Decision Making in Paramedic Practice [Class Professional Publishing](#) **In this new book, Andy Collen offers a wealth of knowledge about the importance of decision making in healthcare practice to reduce clinical risk and improve outcomes for patients. The text explores the role of the modern paramedic and of the paramedic as a critical thinker. It offers a unique perspective on clinical decision making, highlighting important aspects such as the balance between intuition and experience as well as professional issues.**

Understanding Child and Family Welfare Statutory Responses to Children at Risk [Bloomsbury Publishing](#) **How do workers around the world balance risk and support to ensure that their practice meets the ever-changing needs of children and their families? Renowned authors Marie Connolly and Kate Morris join forces to explore the frameworks and ideas which have shaped contemporary child and family welfare practice. From definitions of abuse to assessment models, they examine the knowledge base which lies at the heart of safe and effective statutory practice with children and families. Drawing on examples from a range of English-speaking jurisdictions, the book explores:**

- How to engage families, including participatory approaches and the role of the Family Group Conference
- How to create positive out-of-home environments for children, discussing foster, kinship and residential care and adoption settings
- How to improve professional decision-making through supervision and other organizational frameworks.

At a time when child welfare systems across the globe are undergoing review,

Understanding Child and Family Welfare provides a timely exploration of the reform agendas which will shape future practice. With sharp analytic insights into the difficulties and dilemmas which characterize this field, it is fundamental reading for all students studying child and family support or child protection, as well as for practitioners working within children and family settings. **The Ombudsman in the Modern State** [Bloomsbury Publishing](#) Ombudsmen are a global phenomenon. They are also a critical part of the public law frameworks of modern liberal democracies. This is the first edited collection to examine the place of the ombudsman in the modern state. It brings together key international scholars to discuss current and future challenges for the Ombudsman institution and the systems of government within which they operate. The book is international in scope with authors heralding from most continents - Canada, the Netherlands, the United Kingdom, Australia, New Zealand, Hong Kong, South Africa, Germany, and Austria. This global analysis is both in-depth and expansive in its coverage of the operation of Ombudsmen across civil and common law legal systems. The book has two key themes: - The enduring question of the location and operation of Ombudsmen within public law systems in a changing state, and - The challenges faced by Ombudsmen in contemporary governance. This collection adds to the public law scholarship by addressing a common problem faced by all avenues of public law review - the evolving nature of modern public administration. **Parliament Legislation and Accountability** [Bloomsbury Publishing](#) This collection of essays by leading academics, lawyers, parliamentarians and parliamentary officials provides a critical assessment of the UK Parliament's two main constitutional roles-as a legislature and as the preeminent institution for calling government to account. Both functions are undergoing change and facing new challenges. Part 1 (Legislation) includes chapters on Parliament's emerging responsibilities for pre-legislative scrutiny of government Bills and for evaluating proposed legislation against explicit constitutional standards. The impact on legislation of the European Union and the growing influence of the House of Lords are also examined. Part 2 (Accountability) investigates how Parliament operates to scrutinise areas of executive action previously often shielded from effective parliamentary oversight, including national security, war-making powers and administrative justice. There are also chapters on parliamentary reform, including analysis of the House of Commons 'Wright reforms', parliamentary sovereignty, privilege and the European Convention on Human Rights, Euroscepticism, and parliamentary sovereignty and the regulation of lobbyists. The book will be of interest to anyone who is curious about the work of Parliament and is aimed at legal academics, practitioners and political scientists. **Independent Prescribing for General Practice Nurses** [Class Professional Publishing](#) General Practice Nurses play an essential role in delivering care through general practice, taking on a spectrum of different responsibilities within patient care to support the ever-increasing workload within GP surgeries, clinics and health centres. Often working autonomously, as part of a multidisciplinary team, general practice

nurses assess, advise and treat patients of all different ages and backgrounds, and therefore may encounter almost every aspect of patient care during their work. This book is specifically aimed at GP Nurses undertaking independent prescribing within the complexity of contemporary primary healthcare. It offers a complete overview for those taking on an independent nurse prescribing course as well as those nurses who have already qualified as independent prescribers. Case studies written for the general practice setting will help nurses build on the skills and practice they have already developed as they take on the independent prescribing role, and will also be of value to more experienced or advanced nurses hoping to refresh their existing knowledge. Written by a range of specialist authors, the book also covers the theoretical knowledge and context associated with independent prescribing, enabling GP nurses to practise competently and confidently and deliver clinically effective, person-centred care. **The Legacies of Institutionalisation Disability, Law and Policy in the 'Deinstitutionalised' Community** [Bloomsbury Publishing](#) This is the first collection to examine the legal dynamics of deinstitutionalisation. It considers the extent to which some contemporary laws, policies and practices affecting people with disabilities are moving towards the promised end point of enhanced social and political participation in the community, while others may instead reinstate, continue or legitimate historical practices associated with this population's institutionalisation. Bringing together 20 contributors from the UK, Canada, Australia, Spain and Indonesia, the book speaks to overarching themes of segregation and inequality, interlocking forms of oppression and rights-based advancements in law, policy and practice. Ultimately this collection brings forth the possibilities, limits and contradictions in the roles of law and policy in processes of institutionalisation and deinstitutionalisation, and directs us towards a more nuanced and sustained scholarly and political engagement with these issues. **Encyclopedia of Epidemiology** [SAGE](#) Presents information from the field of epidemiology in a less technical, more accessible format. Covers major topics in epidemiology, from risk ratios to case-control studies to mediating and moderating variables, and more. Relevant topics from related fields such as biostatistics and health economics are also included. **Guidance on Strategies to Promote Best Practice in Antipsychotic Prescribing for Children and Adolescents** [Lulu.com](#) The safe and effective use of antipsychotic medications for children and adolescents [hereafter youth] in the United States is a critical issue in mental and substance use treatment. Antipsychotic medication use is substantially higher for youth in the United States when compared to rates of use among youth in most other developed countries. In response to the emergence of safety concerns in pediatric antipsychotic medication use, **Federal, State, and public Community Health Nursing in Canada - E-Book** [Elsevier Health Sciences](#) **Master the nurse's role in health promotion for Canadian populations and communities!** **Stanhope and Lancaster's Community Health Nursing in Canada, 4th Edition** covers the concepts and skills you need to know for

effective, evidence-informed practice. It addresses individual, family, and group health as well as the social and economic conditions that can affect the health of a community. Concise, easy-to-read chapters include coverage of the latest issues, approaches, and points of view. Written by Canadian educators Sandra A. MacDonald and Sonya L. Jakubec in collaboration with Indigenous scholar Dr. R. Lisa Bourque Bearskin, this edition makes it even easier to apply nursing principles and strategies to practice. **UNIQUE!** Evidence-Informed Practice boxes illustrate how to apply the latest research findings in community health nursing. **UNIQUE!** Indigenous Health: Working with First Nations Peoples, Inuit, and Métis chapter details community health nursing in Indigenous communities. **UNIQUE!** Determinants of Health boxes highlight the critical factors contributing to individual or group health. Levels of Prevention boxes give examples of primary, secondary, and tertiary prevention related to community health nursing practice. CHN in Practice boxes in each chapter provide unique case studies to help you develop your assessment and critical thinking skills. How To boxes use real-life examples to provide specific, application-oriented information. Ethical Considerations boxes provide examples of ethical situations and relevant principles involved in making informed decisions in community health nursing practice. Cultural Considerations boxes present culturally diverse scenarios that offer questions for reflection and class discussion. Chapter Summary sections provide a helpful summary of the key points within each chapter. **NEW!** NGN-style case studies are provided on the Evolve companion website. **NEW!** Thoroughly updated references and sources present the latest research, statistics, and Canadian events and scenarios, including the latest Community Health Nurses of Canada (CHNC) Canadian Community Health Nursing Standards of Practice (2019 edition). **NEW!** Expanded coverage of global health, global issues, and the global environment is integrated throughout the book. **NEW!** Revised Working with Working with People Who Experience Structural Vulnerabilities chapter views vulnerable populations through a social justice lens. **NEW!** Enhanced content provides greater application to practice. **NEW!** Further clarification of the differing roles of CHNs and PHNS is provided. **Structured Decision Making A Practical Guide to Environmental Management Choices** [John Wiley & Sons](#) "This book is about the creative and messy process of making environmental management decisions. The approach we describe is called Structured Decision Making, a distinctly pragmatic label given to ways for helping individuals and groups think through tough multidimensional choices characterized by uncertain science, diverse stakeholders, and difficult tradeoffs. This is the everyday reality of environmental management, yet many important decisions currently are made on an ad hoc basis that lacks a solid value-based foundation, ignores key information, and results in selection of an inferior alternative. Making progress--in a way that is rigorous, inclusive, defensible, and transparent--requires combining analytical methods drawn from the decision sciences and applied ecology with deliberative insights from cognitive psychology, facilitation, and

negotiation. We review key methods and discuss case-study examples based in our experiences in communities, boardrooms, and stakeholder meetings. Our goal is to lay out a compelling guide that will change how you think about making environmental decisions"-- HBR Guide to Making Better Decisions [Harvard Business Press](#) Learn how to make better; faster decisions. You make decisions every day--from prioritizing your to-do list to choosing which long-term innovation projects to pursue. But most decisions don't have a clear-cut answer, and assessing the alternatives and the risks involved can be overwhelming. You need a smarter approach to making the best choice possible. The HBR Guide to Making Better Decisions provides practical tips and advice to help you generate more-creative ideas, evaluate your alternatives fairly, and make the final call with confidence. You'll learn how to: Overcome the cognitive biases that can skew your thinking Look at problems in new ways Manage the trade-offs between options Balance data with your own judgment React appropriately when you've made a bad choice Communicate your decision--and overcome any resistance Arm yourself with the advice you need to succeed on the job, from a source you trust. Packed with how-to essentials from leading experts, the HBR Guides provide smart answers to your most pressing work challenges.

Confidentiality and Record Keeping in Counselling and Psychotherapy [SAGE](#) 'This is an excellent book...Those involved in writing agency policy as well as therapists working within these structures and independently should view this as a mainstay of their reference library. Trainers and supervisors will also find it invaluable' - Therapy Today Journal, December 2008 `This book is an original, insightful, comprehensive and practical guide for all working in the field...a must read for any counsellor or psychotherapist or anybody else working in the field of psychological therapies' - Professor Cary L. Cooper, CBE, President of BACP `There are few legal issues as important to clients and their therapists as confidentiality and record keeping. This book is essential reading for all counsellors and psychotherapists' - Esther Rantzen, Chair & Founder of Childline and Vice President of BACP Confidentiality is an essential condition of counselling and psychotherapy that enables clients to talk honestly and openly about their situation. As a core aspect of everyday practice, therapists need to understand both the legal and ethical implications of providing confidentiality and of keeping records concerning their clients. Confidentiality and Record Keeping in Counselling and Psychotherapy provides a practical introduction to the topic, containing guidance on: - why and how records should be kept - how to balance therapeutic benefits from keeping records with potential legal ramifications - confidentiality agreements with clients in a variety of therapeutic settings - confidentiality in training and supervision.

Oxford Handbook of Primary Care and Community Nursing [Oxford University Press](#) Fully updated for its third edition, the Oxford Handbook of Primary Care and Community Nursing is the essential guide to caring for patients in primary care and in community settings. Concise and comprehensive, the book provides the reader with both evidence-based

clinical knowledge as well as the organizational structure of community health services. Chapters range from common adult and paediatric health problems, to more specific targeted advice for service users with extra needs and people with long-term conditions. The handbook includes information on how health and social care services are organised and funded, from common technical care procedures to complex situations, alongside detailed aspects of health promotion in adults, children, and adolescents. With new topics on consultation frameworks and models, supporting young people in their transition to the adult services, and female genital mutilation, all clinical guidelines, epidemiology, and statistics have been revised to reflect developments since the previous edition. Providing an accessible and instant resource for everyday nursing, and a benchmark of good practice, the Oxford Handbook of Primary Care and Community Nursing is a unique and invaluable companion for all health care professionals working in the primary care and community setting.

Who Decides Who Decides? Enabling Choice, Equity, Access, Improved Performance and Patient Guaranteed Care [CRC Press](#) This book makes the case for 'ordinary' people to get the health and social care which the state has promised them for over 60 years but which has not been delivered. What is the case for choice? How can choice be made real for the individual? What impact can genuine, individually financially-empowered choice have on effective funding, purchasing, delivery, and outcomes? How can a genuine market grow and thrive? How can the quest for choice include the large numbers of NHS and social care staff on whom success depends? The book urges individual financial empowerment, through a life-long health savings account for all NHS and social services.

Manual of Clinical Procedures in Dentistry [John Wiley & Sons](#) A definitive manual covering everything you need to know about the core procedures in dentistry The Manual of Clinical Procedures in Dentistry comprehensively explains the core procedures in dentistry, how to do them, and the rationale that underpins them. Full of useful and easy-to-access information, it acts as a compendium of practical procedures in primary dental care, supporting students and dental practitioners in their daily professional and academic lives. This manual is a complete, practical guide to the delivery of effective, state of the art oral healthcare—the 'what, when, and how' of clinical practice. It compiles chapters written by expert clinicians on topics such as dental imaging, the management of dental pain, conscious sedation, operative dentistry, implant dentistry, oral medicine and surgery, paediatric dentistry, periodontics, prosthodontics, special care dentistry, dental trauma, aesthetic dentistry, and much more. Provides step-by-step guidance on procedures in primary dental care Comprehensive coverage of all dental disciplines, from endodontics to orthodontics Compiled by two highly experienced editors with contributions from expert authors Covers essential non-clinical areas, such as communicating with patients, obtaining valid consent, audit procedures, and handling of complaints The Manual of Clinical Procedures in Dentistry is an invaluable text for dental students and new

graduates, as well as a definitive guide for the whole dental team. **Understanding Ethics and Ethical Decision-Making** [Xlibris Corporation](#) This book has been about ethics and ethical decision making. As ethical reflection permeates every decision made in practice, the book discussed the importance of developing moral reasoning ability, which is crucial for handling ethical dilemma and making ethical decisions in nursing and social work practice. The book encouraged the use of models as another form of ethical decision-making paradigms. The book used discussions based on case studies to illustrate how ethics inform practice and allow one to make decisions that are morally justifiable. "This book will enable our students to gain a step by step approach to the knowledge and application of Ethics to practice. The book drew from the work of many scholars and designed a simple model to help students gain the knowledge of ethical analysis and decision making". Vidal Johnson, Senior Lecturer in Law and Ethics, London South Bank University "I was impressed by the way this author consistently addressed both social work and nursing ethical issues, highlighting the importance of ethics and application in nursing and social work practice". Michelle Evans, Senior lecturer in Learning Disability/Mental Health and Social Work, London South Bank University "Most other published books on nursing and social work ethics are often laden with theories and principles. This book offers an excellent contribution to the understanding of the relationship between learning ethical theories and principles and their practice applications". Jude C. Ibe, Principal lecturer in Dept. of Family Care and Mental Health; University of Greenwich, London. **End-of-Life Nursing Care** [SAGE](#) Students and newly qualified staff make up much of the workforce delivering end-of-life care but, because end-of-life care can be both technically challenging and emotionally demanding, it is an aspect of nursing that can cause considerable anxiety. This very accessible, straightforward book helps to allay those concerns and enables pre-registration students to prepare confidently for the challenges they will face when they are caring for dying patients and supporting their families. Each chapter is based on a different and realistic scenario - reflecting a range of circumstances - to demonstrate the essential generic knowledge and skills they need to develop, and draws out the important practical and theoretical issues students should consider and address if patients and their families are to receive the best possible care. Written by two experienced palliative care lecturer/practitioners, and mapping closely to the NMC's 2010 domains, the book is tailored to the needs of student nurses working with adult patients. It explores the importance of their role in end-of-life care and how this interfaces with the roles of other multidisciplinary professionals involved in the care of their patients. It will also be helpful to students of other health-care professions and support newly-qualified health-care professionals working in adult health. **Clinical Pharmacy and Therapeutics E-Book** [Elsevier Health Sciences](#) 'This new edition of Clinical Pharmacy and Therapeutics was really very helpful when I was doing an MSc course in Advancing Pharmacy Practice and it was really very helpful in all the clinical diseases I have to

read for my PBL. I also used it as one of my most reliable reference books for the in-course simulation ward rounds and other clinical case studies. It is a great book to have as a practising clinical or hospital pharmacist or even community pharmacist. It will also be of great use to anyone doing a course in pharmacotherapy. This book will always be of use to you throughout your studentship or when practising after graduation. It is also more portable than most other pharmacotherapy textbooks with the same amount of information.' Now in its sixth edition, this best-selling, multi-disciplinary textbook continues to draw on the skills of pharmacists, clinicians and nurses to present optimal drug regimens. The authors integrate an understanding of the disease processes with an appreciation of the pathophysiological processes, clinical pharmacy and the evidence base. Each chapter is co-written by a pharmacist and a clinician, and each chapter begins with key points and ends with cases to test understanding. The sixth edition is now on StudentConsult for the first time, giving online access to the full text. Key points boxes at the beginning of each chapter Case-study boxes throughout the chapters Each chapter co-written by a pharmacist and a clinician In-depth treatment of therapeutics to support pharmaceutical prescribing Logical order and format: key points, epidemiology, aetiology, disease, clinical manifestations, investigations and treatment, drugs used in treatment. Dosage reference sources given where appropriate, along with useful websites and further reading for each chapter. New co-editor, Karen Hodson Over 10 new authors Now in 4-colour On StudentConsult for the first time New chapter on Dementia Many new and revised illustrations Chapters revised to include advances in therapeutics and changes to dose regimens and licensed indications Updated case studies Ethical Practice in the Human Services From Knowing to Being [SAGE Publications](#) Ethical Practice in the Human Services by Richard D. Parsons and Karen L. Dickinson moves beyond addressing ethical issues and principles to helping readers actually practice ethical behavior through awareness of their personal morals, values, and choices. With coverage of ethical standards from six different associations, the text addresses ethical issues and principles in social work, counseling, psychology, and marriage and family therapy. Robust pedagogy includes case illustrations and guided exercises to give readers a deeper understanding of the underlying moral principles and values that serve as a foundation for the various ethical codes. Humanization of Arms Control Paving the Way for a World Free of Nuclear Weapons [Taylor & Francis](#) Despite clear legal rules and political commitments, no significant progress has been made in nuclear disarmament for two decades. Moreover, not even the use of these weapons has been banned to date. New ideas and strategies are therefore necessary. The author explores an alternative approach to arms control focusing on the human dimension rather than on States' security: "humanization" of arms control! The book explores the preparatory work on arms control treaties and in particular the role of civil society. It analyzes the positive experiences of the movements against chemical

weapons, anti-personnel mines, and cluster munitions, as well as the recent conclusion of the Arms Control Treaty. The author examines the question of whether civil society will be able to replicate the success strategies that have been used, in particular, in the field of anti-personnel mines (Ottawa Convention) and cluster munitions (Oslo Convention) in the nuclear weapons field. Is there any reason why the most destructive weapons should not be outlawed by a legally binding instrument? The book also explains the effects of weapons, especially nuclear weapons, on human beings, the environment, and global development, thereby focusing on vulnerable groups, such as indigenous peoples, women, and children. It takes a broad approach to human rights, including economic, social, and cultural rights. The author concludes that the use of nuclear weapons is illegal under international humanitarian and human rights law and, moreover, constitutes international crimes under the Rome Statute of the International Criminal Court. In his general conclusions, the author makes concrete proposals for the progress toward a world without nuclear weapons.

Good Practice Guide Professionalism at Work [Routledge](#) Professionalism is not automatic with qualification. It is decided by the manner in which you carry out your professional life - the conduct and qualities that you bring to your role. In architecture, it is founded on the principles of honesty, integrity and competence, and a concern for the environment and others. As a trusted expert, it is essential that you gain respect for your skills and knowledge while maintaining veracity and transparency in your relationships and dealings with clients, end users, design and construction professionals and the wider public. With a focus on professional judgement, this book is a personal guide on how to be a self-aware and successful practitioner, aspiring to best practice. It will give you the confidence to create meaningful industry connections and handle contractual disputes, insurance and negligence claims while maintaining a high standard of conduct. By paying attention to business planning, financial processes, good management and effective communication, it will help you to protect your practice's reputation and increase profitability and cashflow. Ultimately, it will enable you to not only avoid professional pitfalls but to benefit from positive working relationships.

Model Rules of Professional Conduct [American Bar Association](#) The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Psychiatric and Mental Health Nursing for Canadian Practice [Lippincott Williams & Wilkins](#) Rev. ed. of: Psychiatric nursing for Canadian practice /

Wendy Austin, Mary Ann Boyd. Children Belong in Families A Remarkable Journey Towards Global Change [Wipf and Stock Publishers](#) For too long, the world's lonely and vulnerable children have been forgotten and ignored. Millions of children are abandoned for a life on the streets or live with unsafe families or in soulless institutions. Now the tide is turning. Pioneers like Mick Pease and his remarkable charity SFAC lead a global movement for change. This insightful and uplifting book takes us on a journey that spans three decades and five continents. We meet judges and social workers, missionaries and aid workers, the children and families themselves. Mick asks tough questions, such as: Would you want your children in a safe family or in an institution? Would you want them to belong to something or to someone? He offers proven solutions for children separated from their families in widely different societies, from the hills of Myanmar to the sprawling cities of Brazil. SFAC supports measures to keep children in their families and communities or to find safe alternatives where this is not possible. The key is always the best interests of the child. It is an extraordinary journey from the Yorkshire coalfields to advocacy and influence in the corridors of power. It offers practical wisdom and a hope for the future. **Clinical Practice Guidelines for Midwifery & Women's Health** [Jones & Bartlett Publishers](#) **Clinical Practice Guidelines for Midwifery & Women's Health, Fifth Edition** is an accessible and easy-to-use quick reference guide for midwives and women's healthcare providers. Completely updated and revised to reflect the changing clinical environment, it offers current evidence-based practice, updated approaches, and opportunities for midwifery leadership in every practice setting. Also included are integrative, alternative, and complementary therapies. The Fifth Edition examines the transition to the use of ICD-10 codes, women's health policy and advocacy, risk assessment and decision-making in practice, and inspiring trust in midwifery care. New clinical practice guidelines include health promotion and primary care practice, such as promoting restorative sleep, optimizing oral health, promoting a healthy weight, and caring for the woman with a substance abuse disorder. **The Elgar Companion to the Hague Conference on Private International Law** [Edward Elgar Publishing](#) This comprehensive Companion is a unique guide to the Hague Conference on Private International Law (HCCH). Written by international experts who have all directly or indirectly contributed to the work of the HCCH, this Companion is a critical assessment of, and reflection on, past and possible future contributions of the HCCH to the further development and unification of private international law. **Land Registration and Title Security in the Digital Age New Horizons for Torrens** [Taylor & Francis](#) This book examines the current state of, and emerging issues in relation to, the Torrens and other systems of land registration, and the process of automation of land registration systems in jurisdictions where this is occurring worldwide. It analyses the impacts of advances in digital technology in this area and includes contributions from a number of experts and leaders in this subject from a number of jurisdictions. While it has an Australasian bias, there are important chapters

outlining current challenges and developments in Scotland, England and Wales, Ireland, and the Netherlands. The book will be relevant to those engaged in land registration and conveyancing processes, including, but not limited to, property law practitioners and conveyancers, academics in this field, government and public policy experts, law and property students, and IT and IP experts, especially those working on developing automated land registration systems. **Governance and Best Practice in Workplace Pension Provision Fifth Report of Session 2012-13, Vol. 2: Oral and Written Evidence** [The Stationery Office](#) **Fundamentals of Pharmacology For Nursing and Healthcare Students** [John Wiley & Sons](#) All registered nurses must have a thorough understanding and a strong knowledge of pharmacology, medicines administration, and the ability to recognise and react to the effects of medicines. **Fundamentals of Pharmacology** helps nursing and healthcare students develop the skills and confidence required to apply the fundamental principles of pharmacology and to offer safe, competent and compassionate care. Concentrating on the medicines that students are most likely to encounter in real-world practice, this textbook provides concise coverage of pharmacology, essential medicines management principles, legal and ethical issues, drug formulations, analgesics, immunisations, and much more. Clinically focused chapters feature defined learning outcomes, multiple-choice questions, practical examples, and full-colour illustrations to aid readers' comprehension of the complexities of pharmacology and care provision. The book utilises a straightforward, student-friendly approach to present 'must-have' information, with contributions from experienced clinicians and academics. Describes how to use pharmaceutical and prescribing reference guides Stresses the role and importance of compassionate care throughout Contains a full range of pedagogical tools which enhance learning and recall Aligns with current NMC Standards and Proficiencies for Registered Nurses and Nursing Associates Supplemented and supported by a wealth of online extras and resources **Fundamentals of Pharmacology** is essential reading for all nursing students, trainee nursing associates, post-registration nurses taking 'nurse prescribing' or 'non-medical prescribing' modules, and newly qualified nurses and nursing associates looking to better understand pharmacology. **Transcultural Midwifery Practice - E-Book Concepts, Care and Challenges** [Elsevier Health Sciences](#) With increasing diversity in the UK's childbearing population and ongoing racial disparities in maternal health outcomes, this new title will help both students and practising midwives provide care that meets the needs of childbearing women and birthing people from different cultural backgrounds. The book lays the foundations for exploration of the many manifestations of transcultural care and how it relates to women, their families and societies. It covers everything that midwives need to know in order to be sensitive to and aware of cultural differences, needs and preferences during pregnancy and childbirth, ultimately enabling them to provide better care for all. Written by senior midwifery lecturer Sarah Esegbona-Adeigbe, an experienced practitioner in ethnic minority health, high risk pregnancy

and the socio-cultural context of women's healthcare, Transcultural care in midwifery practice is destined to become a core text in midwifery courses. Covers main cultural competency models and how to apply cultural competency and cultural safety concepts to individual women Provides an overview of different cultures and religions to support cultural awareness and sensitivity Addresses barriers and ethical issues in midwifery care and how to mitigate them Packed with scenarios, case studies and activities to support learning Reflective activities in each chapter to reinforce cultural concepts

Smart Choices A Practical Guide to Making Better Decisions [Harvard Business Review Press](#) Become confident in your choices. Where should I live? Is it time to get a new job? Which job candidate should I hire? What business strategy should I pursue? We spend the majority of our lives making decisions, both big and small. Yet, even though our success is largely determined by the choices that we make, very few of us are equipped with useful decision-making skills. Because of this, we often approach our choices tentatively, or even fearfully, and avoid giving them the time and thought required to put our best foot forward. In **Smart Choices**, John Hammond, Ralph Keeney, and Howard Raiffa—experts with over 100 years of experience resolving complex decision problems—offer a proven, straightforward, and flexible roadmap for making better and more impactful decisions, and offer the tools to achieve your goals in every aspect of your life. Their step-by-step, divide-and conquer approach will teach you how to:

- Evaluate your plans
- Break your potential decision into its key elements
- Identify the key drivers that are most relevant to your goals
- Apply systematic thinking
- Use the right information to make the smartest choice

Smart Choices doesn't tell you what to decide; it tells you how. As you routinely use the process, you'll become more confident in your ability to make decisions at work and at home. And, more importantly, by applying its time-tested methods, you'll make better decisions going forward. Be proactive. Don't wait until a decision is forced on you—or made for you. Seek out decisions that advance your long-term goals, values, and beliefs. Take charge of your life by making **Smart Choices** a lifetime habit.

Conservation Research, Policy and Practice [Cambridge University Press](#) Conservation research is essential for advancing knowledge but to make an impact scientific evidence must influence conservation policies, decision making and practice. This raises a multitude of challenges. How should evidence be collated and presented to policymakers to maximise its impact? How can effective collaboration between conservation scientists and decision-makers be established? How can the resulting messages be communicated to bring about change? Emerging from a successful international symposium organised by the British Ecological Society and the Cambridge Conservation Initiative, this is the first book to practically address these questions across a wide range of conservation topics. Well-renowned experts guide readers through global case studies and their own experiences. A must-read for practitioners, researchers, graduate students and policymakers wishing to enhance the prospect of their

work 'making a difference'. This title is also available as Open Access on Cambridge Core. The Obama Administration and Educational Reform [Emerald Group Publishing](#) The Obama Administration and Educational Reform seeks to situate, problematize, and bring to light the goals, accomplishments, experienced blockades, and disappointments of the Obama administration's educational policies. The Economics of Ecosystems and Biodiversity in Local and Regional Policy and Management [Routledge](#) In this volume of the TEEB (The Economics of Ecosystems and Biodiversity) publication series, the key concepts of the project are applied to local and regional policy and public management. The aim is to show that by taking nature's benefits into account, decision makers can promote local development to ensure human well-being and economic growth and stability, while maintaining environmental sustainability. The book explores the potential for local development provided by an approach based on nature. It offers examples of successful implementation of this approach from across the world, highlighting the importance of local decision making in management and planning. It provides tools and practical guidance for reform, and throughout the volume the economic benefits of environmental consideration at a local level are expounded. This book is intended to offer inspiration and practical suggestions for the improvement and sustainable management of the environment and human well-being. The local aspect of this book complements the focus of the previous three volumes, completing the set to provide a comprehensive approach to simultaneously improving and maintaining economic and environmental stability, as well as human well-being. Manual of Dietetic Practice [John Wiley & Sons](#) The standard work for all those involved in the field of clinical nutrition and dietetics, The Manual of Dietetic Practice has been equipping health care professionals with the essential foundations on which to build expertise and specialist skill since it was first published in 1988. The fourth edition responds to the changing demand for multidisciplinary, patient-centred, evidence-based practice and has been expanded to include dedicated chapters covering adult nutrition, freelance dietetics, complementary and alternative therapies. Compiled from the knowledge of both individual experts and the British Dietetic Association's Specialist Groups, this truly is the essential guide to the principles of dietetics across its whole range. Demystifying Mental Capacity A guide for health and social care professionals [Learning Matters](#) **This very practical book helps professionals and students to engage critically with their practice by addressing mental capacity and adult safeguarding. Its accessible and easy to navigate format include key topics surrounding assisted decision making, deprivation of liberty, and consent. Independent Prescribing for District Nurses** [Class Professional Publishing](#) **District and community nursing are unique roles within healthcare practice. When visiting patients in their own homes or in residential care homes, district nurses are required to deal with a range of health and social care needs, often in unpredictable and changing environments. As part of the increasingly complex care district nurses offer to patients, independent prescribing can also enable a timely and effective response to providing patient-centred care. This book is specifically aimed at district nurses undertaking independent prescribing within the complexity of contemporary primary health care. It will help district nurses build on the skills and practice they have developed as community nurse prescribers as they develop into the independent prescribing role. District nurses also need to consider autonomous decision making in prescribing practice whilst prescribing as part of a wider health care team, supporting patients to self-manage and considering individual patient and family factors to maintain wellbeing and positive outcomes. Bringing together a range of specialist authors, the book covers the theoretical knowledge and context associated with independent prescribing, enabling district nurses to practice competently and confidently to deliver clinically effective, person-centred care. It offers a complete overview for those taking an independent nurse prescribing course as well as district nurses who have already qualified as independent prescribers.****
