Yeah, reviewing a ebook **Paper Question College 2014 March 25** could add your near friends listings. This is just one of the solutions for you to be successful. As understood, deed does not recommend that you have fabulous points.

Comprehending as skillfully as conformity even more than additional will pay for each success. adjacent to, the statement as capably as insight of this Paper Question College 2014 March 25 can be taken as well as picked to act.

KEY=2014 - REILLY JAEDEN

GLASS HALF FULL

THE DECLINE AND REBIRTH OF THE LEGAL PROFESSION

Oxford University Press The hits keep coming for the American legal profession. Law schools are churning out too many graduates, depressing wages, and constricting the hiring market. Big Law firms are crumbling, as the relentless pursuit of profits corrodes their core business model. Modern technology can now handle routine legal tasks like drafting incorporation papers and wills, reducing the need to hire lawyers; tort reform and other regulations on litigation have had the same effect. As in all areas of today's economy, there are some big winners; the rest struggle to find work, or decide to leave the field altogether, which leaves fewer options for consumers who cannot afford to pay for Big Law. It would be easy to look at these enormous challenges and see only a bleak future, but Ben Barton instead sees cause for optimism. Taking the long view, from the legal Wild West of the mid-nineteenth century to the post-lawyer bubble society of the future, he offers a close analysis of the legal market to predict how lawyerly creativity and entrepreneurialism can save the profession. In every seemingly negative development, there is an upside. The trend towards depressed wages and computerized legal work is good for middle class consumers who have not been able to afford a lawyer for years. The surfeit of law school students will correct itself as the law becomes a less attractive and lucrative profession. As Big Law shrinks, so will the pernicious influence of billable hours, which incentivize lawyers to spend as long as possible on every task, rather than seeking efficiency and economy. Lawyers will devote their time to work that is much more challenging and meaningful. None of this will happen without serious upheaval, but all of it will ultimately restore the health of the faltering profession. A unique contribution to our understanding of the legal crisis, the unconventional wisdom of Glass Half Full gives cause for hope in what

appears to be a hopeless situation.

MODERN SOCIETAL IMPACTS OF THE MODEL MINORITY STEREOTYPE

[GI Global] The model minority stereotype is a form of racism that targets Asians and Asian-Americans, portraying this group as consistently hard-working and academically successful. Rooted in media portrayal and reinforcement, the model minority stereotype has tremendous social, ethical, and psychological implications. Modern Societal Impacts of the Model Minority Stereotype highlights current research on the implications of the model minority stereotype on American culture and society in general as well as Asian and Asian-American populations. An in-depth analysis of current social issues, media influence, popular culture, identity formation, and contemporary racism in American society makes this title an essential resource for researchers, educational administrators, professionals, and upper-level students in various disciplines.

CHOOSING CHARTERS

BETTER SCHOOLS OR MORE SEGREGATION?

Teachers College Press Do charter schools strengthen students' educational experience? What are their social costs? This volume brings together a group of premier researchers to address questions about the purposes of charter schools and the role of public policy in shaping the educational agenda. Chapter authors explore topics seldom encountered in the current charter school debate, such as the challenges faced by charter schools in guaranteeing students civil rights and other legal protections; the educational and social implications of current instructional programs designed specifically for low-income and minority students; the use of charters as school turnaround agents; and other issues that lie at the intersection of education, politics, and social policy. Readers across the political spectrum, both supporters and critics of charter schools, can use this book to inform public policy about the ways in which charters affect diversity and inequality and the potential to devise policies that mitigate the most troublesome social costs of charter schools. Contributors include Adam Gamoran, Jeffrey R. Henig, Henry M. Levin, Roslyn Arlin Mickelson, Janelle Scott, and Kevin Welner. "This is an excruciatingly important work. At this point in time, it is essential to understand whether and in what ways charter schools contribute to segregation—and how they might avoid doing so." —Mindy L. Kornhaber, Pennsylvania State University

DYING OF WHITENESS

HOW THE POLITICS OF RACIAL RESENTMENT IS KILLING AMERICA'S HEARTLAND

Basic Books A physician reveals how right-wing backlash policies have mortal consequences -- even for the white voters they promise to help Named one of the most anticipated books of 2019 by *Esquire* and the *Boston Globe* In the era of Donald Trump, many lower- and middle-class white Americans are drawn to politicians who pledge to make their lives great again. But as *Dying of Whiteness* shows, the policies that result actually place white Americans at ever-greater risk of sickness and death. Physician Jonathan M. Metzl's quest to understand the health implications of "backlash governance" leads him across America's heartland. Interviewing a range of everyday Americans, he examines how racial resentment has fueled pro-gun laws in Missouri, resistance to the Affordable Care Act in Tennessee, and cuts to schools and social services in Kansas. And he shows these policies' costs: increasing deaths by gun suicide, falling life expectancies, and rising dropout rates. White Americans, Metzl argues, must reject the racial hierarchies that promise to aid them but in fact lead our nation to demise.

NEOLIBERALISM ECONOMIC POLICY AND THE COLLAPSE OF THE PUBLIC SECTOR

HOW THE JINDAL ADMINISTRATION ALLOWED IT TO HAPPEN—2008 TO 2016

iUniverse My book demonstrates how classical liberalism was the foundation upon which Thomas Jefferson, George Washington, Alexander Hamilton, and others wrote the Declaration of Independence, Constitution, and the Bills of Rights; however, it was rolled back by 1980 and replaced with neoliberalism, which was championed by the Reagan Administration. In short, this ideology has one main aim, and that is to shrink government, cut the budgets of social programs, and give away billions of taxpayer dollars to private business in the form of tax breaks. During the Jindal administration and by the end of its first term, more than \$7 billion worth of tax breaks had been given away to private business. A surplus of \$1 billion left in the Louisiana treasury by outgoing governor Kathleen Blanco after Hurricane Katrina was given away by the end of the first two months of its first term. Today, the Louisiana legislature is currently facing a \$650 million fiscal cliff, and no doubt, more budget cuts are in store for the Louisiana public sector.

ERADICATING FEMALE GENITAL MUTILATION

A UK PERSPECTIVE

Routledge This ground-breaking handbook details the present situation with regard to female genital mutilation (FGM) in Britain, referring also to other Western nations where FGM occurs. It scrutinises current pathways to eradicating this dangerous, sometimes

lethal, form of child abuse and gender-related violence. The cultural and belief systems giving rise to FGM are complex. Further, FGM is an intensely intimate matter often imposed on young and vulnerable children. Approaches to its eradication therefore demand considerable human insight and a competent grasp of inter-/cross-agency working. It is also vital that everyone concerned - whether in caring and parental, safeguarding or other roles - understands fully that, regardless of custom or belief, FGM is a serious crime. The vulnerabilities and need for protection of victims and potential victims are paramount, but these pressing priorities do not lessen the requirement that all aspects of FGM be dealt with straightforwardly in accordance with the law. This book makes the case urgently for developing a shared, coherent model - a multi-disciplinary paradigm articulated at the highest level - as the basis to achieve the eradication of FGM. The text will be required reading for health, legal, educational and social services professionals, as well as researchers, policy-makers, school governors, journalists and other concerned citizens.

MATERIALS SCIENCE AND ENGINEERING: CONCEPTS, METHODOLOGIES, TOOLS, AND APPLICATIONS

CONCEPTS, METHODOLOGIES, TOOLS, AND APPLICATIONS

IGI Global The design and study of materials is a pivotal component to new discoveries in the various fields of science and technology. By better understanding the components and structures of materials, researchers can increase its applications across different industries. *Materials Science and Engineering: Concepts, Methodologies, Tools, and Applications* is a compendium of the latest academic material on investigations, technologies, and techniques pertaining to analyzing the synthesis and design of new materials. Through its broad and extensive coverage on a variety of crucial topics, such as nanomaterials, biomaterials, and relevant computational methods, this multi-volume work is an essential reference source for engineers, academics, researchers, students, professionals, and practitioners seeking innovative perspectives in the field of materials science and engineering.

EXPLORING THE TECHNOLOGICAL, SOCIETAL, AND INSTITUTIONAL DIMENSIONS OF COLLEGE STUDENT ACTIVISM

IGI Global Social demonstrations that take place on university campuses have profound effects on students as well as the environments in which those students live and learn. These demonstrations, in recent years, have taken on traditional forms such as spontaneous protests, organized marches, and organized rallies, but they have also been affected by technologically mediated strategies that can bring larger sets of students together to support shared beliefs. *Exploring the Technological, Societal, and Institutional Dimensions of College Student Activism* provides emerging research exploring the theoretical and practical aspects of social demonstrations on university campuses and responses from administrative professionals. Featuring coverage on a broad range

of topics such as advocacy, student activism, and free speech, this book is ideally designed for university administrators, policymakers, government officials, academic leaders, researchers, and institutions seeking current research on student engagement in social demonstrations on the campuses of colleges and universities.

THE CONTENT TRAP

A STRATEGIST'S GUIDE TO DIGITAL CHANGE

Random House “My favorite book of the year.”—Doug McMillon, CEO, Wal-Mart Stores Harvard Business School Professor of Strategy Bharat Anand presents an incisive new approach to digital transformation that favors fostering connectivity over focusing exclusively on content. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Companies everywhere face two major challenges today: getting noticed and getting paid. To confront these obstacles, Bharat Anand examines a range of businesses around the world, from The New York Times to The Economist, from Chinese Internet giant Tencent to Scandinavian digital trailblazer Schibsted, and from talent management to the future of education. Drawing on these stories and on the latest research in economics, strategy, and marketing, this refreshingly engaging book reveals important lessons, smashes celebrated myths, and reorients strategy. Success for flourishing companies comes not from making the best content but from recognizing how content enables customers’ connectivity; it comes not from protecting the value of content at all costs but from unearthing related opportunities close by; and it comes not from mimicking competitors’ best practices but from seeing choices as part of a connected whole. Digital change means that everyone today can reach and interact with others directly: We are all in the content business. But that comes with risks that Bharat Anand teaches us how to recognize and navigate. Filled with conversations with key players and in-depth dispatches from the front lines of digital change, *The Content Trap* is an essential new playbook for navigating the turbulent waters in which we find ourselves. Praise for *The Content Trap* “A masterful and thought-provoking book that has reshaped my understanding of content in the digital landscape.”—Ariel Emanuel, co-CEO, WME | IMG “*The Content Trap* is a book filled with stories of businesses, from music companies to magazine publishers, that missed connections and could never escape the narrow views that had brought them past success. But it is also filled with stories of those who made strategic choices to strengthen the links between content and returns in their new master plans. . . . The book is a call to clear thinking and reassessing why things are the way they are.”—The Wall Street Journal

REDSKINS

INSULT AND BRAND

U of Nebraska Press *The Washington Redskins franchise remains one of the most valuable in professional sports, in part because of its easily recognizable, popular, and profitable brand. And yet "redskins" is a derogatory name for American Indians. The number of grassroots campaigns to change the name has risen in recent years despite the current team owner's assertion that the team will never do so. Franchise owners counter criticism by arguing that the team name is positive and a term of respect and honor that many American Indians embrace. The NFL, for its part, actively defends the name and supports it in court. Prominent journalists, politicians, and former players have publicly spoken out against the use of "Redskins" as the name of the team. Sportscaster Bob Costas denounced the name as a racial slur during a halftime show in 2013. U.S. Representative Betty McCollum marched outside the stadium with other protesters--among them former Minnesota Vikings player Joey Browner--urging that the name be changed. Redskins: Insult and Brand examines how the ongoing struggle over the team name raises important questions about how white Americans perceive American Indians, about the cultural power of consumer brands, and about continuing obstacles to inclusion and equality. C. Richard King examines the history of the team's name, the evolution of the term "redskin," and the various ways in which people both support and oppose its use today. King's hard-hitting approach to the team's logo and mascot exposes the disturbing history of a moniker's association with the NFL--a multibillion-dollar entity that accepts public funds--as well as popular attitudes toward Native Americans today.*

FROM PROBLEM TO POSSIBILITY

ACTION AND RESEARCH FOR LEADING UP TO CONTINUOUS IMPROVEMENT

Rowman & Littlefield *The purpose of this book is to persuade leaders that action research is leadership.*

THE SAGE ENCYCLOPEDIA OF WORLD POVERTY

SAGE Publications *The SAGE Encyclopedia of World Poverty, Second Edition addresses the persistence of poverty across the globe while updating and expanding the landmark work, Encyclopedia of World Poverty, originally published in 2006 prior to the economic calamities of 2008. For instance, while continued high rates of income inequality might be unsurprising in developing countries such as Mexico, the Organization of Economic Co-operation and Development (OECD) reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade, including Denmark, Sweden, and Germany. The U.N. and the World Bank also emphasize the persistent nature of the problem. It is not all bad news. In March 2013, the*

Guardian newspaper reported, "Some of the poorest people in the world are becoming significantly less poor, according to a groundbreaking academic study which has taken a new approach to measuring deprivation. The report, by Oxford University's poverty and human development initiative, predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates." On the other hand, the U.N. says environmental threats from climate change could push billions more into extreme poverty in coming decades. All of these points lead to the need for a revised, updated, and expanded edition of the Encyclopedia of World Poverty. Key Features: 775 evaluated and updated and 175 entirely new entries New Reader's Guide categories Signed articles, with cross-references Further Readings will be accompanied by pedagogical elements Updated Chronology, Resource Guide, Glossary, and thorough new Index The SAGE Encyclopedia of World Poverty, Second Edition is a dependable source for students and researchers who are researching world poverty, making it a must-have reference for all academic libraries.

OPERATIONS MANAGEMENT

MANAGING GLOBAL SUPPLY CHAINS

SAGE Publications Operations Management: Managing Global Supply Chains takes a holistic, integrated approach to managing operations and supply chains by exploring the strategic, tactical, and operational decisions and challenges facing organizations worldwide. Authors Ray R. Venkataraman and Jeffrey K. Pinto address sustainability in each chapter, showing that sustainable operations and supply chain practices are not only attainable, but are critical and often profitable practices for organizations to undertake. With a focus on critical thinking and problem solving, Operations Management provides students with a comprehensive introduction to the field and equips them with the tools necessary to thrive in today's evolving global business environment.

SPINGLISH

THE DEFINITIVE DICTIONARY OF DELIBERATELY DECEPTIVE LANGUAGE

Penguin Spinglish—the devious dialect of English used by professional spin doctors—is all around us. And the fact is, until you've mastered it, politicians and corporations (not to mention your colleagues and friends) will continue putting things over on you, and generally getting the better of you, every minute of every day—without your even knowing it. However, once you perfect the art of terminological inexactitude, you'll be the one manipulating and one-upping everyone else! And here's the beauty part: Henry Beard and Christopher Cerf, authors of the New York Times semi-bestseller The Official Politically Correct Dictionary and Handbook, have

compiled this handy yet astonishingly comprehensive lexicon and translation guide—a fictionary, if you will—to help you do just that. If you want to succeed in business (or politics, sports, the arts, or life in general) without really lying, this is the book for you! (Your results may vary.) Spinglish includes these nifty bits of spurious verbiage and over a thousand more: aesthetic procedure – face-lift dairy nutrients – cow manure enhanced interrogation techniques – torture “For your convenience.” – “For our convenience.” hands-on mentoring – sexual relations with a junior employee incomplete success – failure rightsizing – firing people zero-tasking – doing nothing With each and every entry sourced from some of the greatest real-life language benders in the world today, you’re virtually guaranteed to have the perfectly chosen tried-and-untrue term right at the tip of your forked tongue. Wish you could nimbly sidestep a question without batting an eye? Not sure how to apologize while also . . . not apologizing? Spinglish has you covered. Simply consult this convenient, shoot-from-the-lip glossary, and before you know it, you’ll be telling it like it isn’t, it wasn’t, and it couldn’t ever have been.

BATES’ GUIDE TO PHYSICAL EXAMINATION AND HISTORY TAKING

Wolters kluwer india Pvt Ltd Bates' Guide to Physical Examination and History Taking is designed for undergraduate and postgraduate students in medicine and allied specialties

A LAB OF ONE’S OWN

ONE WOMAN'S PERSONAL JOURNEY THROUGH SEXISM IN SCIENCE

Simon & Schuster A riveting memoir-manifesto from the first female director of the National Science Foundation about the entrenched sexism in science, the elaborate detours women have taken to bypass the problem, and how to fix the system. If you think sexism thrives only on Wall Street or in Hollywood, you haven’t visited a lab, a science department, a research foundation, or a biotech firm. Rita Colwell is one of the top scientists in America: the groundbreaking microbiologist who discovered how cholera survives between epidemics and the former head of the National Science Foundation. But when she first applied for a graduate fellowship in bacteriology, she was told, “We don’t waste fellowships on women.” A lack of support from some male superiors would lead her to change her area of study six times before completing her PhD. A Lab of One’s Own documents all Colwell has seen and heard over her six decades in science, from sexual harassment in the lab to obscure systems blocking women from leading professional organizations or publishing their work. Along the way, she encounters other women pushing back against the status quo, including a group at MIT who revolt when they discover their labs are a fraction of the size of their male colleagues’. Resistance gave female scientists special gifts: forced to change specialties so many times, they came to see things in a more interdisciplinary way, which turned out to be key

to making new discoveries in the twentieth and twenty-first centuries. Colwell would also witness the advances that could be made when men and women worked together—often under her direction, such as when she headed a team that helped to uncover the source of the anthrax used in the 2001 letter attacks. *A Lab of One's Own* shares the sheer joy a scientist feels when moving toward a breakthrough, and the thrill of uncovering a whole new generation of female pioneers. But it is also the science book for the #MeToo era, offering an astute diagnosis of how to fix the problem of sexism in science—and a celebration of the women pushing back.

BANKERS IN THE IVORY TOWER

THE TROUBLING RISE OF FINANCIERS IN US HIGHER EDUCATION

University of Chicago Press "*Higher education has always played a crucial role in maintaining elite status in American culture. Historically, it has also been a way for Americans to transform their social and class status, and public universities have been a major stepping stone to new economic opportunities. However, as Charlie Eaton reveals in *Bankers in the Ivory Tower*, finance is playing a central role in widening inequality both in American higher education and in American society at large. With federal and state funding falling short, the US higher education system has become increasingly dependent on financial markets and the financial organizations which mediate them. At the same time, the nation's most exclusive colleges have embedded America's ascendant financiers in social networks, a common culture, and shared identities with the country's broader elite. Financiers leveraged these elite ties in pushing for policy and organizational changes that would lead to profits for the top 1% such as the expansion student loans, hedge funds marketed to college endowments, investor-owned for-profit colleges, and bond borrowing by not-for-profit universities. Beginning in the 1980s, government, colleges, students, and their families took on multiple new roles as financial investors, borrowers, and brokers. The turn to finance, however, has yielded wildly unequal results. At the top, ties to Wall Street helped the most elite private schools achieve the greatest endowment growth through hedge fund investments and the support of wealthy donors. At the bottom, takeovers by private equity transformed for-profit colleges into predatory organizations that leave disadvantaged students with massive loan debt and few educational benefits. And in the middle, public universities like the University of California system were squeezed between incentives to increase tuition and pressures to maintain access and affordability. Eaton chronicles these processes with rich history, interviews, and numbers, making clear for the first time just how tight the links are between big finance and America's highly unequal system of higher education"*--

25+ IBPS RRB MOCK PAPERS FOR PO & CLERK EBOOK

Adda247 Publications *This eBook Useful for IBPS RRB PO-Adda247 brings to you 25+ IBPS RRB PO|Clerk Prelims Mock Papers 2019*

(ENGLISH PRINTED EDITION) that incorporates mock papers that you need to practice to crack this exam. . It provides previous year papers of 2018, 2017 and 2016 along with 10 Mock papers for IBPS RRB PO Prelims 2019 & 10 Mock papers for IBPS RRB Clerk Prelims 2019 examination. Practicing with all the questions and mocks provided in the eBook ensures your success in the upcoming exams of IBPS RRB 2019 Examination because it covers everything from basics to the highest level one can go to while preparing for these exams. The mocks in this eBook are different from Adda247 online test series for IBPS RRB 2019. Features of "25+ IBPS RRB PO|Clerk Prelims 2019: Mock Test Papers"(English Medium)- 2000 Questions, 10 IBPS RRB PO Mock Papers, 10 IBPS RRB Clerk Mock Papers , 3 IBPS RRB PO (Memory Based) Papers 2018,2017 & 2016, 3 IBPS RRB Clerk (Memory Based) Papers 2018,2017 & 2016 , 100% Solutions of all the questions, Detailed Solutions for better understanding

HOW TO RAISE AN ADULT

BREAK FREE OF THE OVERPARENTING TRAP AND PREPARE YOUR KID FOR SUCCESS

Henry Holt and Company *New York Times Bestseller* "Julie Lythcott-Haims is a national treasure. . . . A must-read for every parent who senses that there is a healthier and saner way to raise our children." -Madeline Levine, author of the *New York Times* bestsellers *The Price of Privilege* and *Teach Your Children Well* "For parents who want to foster hearty self-reliance instead of hollow self-esteem, *How to Raise an Adult* is the right book at the right time." -Daniel H. Pink, author of the *New York Times* bestsellers *Drive* and *A Whole New Mind* A provocative manifesto that exposes the harms of helicopter parenting and sets forth an alternate philosophy for raising preteens and teens to self-sufficient young adulthood In *How to Raise an Adult*, Julie Lythcott-Haims draws on research, on conversations with admissions officers, educators, and employers, and on her own insights as a mother and as a student dean to highlight the ways in which overparenting harms children, their stressed-out parents, and society at large. While empathizing with the parental hopes and, especially, fears that lead to overhelping, Lythcott-Haims offers practical alternative strategies that underline the importance of allowing children to make their own mistakes and develop the resilience, resourcefulness, and inner determination necessary for success. Relevant to parents of toddlers as well as of twentysomethings-and of special value to parents of teens-this book is a rallying cry for those who wish to ensure that the next generation can take charge of their own lives with competence and confidence.

LAW AND SOCIETY IN A POPULIST AGE

BALANCING INDIVIDUAL RIGHTS AND THE COMMON GOOD

Policy Press The law-based, political institutions in many democratic societies are being challenged by fast-growing populist movements, parties, and leaders. In other nations, the state is failing. These seismic changes call for greater attention to be paid to the role society plays in forming and challenging laws—and how the law copes with these challenges. Amitai Etzioni, one of the most respected thinkers in the US, argues for a new liberal communitarian approach as an effective response to populism. This recognizes that different members of the society have differing values, interests, and needs that cannot be fully reconciled to legislation in a populist age. The book considers the core challenge in a variety of contexts, including national security versus privacy, private sector responsibility, freedom of the press, campaign finance reform, regulatory law and the legal status of terrorists. Thus the book offers a timely discussion of key issues for contemporary society and the relationship of the law to the citizen in a fast-changing environment.

REFRAMING THE SUBJECT

POSTWAR INSTRUCTIONAL FILM AND CLASS-CONSCIOUS LITERACIES

University of Pittsburgh Press “Mental hygiene” films developed for classroom use touted vigilance, correct behavior, morality, and model citizenship. They also became powerful tools for teaching literacy skills and literacy-based behaviors to young people following the Second World War. In this study, Kelly Ritter offers an extensive theoretical analysis of the alliance of the value systems inherent in mental hygiene films (class-based ideals, democracy, patriotism) with writing education—an alliance that continues today by way of the mass digital technologies used in teaching online. She further details the larger material and cultural forces at work in the production of these films behind the scenes and their effects on education trends. Through her examination of literacy theory, instructional films, policy documents, and textbooks of the late 1940s to mid-1950s, Ritter demonstrates a reliance on pedagogies that emphasize institutional ideologies and correctness over epistemic complexity and de-emphasize the role of the student in his or her own learning process. To Ritter, these practices are sustained in today’s pedagogies and media that create a false promise of social uplift through formalized education, instead often resulting in negative material consequences.

CECIL BROWN

THE MURROW BOY WHO BECAME BROADCASTING’S CRUSADER FOR TRUTH

McFarland The son of Jewish immigrants, war correspondent Cecil Brown (1907-1987) was a member of CBS’ esteemed Murrow Boys. Expelled from Italy and Singapore for reporting the facts, he witnessed the Nazi invasion of Yugoslavia and the war in North Africa, and survived the sinking of the British battleship HMS Repulse by a Japanese submarine. Back in the U.S., he became an influential commentator during the years when Americans sought a dispassionate voice to make sense of complex developments. He was one of the first journalists to champion civil rights, to condemn Senator McCarthy’s tactics (and President Eisenhower’s reticence), and to support Israel’s creation. Although he won every major broadcast journalism award, his accomplishments have been largely overlooked by historians. This first biography of Brown chronicles his career in journalism and traces his contributions to the

profession.

PEACEFUL INTERVENTION IN INTRA-STATE CONFLICTS

NORWEGIAN INVOLVEMENT IN THE SRI LANKAN PEACE PROCESS

Routledge Have we reached an end to the era of peaceful third party intervention in conflict management and resolution? In the 1990s, with the ending of the Cold War, the intervention of third parties as a non-violent means of negotiating settlements of intra-state conflicts gained prominence but the emphasis in the twenty-first century has been increasingly on military responses. *Peaceful Intervention in Intra-State Conflicts: Norwegian Involvement in the Sri Lankan Peace Process* is an in-depth, impartial discussion on the background, decision making processes and procedures and related actions in the Norwegian facilitated peace process in Sri Lanka that gradually shifted towards a military solution. It provides the reader with evidence based comprehensive analysis on the attempts of peaceful third party intervention in a complex ethno-separatist intra-state conflict.

LIKE NOBODY'S BUSINESS

AN INSIDER'S GUIDE TO HOW US UNIVERSITY FINANCES REALLY WORK

Open Book Publishers How do university finances really work? From flagship public research universities to small, private liberal arts colleges, there are few aspects of these institutions associated with more confusion, myths or lack of understanding than how they fund themselves and function in the business of higher education. Using simple, approachable explanations supported by clear illustrations, this book takes the reader on an engaging and enlightening tour of how the money flows. How does the university really pay for itself? Why do tuition and fees rise so fast? Why do universities lose money on research? Do most donations go to athletics? Grounded in hard data, original analyses, and the practical experience of a seasoned administrator, this book provides refreshingly clear answers and comprehensive insights for anyone on or off campus who is interested in the business of the university: how it earns its money, how it spends it, and how it all works.

AMERICAN INDIANS AT THE MARGINS

RACIST STEREOTYPES AND THEIR IMPACTS ON NATIVE PEOPLES

McFarland Since the earliest days of America, racist imagery has been used to create harmful stereotypes of the indigenous people. In

this book, the conflict between invading European white settlers and the indigenous groups who occupied the land that became the United States is described through the context of race and racism. Using depictions from art, literature, radio, cinema and television, the origin and persistence of such stereotypes are explained, and their debilitating effects on the well-being of Indians are presented. This text also explores their accomplishments in attempts to maintain their sovereignty, dignity and respect.

“I LOVE LEARNING; I HATE SCHOOL”

AN ANTHROPOLOGY OF COLLEGE

Cornell University Press Frustrated by her students' performance, her relationships with them, and her own daughter's problems in school, Susan D. Blum, a professor of anthropology, set out to understand why her students found their educational experience at a top-tier institution so profoundly difficult and unsatisfying. Through her research and in conversations with her students, she discovered a troubling mismatch between the goals of the university and the needs of students. In "I Love Learning; I Hate School," Blum tells two intertwined but inseparable stories: the results of her research into how students learn contrasted with the way conventional education works, and the personal narrative of how she herself was transformed by this understanding. Blum concludes that the dominant forms of higher education do not match the myriad forms of learning that help students—people in general—master meaningful and worthwhile skills and knowledge. Students are capable of learning huge amounts, but the ways higher education is structured often leads them to fail to learn. More than that, it leads to ill effects. In this critique of higher education, infused with anthropological insights, Blum explains why so much is going wrong and offers suggestions for how to bring classroom learning more in line with appropriate forms of engagement. She challenges our system of education and argues for a “reintegration of learning with life.”

ABSTRACTS OF PAPERS

THIRD CHEMICAL CONGRESS OF NORTH AMERICA, TORONTO, CANADA, JUNE 5-10, 1988

COBBETT'S PARLIAMENTARY DEBATES

HANSARD'S PARLIAMENTARY DEBATES

FIGHTING TERRORISM

SURVEILLANCE AND TARGETED KILLING IN POST-9/11 WORLD

Charles University in Prague, Karolinum Press The war on terror, launched by the 9/11 terrorist attacks, has been waged inside as well as outside the U.S. borders. Perception of threat and efforts to ensure national security have led the United States to major reforms in its national security policy, involving new military, security and legislative concepts. On the level of waging war outside the U.S. borders, the United States has introduced the system of Unmanned Aerial vehicles (UAVs), autonomous aircrafts without human pilot aboard, opening the possibility of highly effective computer game-like targeted killing. On the domestic level, new pieces of legislation and other antiterrorism measures have been raising privacy awareness and concerns whether the U.S. government keeps observing the Constitution. Nowadays, as advanced technology offers wide range of possibilities how to intrude one's privacy and effectively kill people, legal and ethical considerations have to catch up the reality. This work therefore seeks to elaborate on the statutory and constitutional framework of the current U.S surveillance measures as well as the limits of utilization of UAVs.

THE DIGITAL HUMANITIES

IMPLICATIONS FOR LIBRARIANS, LIBRARIES, AND LIBRARIANSHIP

Routledge The digital humanities in academic institutions, and libraries in particular, have exploded in recent years. Librarians are constantly developing their management and technological skills and increasing their knowledge base. As they continue to embed themselves in the scholarly conversations on campus, the challenges facing subject/liaison librarians, technical service librarians, and library administrators are many. This comprehensive volume highlights the wide variety of theoretical issues discussed, initiatives pursued, and projects implemented by academic librarians. Many of the chapters deal with digital humanities pedagogy—planning and conducting training workshops, institutes, semester-long courses, embedded librarian instruction, and instructional assessment—with some chapters focusing specifically on applications of the “ACRL Framework for Information Literacy for Higher Education.” The authors also explore a wide variety of other topics, including the emotional labor of librarians; the challenges of transforming static traditional collections into dynamic, user-centered, digital projects; conceptualizing and creating models of collaboration; digital publishing; and developing and planning projects including improving one's own project management skills. This collection effectively illustrates how librarians are enabling themselves through active research partnerships in an ever-changing scholarly environment. This book was originally published as a special triple issue of the journal *College & Undergraduate Libraries*.

REVISITING SECULARISM IN THEORY AND PRACTICE

GENEALOGY AND CASES

Springer Nature This book offers a philosophical and macro-historical analysis of secularism, supported by an investigation of various contemporary cases. Starting with an in-depth theoretical discussion of the meaning of secularism, it subsequently presents a historical study on the secularization of norms and identities in Europe. The respective case studies cover topics such as the epistemologies of secularism, liberalization and embedded secularism, the relationship between modernity and secularism, the socio-anthropology of secularism, Turkish modernization as a cultural revolution, the political economy of secularism in Turkey, and the secular rationale of the EU neighborhood policy.

THE ENGINEER

THE MAN IN THE ARENA

THE LIFE AND TIMES OF U. S. SENATOR GALE MCGEE

U of Nebraska Press There was a time when Wyoming and other Rocky Mountain and midwestern states were as likely to elect a liberal Democrat to Congress as they were a conservative Republican. Gale McGee (1915-92) was elected to the U.S. Senate in 1958, at the height of American liberalism. He typified what Teddy Roosevelt called "the man in the arena" and was a major player in the development of America's post-World War II foreign policy and almost every legislative milestone in U.S. history from the 1950s to 1980. McGee's careers as an academic, a senator, and an ambassador spanned World War II, the Red Scare, the Korean and Vietnam Wars, and the activist Congress of the 1960s. This elegantly conceived biography of a liberal from the conservative rural state of Wyoming offers readers a glimpse into formative political shifts of the twentieth century. The national liberal consensus of the 1960s, in which McGee played a major role, gave the nation Social Security, Medicare, Medicaid, the minimum wage, and the right to collective bargaining, as well as landmark civil rights and environmental reforms. That consensus had ended by the mid-1970s as

McGee's liberalism would no longer be welcome to represent the Equality State. Moving beyond biography, Rodger McDaniel addresses the significant shift in government and details how the attribution "liberal" became a candidate's epitaph, as widespread distrust of government cast a shadow on the many benefits acquired through the old liberal consensus. McDaniel's insights into the past as well as McGee's experiences in the arena shed unexpected light on the present state of U.S. politics and government.

THE PROBLEM OF SOCIAL INEQUALITY

WHY IT DESTROYS DEMOCRACY, THREATENS THE PLANET, AND WHAT WE CAN DO ABOUT IT

Routledge Within and among nations, rising levels of social inequality threaten our collective future. Currently, upwards of 80% of people's life chances are determined by factors over which they have absolutely no control. Social inequality threatens the democratic project because it destroys the trust on which governments depend, and it gives rise to corrupt political and economic institutions. How can we get out of the traps we have created for ourselves? We need to reboot capitalism. Drawing on diverse examples from a range of countries, McNall explains the social, economic, and ecological traps we have set for ourselves and develops a set of rules of resilience that are necessary conditions for the creation and maintenance of democratic societies, and a set of rules essential for creating a sustainable future.
