum, and Brandenburg Gate Planning to visit more of Germany? Check out Fodor's country-wide travel guide to Germany.

## Honor's Knight

Orbit The rollicking sequel to Fortune's Pawn -- an action packed science fiction novel. Devi Morris has a lot of problems. And not the fun, easy-to-shoot kind either. After a mysterious attack left her short several memories and one partner, she's determined to keep her head down, do her job, and get on with her life. But even though Devi's not actually looking for it -- trouble keeps finding her. She sees things no one else can, the black stain on her hands is growing, and she is entangled with the cook she's supposed to hate. But when a deadly crisis exposes far more of the truth than she bargained for, Devi discovers there's worse fates than being shot, and sometimes the only people you can trust are the ones who want you dead.

## Polysemy in Cognitive Linguistics

## Selected Papers from the International Cognitive Linguistics Conference, Amsterdam, 1997

John Benjamins Publishing In Cognitive Linguistics, polysemy is regarded as a categorizing phenomenon; i.e., related meanings of words form categories centering around a prototype and bearing family resemblance relations to one another. Under this polysemy = categorization view, the scope of investigation has been gradually broadened from categories in the lexical and lexico-grammatical domain to morphological, syntactic, and phonological categories. The papers in this volume illustrate the importance of polysemy in describing these various categories. A first set of papers analyzes the polysemy of such lexical categories as prepositions and scalar particles, and looks at the import of polysemy in frame-based dictionary definitions. A second set shows that noun classes, case, and locative prefixes constitute meaningful and polysemous categories. Three papers, then, pay attention to polysemy from a psychological perspective, looking for psychological evidence of polysemy in lexical categories.

## And Yet...

### Essays

Simon and Schuster "This collection of essays brings together some of the finest pieces Hitchens published over the last two decades for the first time in one book, addressing with characteristic wit and erudition the subjects he is best known for, including: the case against God, faith and religious observance; the case for intervention in Iraq; indictments of towering political figures like Bill and Hillary Clinton, Tony Blair, and Henry Kissinger; and celebrations of the writers and thinkers whose work meant most to him"--

## Visual Basic 2008

### How to Program

Prentice Hall Appropriate for all basic-to-intermediate level courses in Visual Basic 2008 programming. Created by world-renowned programming instructors Paul and Harvey Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation (WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. Students begin by getting comfortable with the free Visual Basic Express 2008 IDE and basic VB syntax included on the CD. Next, they build their skills one step at a time, mastering control structures, classes, objects, methods, variables, arrays, and the core techniques of object-oriented programming. With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show developers how to make the most of Microsoft's Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.

### Plain Roots

Clear Creek Publishers Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

## A History of the Roman People

Pearson College Division The Fifth Edition of A History of the Roman People continues to provide a comprehensive analytical survey of Roman history from its prehistoric roots in Italy and the wider Mediterranean world to the dissolution of the Roman Empire in Late Antiquity in A.D. 600. Clearly organized and highly readable, the text's narrative of major political and military events provides a chronological and conceptual framework for the social, economic, and cultural developments of the periods covered. Major topics are treated separately so that students can easily grasp key concepts and ideas.

## Drifting

## Sideways From Japan to America

Motorbooks Dreamed up by drivers trying to outdo each other on the mountain passes of Japan, the art of the sideways descent of a switchback-what Wired described as "the fishtailing ballet of burning rubber called drifting"-has made it to the United States in a big way. What began as a new kind of daredevil driving among teens has, over two decades, become a sanctioned sport, making its way across the Pacific through video games and magazines, anime and the Internet, to take root in California's fertile underground racing culture. Drifting tells the story of drifting from its arrival on the West Coast to its emergence as the hottest form of motorsport in the United States. A dramatic visual record of the sport in America that includes over 400 photos, the book also profiles the people, teams, techniques, web sites, publications, videos, and trends that have made drifting the phenomenon that it is today. For the curious newcomer, author Antonio Alvendia's introduction succinctly explains what drifting is, setting the stage for the thrilling automotive drama that then unfolds. For the veteran drifting fan, this book is the first illustrated book on the latest motorsport to conquer the world.
