Updated as part of our commitment to the inclusive presentation of diverse histories and to reflect the world around us, this textbook covers the story of the British Empire during this period. **Stuart Britain: A**

Very Short Introduction Oxford Paperbacks First published as part of the best-selling *The Oxford Illustrated History of Britain*, John Morrill's *Very Short Introduction to Stuart Britain* sets the Revolution into its political, religious, social, economic, intellectual, and cultural contexts. It thus seeks to integrate what most other surveys pull apart. It gives a graphic account of the effects of a century-long period during which population was growing inexorably and faster than both the food supply and the employment market. It looks at the failed attempts of successive governments to make all those under their authority obedient members of a unified national church; it looks at how Charles I blundered into a civil war which then took on a terrifying momentum of its own. The result was his trial and execution, the abolition of the monarchy, the house of lords, the bishops, the prayer book and the celebration of Christmas. As a result everything else that people took for granted came up for challenge, and this book shows how painfully and with what difficulty order and obedience was restored. Vividly illustrated and full of startling detail, this is an ideal introduction to those interested in getting into the period, and also contains much to challenge and stimulate those who already feel at home in Stuart England. **ABOUT THE SERIES:** The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. **Monarchy Transformed Princes and their Elites in Early Modern Western Europe** Cambridge University Press This decisive contribution to the long-running debate about the dynamics of state formation and elite transformation in early modern Europe examines the new monarchies that emerged during the course of the 'long seventeenth century'. It argues that the players surviving the power struggles of this period were not 'states' in any modern sense, but primarily princely dynasties pursuing not only dynastic ambitions and princely prestige but the consequences of dynastic chance. At the same time, elites, far from insisting on confrontation with the government of princes for principled ideological reasons, had every reason to seek compromise and even advancement through new channels that the governing dynasty offered, if only they could profit from them. *Monarchy Transformed* ultimately challenges the inevitability of modern maps of Europe and shows how, instead of promoting state formation, the wars of the period witnessed the creation of several dynastic agglomerates and new kinds of aristocracy. **Oxford AQA History Stuart Britain and the Crisis of Monarchy, 1603-1702** Oxford University Press, USA This book is approved by AQA and covers in breadth issues of change, continuity, and cause and consequence in this period of British history through key themes such as how far did the monarchy change during Stuart Britain, why were there disputes over religion, how effective was opposition, and how important were ideologies and individuals. **Prominent Families of New York Being an Account in Biographical Form of Individuals and Families Distinguished as Representatives of the Social, Professional and Civic Life of New York City** **The History of England - a Study in Political Evolution** Good Press "The History of England - a Study in Political Evolution" by A. Supporting students in developing their critical thinking, research and written communication skills, it also encourages them to make links between different time periods, topics and historical themes.

The Company-State Corporate Sovereignty and the Early Modern Foundations of the British Empire in India Oxford University Press The Company-State offers a political and intellectual history of the English East India Company in the century before its acquisition of territorial power. It argues the Company was no mere merchant, but a form of early modern, colonial state and sovereign that laid the foundations for the British Empire in India.

The True Law of Free Monarchies And, Basilikon Doron Centre for Reformation and Renaissance Studies

The Stuart Age England, 1603-1714 Longman Publishing Group A major undertaking in its own right, this Second Edition of *The Stuart Age* (revised throughout, and reset in a more generous format) is fully worthy of the immensely successful First Edition. It provides clear and accessible interpretations of the many changes that took place in these crowded years -- still the centre of the most lively and intellectually exciting debates of any period of British history -- but its aim is not to persuade readers to accept these interpretations uncritically, but to help them take part in the ongoing debate themselves.

Mystifying the Monarch Studies on Discourse, Power, and

History Amsterdam University Press *The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.*

The Jews in a Polish Private Town The Case of Opatów in the Eighteenth Century JHU Press *Hundert recovers an important community from historical obscurity by providing a balanced perspective on the Jewish experience in the Polish Commonwealth and by describing the special dimensions of Jewish life in a private town.*

Constitutionalism Ancient and Modern The Lawbook Exchange, Ltd. McIlwain, Charles Howard. *Constitutionalism: Ancient and Modern. Ithaca: Cornell University Press, 1940. ix, 162 pp. Reprint available June 2005 by The Lawbook Exchange, Ltd. ISBN 1-58477-550-5. Cloth. \$75.*

* Upon publication *The Law Quarterly Review* praised this book, noting that "great learning is manifest in these pages" (cited in Marke). *McIlwain [1871-1968] examines of the rise of constitutionalism from the "democratic strands" in the works of Aristotle and Cicero through the transitional moment between the medieval and the modern eras. He concludes with a discussion of the forces of despotism that were threatening constitutionally based individual freedom in the 1930s. One of the twentieth century's most distinguished scholars of Anglo-American constitutional history, McIlwain was Eaton Professor of the Science of Government in Harvard University and the author of *The High Court of Parliament and Its Supremacy* (1910) and *The American Revolution: A Constitutional Interpretation* (1924). Both of these are available as Lawbook Exchange reprints.*

Violence and Social Orders A Conceptual Framework for Interpreting Recorded Human History Cambridge University Press *This book integrates the problem of violence into a larger framework, showing how economic and political behavior are closely linked.*

New England Families, Genealogical and Memorial A Record of the Achievements of Her People in the Making of Commonwealths and the Founding of a Nation When Scotland Was Jewish DNA Evidence, Archeology, Analysis of Migrations, and Public and Family Records Show Twelfth Century Semitic Roots McFarland *The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family*

crests, portraiture, and geographic place names. **AQA A-level History: The Tudors: England 1485-1603** Hodder Education AQA approved Enhance and expand your students' knowledge and understanding of their AQA breadth study through expert narrative, progressive skills development and bespoke essays from leading historians on key debates. - Builds students' understanding of the events and issues of the period with authoritative, well-researched narrative that covers the specification content - Introduces the key concepts of change, continuity, cause and consequence, encouraging students to make comparisons across time as they advance through the course - Improves students' skills in tackling interpretation questions and essay writing by providing clear guidance and practice activities - Boosts students' interpretative skills and interest in history through extended reading opportunities consisting of specially commissioned essays from practising historians on relevant debates - Cements understanding of the broad issues underpinning the period with overviews of the key questions, end-of-chapter summaries and diagrams that double up as handy revision aids

The Tudors: England 1485-1603 A revised edition of *Access to History: An Introduction to Tudor England 1485-1603*, this title explores the consolidation of the Tudor Dynasty under Henry VII and Henry VIII, the years of instability and religious turmoil in the mid-Tudor period and the period of relative stability during Elizabeth I's reign. It considers breadth issues of change, continuity, cause and consequence in this period through examining key questions on themes such as power, religion, opposition, relations with foreign powers and the impact of key individuals.

The History of the London Water Industry, 1580-1820 JHU Press Beginning in 1580, a number of competing London companies sold water directly to consumers through a large network of wooden mains in the expanding metropolis. This new water industry flourished throughout the 1600s, eventually expanding to serve tens of thousands of homes. By the late eighteenth century, more than 80 percent of the city's houses had water connections—making London the best-served metropolis in the world while demonstrating that it was legally, commercially, and technologically possible to run an infrastructure network within the largest city on earth. In this richly detailed book, historian Leslie Tomory shows how new technologies imported from the Continent, including waterwheel-driven piston pumps, spurred the rapid growth of London's water industry. The business was further sustained by an explosion in consumer demand, particularly in the city's wealthy West End. Meanwhile, several key local innovations reshaped the industry by enlarging the size of the supply network. By 1800, the success of London's water industry made it a model for other cities in Europe and beyond as they began to build their own water networks. The city's water infrastructure even inspired builders of other large-scale urban projects, including gas and sewage supply networks. *The History of the London Water Industry, 1580-1820* explores the technological, cultural, and mercantile factors that created and sustained this remarkable industry. Tomory examines how the joint-stock form became popular with water companies, providing a stable legal structure that allowed for expansion. He also explains how the roots of the London water industry's divergence from the Continent and even from other British cities was rooted both in the size of London as a market and in the late seventeenth-century consumer revolution. This fascinating and unique study of essential utilities in the

early modern period will interest business historians and historians of science and technology alike. **Legal Foundations of Capitalism** New York : The Macmillan

History in the Making A History of the People of the United States of America To 1877 A peer-reviewed open U.S. History Textbook released under a CC BY SA 3.0 Unported License. **Britain in Revolution 1625-1660** OUP Oxford This is the definitive history of the English Civil War, set in its full historical context from the accession of Charles I to the Restoration of Charles II. These were the most turbulent years of British history and their reverberations have been felt down the centuries. Throughout the middle decades of the seventeenth century England, Scotland, and Ireland were convulsed by political upheaval and wracked by rebellion and civil war. The Stuart monarchy was in abeyance for twenty years in all three kingdoms, and Charles I famously met his death on the scaffold. Austin Woolrych breathes life back into the story of these years, the sweep of his prose buttressed by the authority of a lifetime's scholarship. He captures the drama and the passion, the momentum of events and the force of contingency. He brilliantly interweaves the history of the three kingdoms and their peoples, gripping the reader with the fast-paced yet always balanced story. **Regicide and Republic England 1603-1660** Cambridge University Press An engaging range of period texts and theme books for AS and A Level history. The period from 1603 to 1660 is characterised by complex religious and political developments, and dramatic events such as the execution of Charles I, civil war and the introduction of a republican form of government. In this clearly argued account, Graham E. Seel identifies the main political, religious and economic factors that help explain the events of this turbulent period, and assesses the role of leading personalities such as James VI and I, Charles I, Buckingham and Cromwell. **Regicide and republic** includes the additional document study *The Civil War, 1637-49*. **A History of Law in Europe From the Early Middle Ages to the Twentieth Century** Cambridge University Press The first English translation of a comprehensive legal history of Europe from the early middle ages to the twentieth century, encompassing both the common aspects and the original developments of different countries. As well as legal scholars and professionals, it will appeal to those interested in the general history of European civilisation. **Modern South Asia History, Culture, Political Economy** Routledge The South Asian subcontinent is home to nearly a billion people and has been the site of fierce historical contestation. It is a panoply of languages and religions with a rich and complex history and culture. Drawing on the newest and most sophisticated historical research and scholarship in the field, *Modern South Asia* is written in an accessible style for all those with an intellectual curiosity about the region. After sketching the pre-modern history of the subcontinent, the book concentrates on the last three centuries from c.1700 to the present. Jointly written by two leading Indian and Pakistani historians, it offers a rare depth of historical understanding of the politics, cultures and economies that shape the lives of more than a fifth of humanity. In this comprehensive study, the authors debate and challenge the striking developments in contemporary South Asian history and historical writing. The book provides new insights into the structure and ideology of the British raj, the meaning of subaltern resistance, the refashioning of social relations along lines of caste, class, community and gender, the different strands of anti-colonial nationalism and the dynamics of

decolonization. This book is a work of synthesis and interpretation covering the entire spectrum of modern South Asian history - social, economic and political. The authors offer an understanding of this strategically and economically vital part of the world. **The Constitutional History of England The Thirty Years War Europe's Tragedy** Harvard University Press A deadly continental struggle, the Thirty Years War devastated seventeenth-century Europe, killing nearly a quarter of all Germans and laying waste to towns and countryside alike. Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world. **A Short History of the United States From the Arrival of Native American Tribes to the Obama Presidency** Harper Collins In A Short History of the United States, National Book Award winner Robert V. Remini offers a much-needed, concise history of our country. This accessible and lively volume contains the essential facts about the discovery, settlement, growth, and development of the American nation and its institutions, including the arrival and migration of Native Americans, the founding of a republic under the Constitution, the emergence of the United States as a world power, the outbreak of terrorism here and abroad, the Obama presidency, and everything in between. **James VI and I** Longman Sc & Tech Adopting a thematic approach, this addition to the Profiles in Power series aims to provide an objective assessment of James VI and I, a figure who has traditionally been viewed critically as both as a man and a monarch. **Shakespeare in Print A History and Chronology of Shakespeare Publishing** Cambridge University Press Described by the TLS as 'a formidable bibliographical achievement ... destined to become a key reference work for Shakespeareans', Shakespeare in Print is now issued in a revised and expanded edition offering a wealth of new material, including a chapter which maps the history of digital editions from the earliest computer-generated texts to the very latest digital resources. Murphy's narrative offers a masterful overview of the history of Shakespeare publishing and editing, teasing out the greater cultural significance of the ways in which the plays and poems have been disseminated and received over the centuries from Shakespeare's time to our own. The opening chapters have been completely rewritten to offer close engagement with the careers of the network of publishers and printers who first brought Shakespeare to print, additional material has been added to all chapters, and the chronological appendix has been updated and expanded. **English Puritanism** Bloomsbury Publishing The Puritans of seventeenth century England have been blamed for everything from the English civil war to the rise of capitalism. But who were the Puritans of Stuart England? Were they apostles of liberty, who fled from persecution to the New World? Or were they intolerant fanatics, intent on bringing godliness to Stuart England? This study provides a clear narrative of the rise and fall of the Puritans across the troubled seventeenth century. Their story is placed in context by analytical chapters, which describe what the Puritans believed and how they organised their religious and social life. Quoting many contemporary sources, including diaries, plays and sermons, this is a vivid and comprehensible account, drawing on the most recent scholarship. Readers will find this book an indispensable guide, not only to the religious history of seventeenth century England, but also to its political and social history. **A Crown of Maples Constitutional Monarchy in Canada** "An overview of the history, traditions and

contemporary links that Canada shares with the monarchy." - letter from Minister of Canadian Heritage and Official Languages. **The Stuart Age England, 1603-1714** Pearson Education The Stuart Age, Third Edition is the definitive history of England's century of civil war and revolution. Barry Coward provides clear and accessible interpretations of the many changes that took place in these crowded years of British history, but its aim is not to persuade readers to accept these interpretations uncritically, but to help them take part in the ongoing debate themselves. This new edition clarifies and makes sense of recent historiographical trends over the last decade. In a substantial new introduction to the volume, Barry Coward provides an important assessment of the impact of new revisionist approaches on historical writing about the Stuart age. For readers interested in British **A Brief History of Commercial Capitalism** Haymarket Books The rise of capitalism to global dominance is still largely associated - by both laypeople and Marxist historians - with the industrial capitalism that made its decisive breakthrough in 18th century Britain. Jairus Banaji's new work reaches back centuries and traverses vast distances to argue that this leap was preceded by a long era of distinct "commercial capitalism", which reorganised labor and production on a world scale to a degree hitherto rarely appreciated. Rather than a picture centred solely on Europe, we enter a diverse and vibrant world. Banaji reveals the cantons of Muslim merchants trading in Guangzhou since the eighth century, the 3,000 European traders recorded in Alexandria in 1216, the Genoese, Venetians and Spanish Jews battling for commercial dominance of Constantinople and later Istanbul. We are left with a rich and global portrait of a world constantly in motion, tied together and increasingly dominated by a pre-industrial capitalism. The rise of Europe to world domination, in this view, has nothing to do with any unique genius, but rather a distinct fusion of commercial capitalism with state power. **A General History of the Burr Family With a Genealogical Record from 1193 to 1902** Peterson's AP European History Peterson's A History of the American People Harper Perennial "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson's remarkable new American history. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." Johnson's history is a reinterpretation of American history from the first settlements to the Clinton administration. It covers every aspect of U.S. history-- politics; business and economics; art, literature and science; society and customs; complex traditions and religious beliefs. The story is told in terms of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Wherever possible, letters, diaries, and recorded conversations are used to ensure a sense of actuality. "The book has new and often trenchant things to say about every aspect and period of America's past," says Johnson, "and I do not seek, as some historians do, to conceal my opinions." Johnson's history presents John Winthrop, Roger Williams, Anne Hutchinson, Cotton Mather, Franklin, Tom Paine, Washington, Adams, Jefferson, Hamilton, and Madison from a fresh perspective. It emphasizes the role of religion in American history and how early America was linked to England's history and culture and includes incisive portraits of Andrew Jackson, Chief Justice Marshall, Clay, Lincoln, and Jefferson Davis. Johnson shows how Grover Cleveland and Teddy Roosevelt ushered in the age of big

business and industry and how Woodrow Wilson revolutionized the government's role. He offers new views of Harding, Coolidge, and Hoover and of Franklin Roosevelt's New Deal and his role as commander in chief during World War II. An examination of the unforeseen greatness of Harry Truman and reassessments of Eisenhower, Kennedy, Johnson, Nixon, Reagan, and Bush follow. "Compulsively readable," said Foreign Affairs of Johnson's unique narrative skills and sharp profiles of people. This is an in-depth portrait of a great people, from their fragile origins through their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power and its sole superpower. Johnson discusses such contemporary topics as the politics of racism, education, Vietnam, the power of the press, political correctness, the growth of litigation, and the rising influence of women. He sees Americans as a problem-solving people and the story of America as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence...Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." This challenging narrative and interpretation of American history by the author of many distinguished historical works is sometimes controversial and always provocative. Johnson's views of individuals, events, themes, and issues are original, critical, and admiring, for he is, above all, a strong believer in the history and the destiny of the American people.
