## Javanese Culture and the Meanings of Locality

### Studies on the Arts, Urbanism, Polity, and Society

*Lexington Books Javanese Culture and the Meanings of Locality: Studies on the Arts, Urbanism, Polity, and Society* is an examination of the social and cultural geography of Java. This book penetrates and surveys the Javanese world, and examines the traditions, customs, arts, urban habitation, polity, history, and belief systems of people who speak the Javanese language and live on Java Island in the Indonesian archipelago. A primary focus in these essays is to analyze the meanings of locality in the context of arts, architecture, polity, and society, with the hope of unveiling the potential of local culture in enriching and strengthening the diversity of the global world.

# Mysticism & Everyday Life in Contemporary Java

## Cultural Persistence and Change

### Environmental Dispute Resolution in Indonesia

*BRILL* In the last two decades, Indonesia has seen a dramatic proliferation of environmental disputes in a variety of sectors, triggered by intensified deforestation and large scale mining operations in the resource rich outer islands, together with rapid industrialisation in the densely populated inner island of Java. Whilst the emergence of environmental disputes has sometimes attracted political repression, attempts have also been made in recent times to explore more functional approaches to their resolution. The Environmental Management Act of 1997 created a legal framework for the resolution of environmental disputes through both litigation and mediation. This book is the first attempt to analyse the implementation of this framework in detail and to assess the effectiveness of litigation and mediation in resolving environmental disputes in Indonesia.

## Regime Change and Ethnic Politics in Indonesia

### Dayak Politics of West Kalimantan

*BRILL* When the Indonesian New Order regime fell in 1998, regional politics with strong ethnic content emerged across the country. In West Kalimantan the predominant feature was particularly that of the Dayaks. This surge, however, was not unprecedented. After centuries of occupying a subordinate place in the political and social hierarchy under the nominal rule of the Malay sultanates, Dayaks became involved in an enthusiastic political emancipation movement from 1945. The Dayaks secured the governorship as well as the majority of the regional executive head positions before they were shunned by the New Order regime. This book examines the development of Dayak politics in West Kalimantan from the colonial times until the first decade of the 21th century.

# Empowering Civil Society in the Industrial Revolution 4.0

## Proceedings of the 1st International Conference on Citizenship Education and Democratic Issues (ICCEDI 2020), Malang, Indonesia, October 14, 2020

*Routledge ICCEDI is an international seminar that is held every two years organized by the Law and Citizenship Department, Faculty of Social Science Universitas Negeri Malang. The activities aim to discuss the theoretical and practical citizenship education that becomes needed for democracy in Indonesia and other countries with a view to build academic networks by gathering academics from various research institutes and universities. Citizenship education is an urgent need for the nation in order to build a civilized democracy for several reasons. Citizenship education is important for those who are politically illiterate and do not know how to work the democracy of its institutions. Another problem is the increasing political apathy, indicated by the limited involvement of citizens in the political process. These conditions show how citizenship education becomes the means needed by a democratic country like Indonesia. The book addresses a number of important issues, such as law issues, philosophy of moral values, political government, socio-cultural and Pancasila, and civic education. Finally, it offers a conceptual framework for future democracy. This book will be of interest to students, scholars, and practitioners, governance, and other related stakeholders.*

## Candi, Space and Landscape

### A Study on the Distribution, Orientation and Spatial Organization of Central Javanese

# Temple Remains

*Sidestone Press* Central Javanese temples were not built anywhere and anyhow. On the contrary: their positions within the landscape and their architectural designs were determined by socio-cultural, religious and economic factors. This book explores the correlations between temple distribution, natural surroundings and architectural design to understand how Central Javanese people structured the space around them, and how the religious landscape thus created, developed. Besides questions related to territory and landscape, Degroot's book analyzes the structure of the built space and its possible relations with conceptualized space, showing the influence of imported Indian concepts, as well as their limits. Going off the beaten track, this book explores the hundreds of small sites that scatter the landscape of Central Java. It is also one of very few studies to apply the methods of spatial archaeology to Central Javanese temples and the first in almost a century to present a descriptive inventory of the remains of this region.

## A Divided Working Class

## Ethnic Segmentation and Industrial Conflict in Australia

*Routledge/Thoemms Press* This major study of the Australian experience of worker migration focuses on immigrants as workers, and places the Australian experience within the wider context of developments in modern capitalism worldwide.

## Islamic States in Java 1500–1700

## Eight Dutch Books and Articles by Dr H.J. de Graaf

*Springer Science & Business Media* The growing interest in the history of Indonesia has made it desirable to have an English summary of the principal works of the Dutch historian Dr H. J. de Graaf, who in several books and articles published between 1935 and 1973 has given a description of the development of the Javanese kingdom of Mataram, based both on European and in digenous material. His works form a substantial contribution to the study of the national history of Indonesia. The Summary contains references to the paragraphs of the Dutch books and articles. This makes it easy for those readers who have a know ledge of Dutch to consult the original texts. The List of Sources for the study of Javanese history from 1500 to 1700 is composed of the lists in the summarized books and articles, and the Index of Names refers not only to the present Summary but also to the eight original texts.

Many names of persons and localities in the Index have been provided with short explanatory notes and references to other lemmata as a quick way to give some provisional information on Javanese history.

# Academic Freedom in Indonesia

## Dismantling Soeharto-era Barriers

*Human Rights Watch* IV. political background checks

## Sexual Politics in Indonesia

*Springer* This book analyzes the interaction between nationalism, feminism and socialism in Indonesia since the beginning of the twentieth century until the New Order State of President Suharto. The focus is on the communist women's organization Gerwani, which was by 1965 the largest communist women's organization in the non-communist world. Gerwani members combined feminist demands such as a reform of the marriage law with an insistence upon a political role for women. The organization was destroyed in a campaign of sexual slander orchestrated by the military under General Suharto. Hundreds of thousands of people were killed. President Sukarno lost his power and General Suharto took over.

## Skilled Labor Mobility and Migration

### Challenges and Opportunities for the ASEAN Economic Community

*Edward Elgar Publishing* One of the primary objectives of the ASEAN Economic Community (AEC), established in 2015, was to boost skilled labor mobility within the region. This insightful book takes stock of the existing trends and patterns of skilled labor migration in the ASEAN. It endeavors to identify the likely winners and losers from the free movement of natural persons within the region through counterfactual policy simulations. Finally, it discusses existing issues and obstacles through case studies, as well as other sectoral examples.

## Urban Design: Street and Square

*Routledge* This book, part of a series of four, offers a detailed analysis of urban design, covering the streets, squares and buildings that make up the public face of towns and cities. It outlines the theory of the principal features of urban design from which method is developed and provides a better understanding of the main elements of urban design. This includes the arrangement, design and details of the streets and squares, and the roles they play in city planning. This third edition includes chapters on "Sustainable Urban Design" and "Visual Analysis", introducing

the latest theories and influences in the field and bringing greater practical significance to the book. Cliff Moughtin explores the street and square in terms of function, structure and symbolism and examines fine examples in their historical context. These are set against the background of the laws of urban design composition, culled from Renaissance and modern writers.

## Jogjakarta Under Sultan Mangkubumi, 1749-1792

### A History of the Division of Java

*Oxford University Press, USA*

## Understanding Emotion in Chinese Culture

## Thinking Through Psychology

*Springer* This mind-opening take on indigenous psychology presents a multi-level analysis of culture to frame the differences between Chinese and Western cognitive and emotive styles. Eastern and Western cultures are seen here as mirror images in terms of rationality, relational thinking, and symmetry or harmony. Examples from the philosophical texts of Confucianism, Daoism, Buddhism, and classical poetry illustrate constructs of shading and nuancing emotions in contrast to discrete emotions and emotion regulation commonly associated with traditional psychology. The resulting text offers readers bold new understandings of emotion-based states both familiar (intimacy, solitude) and unfamiliar (resonance, being spoiled rotten), as well as larger concepts of freedom, creativity, and love. Included among the topics: The mirror universes of East and West. In the crucible of Confucianism. Freedom and emotion: Daoist recipes for authenticity and creativity. Chinese creativity, with special focus on solitude and its seekers. Savoring, from aesthetics to the everyday. What is an emotion? Answers from a wild garden of knowledge. Understanding Emotion in Chinese Culture has a wealth of research and study potential for undergraduate and graduate courses in affective science, cognitive psychology, cultural and cross- cultural psychology, indigenous psychology, multicultural studies, Asian psychology, theoretical and philosophical psychology, anthropology, sociology, international psychology, and regional studies.

## Kraton and Kumpeni

# Surakarta and Yogyakarta, 1830-1870

*Brill Academic Pub* The Javanese realms of Surakarta and Yogyakarta in Central Java were of prime importance in the politics of the Netherlands Indies, located, as they were, at the heart of the Dutch colonial state. This book covers forty years of the history of the Javanese Principalities in the post-Java War period (1830-1870).

## Contact Languages

## Ecology and Evolution in Asia

*Cambridge University Press* This book explores the social and structural dynamics underlying the creation of new, or restructured, grammars, offering an evolutionary account of contact language formation in the linguistic ecology of Monsoon Asia, including contacts between languages and peoples of Malay, Chinese, Portuguese and English origin, before, during and after Western colonization.

## Human Rights Watch World Report

## Events of 2002 (November 2001- November 2002).. 2003

## Health in Megacities and Urban Areas

*Springer Science & Business Media* Diverse driving forces, processes and actors are responsible for different trends in the development of megacities and large urban areas. Under the dynamics of global change, megacities are themselves changing: On the one hand they are prone to increasing socio-economic vulnerability due to pronounced poverty, socio-spatial and political fragmentation, sometimes with extreme forms of segregation, disparities and conflicts. On the other hand megacities offer positive potential for global transformation, e.g. minimisation of space consumption, highly effective use of resources, efficient disaster prevention and health care options - if good strategies were developed. At present in many megacities and urban areas of the developing world and the emerging economies the quality of life is eroding. Most of the megacities have grown to unprecedented size, and the pace of urbanisation has far exceeded the growth of the necessary infrastructure and services. As a result, an increasing number of urban dwellers are

left without access to basic amenities like clean drinking water, fresh air and safe food. Additionally, social inequalities lead to subsequent and significant intra-urban health inequalities and unbalanced disease burdens that can trigger conflict and violence between subpopulations. The guiding idea of our book lies in a multi- and interdisciplinary approach to the complex topic of megacities and urban health that can only be adequately understood when different disciplines share their knowledge and methodological tools to work together. We hope that the book will allow readers to deepen their understanding of the complex dynamics of urban and megacity populations through the lens of public health, geographical and other research perspectives.

## Building Urban Resilience Principles, Tools, and Practice

*World Bank Publications* This handbook is a resource for enhancing disaster resilience in urban areas. It summarizes the guiding principles, tools, and practices in key economic sectors that can facilitate incorporation of resilience concepts into decisions about infrastructure investments and urban management that are integral to reducing disaster and climate risks.

## Traditional Islamic Principles of Built Environment

*Routledge* Written with the non-Muslim reader in mind, this book analyses the principles and values established by Islamic tradition to govern the social and physical environments of Muslims. The picture of Islam that emerges from this work is of a way of life with social ideals. Relying on the Qur'an and Sunna, the basic sources of Islamic law, and using examples of the built environment of early Muslims in North Africa, the Middle East, Europe and Central Asia, the author explains how following these ideals can create an urban environment that responds to social and environmental variables. Islamic views on the controversial issue of modernisation are also examined. This book will be of interest to people in the fields of urban planning, architecture, sociology, anthropology, housing and built environment, as well as Islamic studies.

## Historic Cities and Sacred Sites Cultural Roots for Urban Futures

*World Bank Publications* This book contributes to a better understanding of why historic cities and sacred sites are important, and how cultural roots may influence and improve urban futures. It emphasises the need to include social and cultural

dimensions in economic development and offers cases of best practice.

## Arab-American Faces and Voices The Origins of an Immigrant Community

University of Texas Press As Arab Americans seek to claim their communal identity and rightful place in American society at a time of heightened tension between the United States and the Middle East, an understanding look back at more than one hundred years of the Arab-American community is especially timely. In this book, Elizabeth Boosahda, a third-generation Arab American, draws on over two hundred personal interviews, as well as photographs and historical documents that are contemporaneous with the first generation of Arab Americans (Syrians, Lebanese, Palestinians), both Christians and Muslims, who immigrated to the Americas between 1880 and 1915, and their descendants. Boosahda focuses on the Arab-American community in Worcester, Massachusetts, a major northeastern center for Arab immigration, and Worcester's links to and similarities with Arab-American communities throughout North and South America. Using the voices of Arab immigrants and their families, she explores their entire experience, from emigration at the turn of the twentieth century to the present-day lives of their descendants. This rich documentation sheds light on many aspects of Arab-American life, including the Arab entrepreneurial motivation and success, family life, education, religious and community organizations, and the role of women in initiating immigration and the economic success they achieved.

## Cultural Sustainable Tourism A Selection of Research Papers from IEREK Conference on Cultural Sustainable Tourism (CST), Greece 2017

Springer This book includes research papers submitted to and presented during the first international conference on Cultural Sustainable Tourism (CST) that was held in Thessaloniki, Greece in November of 2017. Discussing complex relations between Culture, tourism, and the role of planners and architects in their maintenance, this conference was jointly organized by IEREK -International Experts for Research Enrichment and Knowledge Exchange- and Aristotle University of Thessaloniki. The

conference was an attempt to shed a light on the significance of Culture and Heritage as two important factors attracting tourists and promoting economic growth and convey civilizations through tourism. Themes covered in this book give an overview on current research and topics of discussion that focus on Cultural sustainable tourism through several sections. The first section, titled “Art, Architecture and Culture”, discusses urban regeneration as a road to the preservation of cultural and tourist destinations and the importance of understanding and benefitting from our heritage to allow for modern day improvements. “Heritage Tourism”, the section 2 of the book, is more focused on offering nontraditional solutions and management plans to sustain cultural tourism and improve quality of life around historically significant areas. The third section on the “City and Rural Tourism” follows by providing sustainable strategies to attract tourists and promoting the use of existing resources. The last and final section with the title of “Sustainable Tourism, Development and Environmental Management” maneuvers around the different yet common environmental issues existing today and proposes new and innovative solutions for their elimination. Presenting a wide range of topics in chapters, this book provides the scientific community with a collection of unique and enlightening literature.

## The Austronesian Languages

## Fundamentals of Pharmacognosy and Phytotherapy E-Book

*Elsevier Health Sciences* Pharmacognosy (the science of biogenic or nature-derived pharmaceuticals and poisons) has been an established basic pharmaceutical science taught in institutions of pharmacy education for over two centuries. Over the past 20 years though it has become increasingly important given the explosion of new drugs, phytomedicines (plant medicines), nutraceuticals and dietary supplements – all of which need to be fully understood, tested and regulated. From a review of the previous edition: ‘Drawing on their wealth of experience and knowledge in this field, the authors, who are without doubt among the finest minds in pharmacognosy today, provide useful and fascinating insights into the history, botany, chemistry, phytotherapy and importance of medicinal plants in some of today’s healthcare systems. This is a landmark textbook, which carefully brings together relevant data from numerous sources and provides, in an authoritative and exhaustive manner, cutting-edge information that is relevant to pharmacists, pharmacognocists, complementary practitioners, doctors and nurses alike.’ *The Pharmaceutical Journal* ‘This is an excellent text book which provides fascinating insights into the world of pharmacognosy and the authors masterfully integrated elements of orthodox pharmacognosy and phytotherapy. Both the science student and the non-scientific person interested in phytotherapy will greatly benefit from reading this publication. It is comprehensive, easy to follow and after having read this book, one is so much

more aware of the uniqueness of phytomedicines. A must read for any healthcare practitioner.' Covers the history, biology and chemistry of plant-based medicines Covers pharmaceutical and nutraceuticals derived from plants Covers the role of medicinal plants in worldwide healthcare systems Examines the therapeutics and evidence of plant-based medicines by body system Sections on regulatory information expanded New evidence updates throughout New material covering non-medical supplements Therapeutics updated throughout Now on StudentConsult

## The Austronesians

### Historical and Comparative Perspectives

*ANU E Press* The Austronesian-speaking population of the world are estimated to number more than 270 million people, living in a broad swathe around half the globe, from Madagascar to Easter Island and from Taiwan to New Zealand. The seventeen papers in this volume provide a general survey of these diverse populations focusing on their common origins and historical transformations. The papers examine current ideas on the linguistics, prehistory, anthropology and recorded history of the Austronesians.

## Cars, Conduits, and Kampongs

### The Modernization of the Indonesian City, 1920-1960

*BRILL* Cars, Conduits and Kampongs offers a wide panorama of the modernization of Indonesian cities between 1920 and 1960. In examining the multiple responses to innovations introduced by Western colonialism, the contributors demonstrate how modernization, urbanization, and decolonization were intrinsically linked. A full text Open Access version will also become available.

## Food Security and Food Safety for the Twenty-first Century

### Proceedings of APSAFE2013

*Springer* This book is a collection of selected papers that were presented at the First International Conference of the Asia-Pacific Society for Agricultural and Food Ethics (APSAFE 2013), which was held at Chulalongkorn University from November 28 - 30,

2013. The papers are interdisciplinary, containing insights into food security and food ethics from a variety of perspectives, including, but not limited to, philosophy, sociology, law, sociology, economics, as well as the natural sciences. The theme of the conference was to consider the interplay and balance between food security and food ethics as the world approaches the middle part of the twenty-first century.

## Community Empowerment through Research, Innovation and Open Access

### Proceedings of the 3rd International Conference on Humanities and Social Sciences (ICHSS 2020), Malang, Indonesia, 28 October 2020

*Routledge ICHSS is an international seminar that is held every two years organized by the Research and Community Service Institute of the State University of Malang. The meeting aims to discuss the theoretical and practical developments of Social Sciences and Humanities in Indonesia and other countries with a view to build academic networks by gathering academics from various research institutes and universities. Community empowerment serves as a trigger to increase community independence and to cope with the challenges resulting from the rapid development of technology. An important aspect of the community empowerment effort is to link the results of innovation research for the benefit of community. The results of research should not only be limited to publications in the academic environment. Open Access to various forms of the existing literature is one of the requirements for innovative research to develop optimally. Therefore, this seminar has also served as a place for field researchers from various geographical areas to socialize, to discuss and to find solutions to current issues in the field of social sciences and humanities, as well as to build cooperation and synergy in creating ideas for mutual collaboration and to create joint research.*

## Managing Human Resources

*Englewood Cliffs, NJ : Prentice Hall This book centers on business decision-making and managerial problem-solving, consistent with today's best practices' Human*

Resource Management Practice and Research. Real-life cases and a global focus will hold readers' interest as this book imparts valuable information about the dynamic field of human resources. Expanded coverage of international human resource issues governs this edition of the popular book; it also covers the management of work flows, job analysis, equal opportunity and the legal environment, diversity, recruitment and selection of employees, downsizing and outplacement, performance management and appraisal, workforce training, career development, compensation management, rewards and performance, employee benefits, employee relations, employee rights and discipline, organized labor, and workplace safety and health. The reference resource for human resource directors, managers, and small business owners, as well as others in leadership positions.

## The Origins of Modern Humans Biology Reconsidered

*John Wiley & Sons* This update to the award-winning *The Origins of Modern Humans: A World Survey of the Fossil Evidence* covers the most accepted common theories concerning the emergence of modern *Homo sapiens*—adding fresh insight from top young scholars on the key new discoveries of the past 25 years. *The Origins of Modern Humans: Biology Reconsidered* allows field leaders to discuss and assess the assemblage of hominid fossil material in each region of the world during the Pleistocene epoch. It features new fossil and molecular evidence, such as the evolutionary inferences drawn from assessments of modern humans and large segments of the Neandertal genome. It also addresses the impact of digital imagery and the more sophisticated morphometricsthat have entered the analytical fray since 1984. Beginning with a thoughtful introduction by the authors on modern human origins, the book offers such insightful chapter contributions as: Africa: The Cradle of Modern People Crossroads of the Old World: Late Hominin Evolution in Western Asia A River Runs through It: Modern Human Origins in East Asia Perspectives on the Origins of Modern Australians Modern Human Origins in Central Europe The Makers of the Early Upper Paleolithic in Western Eurasia Neandertal Craniofacial Growth and Development and Its Relevance for Modern Human Origins Energetics and the Origin of Modern Humans Understanding Human Cranial Variation in Light of Modern Human Origins The Relevance of Archaic Genomes to Modern Human Origins The Process of Modern Human Origins: The Evolutionary and Demographic Changes Giving Rise to Modern Humans The Paleobiology of Modern Human Emergence Elegant and thought provoking, *The Origins of Modern Humans: Biology Reconsidered* is an ideal read for students, grad students, and professionals in human evolution and paleoanthropology.

## Atlas of the World's Languages in

# Danger

UNESCO Languages are not only tools of communication, they also reflect a view of the world. Languages are vehicles of value systems and cultural expressions and are an essential component of the living heritage of humanity. Yet, many of them are in danger of disappearing. UNESCO's Atlas of the World's Languages in Danger tries to raise awareness on language endangerment. This third edition has been completely revised and expanded to include new series of maps and new points of view.

# Unfabling the East

## The Enlightenment's Encounter with Asia

Princeton University Press How Enlightenment Europe rediscovered its identity by measuring itself against the great civilizations of Asia During the long eighteenth century, Europe's travelers, scholars, and intellectuals looked to Asia in a spirit of puzzlement, irony, and openness. In this panoramic book, Jürgen Osterhammel tells the story of the European Enlightenment's nuanced encounter with the great civilizations of the East, from the Ottoman Empire and India to China and Japan. He shows how major figures such as Leibniz, Voltaire, and Gibbon took a keen interest in Asian culture and challenges the notion that Europe's formative engagement with the non-European world was invariably marred by an imperial gaze and presumptions of Western superiority. A momentous work by one of Europe's most eminent historians, Unfabling the East brings the sights and sounds of this tumultuous age vividly to life. It takes readers on a thrilling voyage to the farthest shores, bringing back vital insights for our own multicultural age.

# Facing Asia

## A History of the Colombo Plan

ANU E Press 'No nation can escape its geography', warned Percy Spender, Australia's Minister for External Affairs, in 1950. With the immediate turmoil of World War II over, communism and decolonisation had ended any possibility that Asia could continue to be ignored by Australia. In the early 1950s, Australia embarked on its most ambitious attempt to engage with Asia: the Colombo Plan. This book examines the public and private agendas behind Australia's foreign aid diplomacy and reveals the strategic, political and cultural aims that drove the Colombo Plan. It examines the legacy of WWII, how foreign aid was seen as crucial to achieving regional security, how the plan was sold to Australian and Asian audiences, and the changing nature of Australia's relationship with Britain and the United States. Above all this is

the question of how Australia sought to project itself into the region, and how Asia was introduced into the Australian consciousness. In answering these questions, this book tells the story of how an insular society, deeply scarred by the turbulence of war, chose to face its regional future.

## The Role of Ecosystems in Disaster Risk Reduction

*United Nations University Press* The uptake of ecosystem-based approaches for disaster risk reduction (DRR) is slow, however, despite some success stories. There are multiple reasons for this reluctance: ecosystem management is rarely considered as part of the portfolio of DRR solutions because the environmental and disaster management communities typically work independently from each other; its contribution to DRR is highly undervalued compared to engineered solutions and therefore not given appropriate budget allocations; and there are poor interactions between policymakers and researchers, leading to unclear and sometimes contradictory scientific information on the role of ecosystems for DRR. The aim of this book is to provide an overview of knowledge and practice in this multidisciplinary field of ecosystems management and DRR. The contributors, professionals from the science and disaster management communities around the world, represent state-of-the-art knowledge, practices, and perspectives on the topic.

## The American Military A Concise History

*Oxford University Press* "Since the first English settlers landed at Jamestown with the legacy of centuries of European warfare in tow, the military has been an omnipresent part of America. In "The American Military: A Concise History," Joseph T. Glatthaar explores this relationship from its origins in the thirteen colonies to today's ongoing conflicts in the Middle East. During the Revolutionary War, tension grew between local militias and a standing army. The Founding Fathers attempted to strike a balance, enshrining an army, navy, and a "well-regulated Militia" in the Constitution. The US soon witnessed the rise of a professional military, a boon to its successes in the War of 1812, the Mexican War, and the Civil War. However, after the Civil War, the US soon learned that the purpose of a peacetime army is to prepare for war. When war did arrive, it arrived with a vengeance, gutting the trenches of the Great War with effective innovations: tanks, planes, machine guns, and poison gas. The US embraced the technology that would win both world wars and change the nature of battle in the Second World War. The nuclear era brought encounters defined by stalemate--from the Cold War conflicts of Korea and Vietnam to the wars in Afghanistan and Iraq. Since 9/11, the US has been frustrated by unconventional warfare, including terrorism and cyberwar, largely negating the technological

advantage it had held. Glatthaar examines all these challenges, looking to the future of the U.S. military and its often proud and complicated legacy."--Provided by publisher.

## World Report 2011

### Events of 2010

Seven Stories Press Human Rights Watch is increasingly recognized as the world's leader in building a stronger awareness for human rights. Their annual World Report is the most probing review of human rights developments available anywhere. Written in straightforward, non-technical language, Human Rights Watch World Report prioritizes events in the most affected countries during the previous year. The backbone of the report consists of a series of concise overviews of the most pressing human rights issues in countries from Afghanistan to Zimbabwe, with particular focus on the role—positive or negative—played in each country by key domestic and international figures. Highly anticipated and widely publicized by the U.S. and international press every year, the World Report is an invaluable resource for journalists, diplomats, and all citizens of the world.

## Planning for Ethnic Tourism

Ashgate Publishing, Ltd. Ethnic tourism has emerged as a means that is employed by many countries to facilitate economic and cultural development and to assist in the preservation of ethnic heritage. However, while ethnic tourism has the potential to bring economic and social benefits it can also significantly impact traditional cultures, ways of life and the sense of identity of ethnic groups. There is growing concern in many places about how to balance the use of ethnicity as a tourist attraction with the protection of minority cultures and the promotion of ethnic pride. Despite the fact that a substantial literature is devoted to the impacts of ethnic tourism, little research has been done on how to plan ethnic tourism attractions or to manage community impacts of tourism. This book addresses the need for more research on planning for ethnic tourism by exploring the status and enhancement of planning strategies for ethnic tourism development. The book develops the case of a well-known ethnic tourist destination in China -Xishuangbanna, Yunnan. It analyzes how ethnic tourism has been planned and developed at the study site and examines associated socio-cultural and planning issues. The authors evaluate the perspectives of four key stakeholder groups (the government, tourism entrepreneurs, ethnic minorities and tourists) on ethnic tourism through on-site observation, interviews with government officials, planners and tourism entrepreneurs, surveys of tourists and ethnic minority people, and evaluation of government policies, plans and statistics. This book is unique in its emphasis on planning and in its focus on China,

rapidly emerging as a major player in tourism, with applications for tourism around the world.

## Atlas of the World's Languages

*Routledge* Before the first appearance of the Atlas of the World's Languages in 1993, all the world's languages had never been accurately and completely mapped. The Atlas depicts the location of every known living language, including languages on the point of extinction. This fully revised edition of the Atlas offers: up-to-date research, some from fieldwork in early 2006 a general linguistic history of each section an overview of the genetic relations of the languages in each section statistical and sociolinguistic information a large number of new or completely updated maps further reading and a bibliography for each section a cross-referenced language index of over 6,000 languages. Presenting contributions from international scholars, covering over 6,000 languages and containing over 150 full-colour maps, the Atlas of the World's Languages is the definitive reference resource for every linguistic and reference library.
