HACHIKO

THE TRUE STORY OF A LOYAL DOG

Houghton Mifflin Harcourt Imagine walking to the same place every day, to meet your best friend. Imagine watching hundreds of people pass by every morning and every afternoon. Imagine waiting, and waiting, and waiting. For ten years. This is what Hachiko did. Hachiko was a real dog who lived in Tokyo, a dog who faithfully waited for his owner at the Shibuya train station long after his owner could not come to meet him. He became famous for his loyalty and was adored by scores of people who passed through the station every day. This is Hachiko's story through the eyes of Kentaro, a young boy whose life is changed forever by his friendship with this very special dog. Simply told, and illustrated with Yan Nascimbene's lush watercolors, the legend of Hachiko will touch your heart and inspire you as it has inspired thousands all over the world.

STORIES ABOUT CATS

BEWARE OF THE DOG (A ROALD DAHL SHORT STORY)

Penguin UK Beware of the Dog is a short, gripping story of life in wartime from Roald Dahl, the master of the shocking tale. In Beware of the Dog, Roald Dahl, one of the world's favourite authors, tells of an injured pilot recovering in hospital who makes a disturbing discovery . . . Beware of the Dog is taken from the short story collection Over to You, which includes nine other dramatic and terrifying tales of life as a wartime fighter pilot,

and is drawn from Dahl's own experiences during the Second World War. This story is also available as a Penguin digital audio download read by Cillian Murphy. Roald Dahl, the brilliant and worldwide acclaimed author of *Charlie and the Chocolate Factory*, *James and the Giant Peach*, *Matilda*, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, *Roald Dahl's Twisted Tales* by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.

LEONARDO'S CHOICE

GENETIC TECHNOLOGIES AND ANIMALS

Springer Science & Business Media *Leonardo's Choice: Genetic Technologies and Animals* is an edited collection of twelve essays and one dialogue focusing on the profound affect the use of animals in biotechnology is having on both humans and other species. Communicating crucial understandings of the integrated nature of the human and non-human world, these essays, unlike the majority of discussions of biotechnology, take seriously the impact of these technologies on animals themselves. This collection's central questions revolve around the disassociation Western ideas of creative freedom have from the impacts those ideas and practices have on the non-human world. This transdisciplinary collection includes perspectives from the disciplines of philosophy, cultural theory, art and literary theory, history and theory of science, environmental studies, law, landscape architecture, history, and geography. Included authors span three continents and four countries. Included essays contribute significantly to a growing scholarship surrounding "the question of the animal" emanating from philosophical, cultural and activist discourses. Its authors are at the forefront of the growing number of theorists and practitioners across the disciplines concerned with the impact of new technologies on the more-than-human world.

THE SHORT STORIES OF JOHN JOSEPH MATHEWS, AN OSAGE WRITER

U of Nebraska Press Susan Kalter presents seventeen previously unpublished short stories by John Joseph Mathews and skillfully intertwines literary analysis, author biography, and archival research with his journals and personal correspondence. Mathews is considered one of the founders and shapers of the twentieth-century Native American novel, yet literary history has largely ignored his work. An Osage writer from Oklahoma, Mathews also spent time in Los Angeles and Europe. The stories in this volume were written at the dawn of the nuclear age by an author who exposed the social dynamics of an emerging world order, an author who had also published explicitly about the ways he observed the East Coast establishment suppressing southwestern writers. This work shows us the aesthetics we missed out on as a result. Topics range from adulterous murder to Cherokee removal, from the thrill of the hunt to the cultural impasses between U.S. citizens in Mexico and their hosts, from the modern Middle East to the fantastical future. The stories bear the consciousness of a postwar world—its confusions and regrets, its orthodoxies and hypocrisies—as well as the mark of a practiced and prolific writer. *The Short Stories of John Joseph Mathews, an Osage Writer* sheds light on the complexity of Native American experiences of the last century and the ripple of these stories today.

UNLEASHING YOUR DOG

A FIELD GUIDE TO GIVING YOUR CANINE COMPANION THE BEST LIFE POSSIBLE

New World Library No matter how cushy their lives, dogs live on our terms. They compromise their freedom and instinctual pleasure, as well as their innate strategies for coping with stress and anxiety, in exchange for the love, comfort, and care they get from us. But it is possible to let dogs be dogs without wreaking havoc on our lives, as biologist Marc Bekoff and bioethicist Jessica Pierce show in this fascinating book. They begin by illuminating the true nature of dogs and helping us “walk in their paws.” They reveal what smell, taste, touch, sight, and hearing mean to dogs and then guide readers through everyday ways of enhancing dogs’ freedom in safe, mutually happy ways. The rewards, they show, are great for dog and human alike.

BRING OUT THE DOG

STORIES

Random House Trade Paperbacks “A near-miraculous, brilliant debut.”—George Saunders, Man Booker Prize-winning author of *Lincoln in the Bardo* “In one exquisitely crafted story after the next, Will Mackin maps the surreal psychological terrain of soldiers in a perpetual war.”—Phil Klay, National Book Award-winning author of *Redeployment* **WINNER OF THE PEN/ROBERT W. BINGHAM PRIZE FOR DEBUT SHORT STORY COLLECTION** The eleven stories in Will Mackin’s mesmerizing debut collection draw from his many deployments with a special operations task force in Iraq and Afghanistan. They began as notes he jotted on the inside of his forearm in grease pencil and, later, as bullet points on the torn-off flap of an MRE kit. Whenever possible he incorporated those notes into his journals. Years later, he used those journals to write this book. Together, the stories in *Bring Out the Dog* offer a remarkable portrait of the absurdity and poetry that define life in the most elite, clandestine circles of modern warfare. It is a world of intense bonds, ancient credos, and surprising compassion—of success, failure, and their elusive definitions. Moving between settings at home and abroad, in vivid language that reflects the wonder and discontent of war, Mackin draws the reader into a series of surreal, unsettling, and deeply human episodes: In “Crossing the River No Name,” a close call suggests that miracles do exist, even if they are in brutally short supply; in “Great Circle Route Westward Through Perpetual Night,” the death of the team’s beloved dog plunges them into a different kind of grief; in “Kattekoppen,” a man struggles to reconcile his commitments as a father and his commitments as a soldier; and in “Baker’s Strong Point,” a man whose job it is to pull things together struggles with a loss of control. Told without a trace of false bravado and with a keen, Barry Hannah-like sense of the absurd, *Bring Out the Dog* manages to capture the tragedy and heroism, the degradation and exultation, in the smallest details of war. Praise for *Bring Out the Dog* “Cuts through all the shiny and hyped-up rhetoric of wartime, and aggressively and masterfully draws a picture of the brutal, frightening, and even boring moments of deployment. . . . The Things They Carried, *Redeployment*, and now *Bring Out the Dog*: war stories for your bookshelf that will last a very long time, and serve as reminders of what America was, is, and can still become.”—Chicago Review of Books

THE CURIOUS INCIDENT OF THE DOG IN THE NIGHT-TIME

Anchor Canada A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings

him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

BECOMING AUDIBLE

SOUNDING ANIMALITY IN PERFORMANCE

Penn State Press Becoming Audible explores the phenomenon of human and animal acoustic entanglements in art and performance practices. Focusing on the work of artists who get into the spaces between species, Austin McQuinn discovers that sounding animality secures a vital connection to the creatural. To frame his analysis, McQuinn employs Gilles Deleuze and Félix Guattari's concept of becoming-animal, Donna Haraway's definitions of multispecies becoming-with, and Mladen Dolar's ideas of voice-as-object. McQuinn considers birdsong in the work of Beatrice Harrison, Olivier Messiaen, Céleste Boursier-Mougenot, Daniela Cattivelli,

and Marcus Coates; the voice of the canine as a sacrificial lab animal in the operatic work of Alexander Raskatov; hierarchies of vocalization in human-simian cultural coevolution in theatrical adaptations of Franz Kafka and Eugene O'Neill; and the acoustic exchanges among hybrid human-animal creations in Harrison Birtwistle's opera *The Minotaur*. Inspired by the operatic voice and drawing from work in art and performance studies, animal studies, zooarchaeology, social and cultural anthropology, and philosophy, McQuinn demonstrates that sounding animality in performance resonates "through the labyrinths of the cultural and the creatural," not only across species but also beyond the limits of the human. Timely and provocative, this volume outlines new methods of unsettling human exceptionalism during a period of urgent reevaluation of interspecies relations. Students and scholars of human-animal studies, performance studies, and art historians working at the nexus of human and animal will find McQuinn's book enlightening and edifying.

A SEA DOG'S TALE

THE TRUE STORY OF A SMALL DOG ON A BIG OCEAN

Cadent Pub Young newlyweds Peter and Dorothy Muilenburg found their way from New Hampshire to the Virgin Islands. He had been a civil rights

Freedom Fighter, jailed in Mississippi while protesting racial injustice. In St. John, she founded the Pine Peace School. They both taught. On an East End beach, he built a sailboat strong enough to take them anywhere, and they put to sea with their two young sons. But their crew was not yet complete. Santos, a schipperke, came to them as a tiny puppy and sailed with them all his life--75,000 deep-sea miles--four times across the Atlantic, crisscrossing the Caribbean, coasting the U.S. eastern seaboard, exploring the Med, ranging up African rivers. A lightning rod for trouble, he survived a kidnapping, hurricanes, raging surf, being lost overboard at sea, and was twice given up for dead. And he watched over his family with fierce and abiding devotion. If you want to see the world--really see it--go by sailboat. And if you want to absorb the world through every pore, take a venturesome dog as your guide. The bright spirit named Santos became a legend to millions of readers through the pages of SAIL and Reader's Digest magazines. Now Peter Muilenburg--a wise and observant chronicler with a true wanderer's desire to engage the world on authentic terms--has written this captivating story of familial love and adventure, unforgettable people and places, and an amazing schipperke who has sailed right into the sea dog hall of fame.

THE DOG

A NATURAL HISTORY

Princeton University Press An accessible and richly illustrated introduction to the natural history of dogs—from evolution, anatomy, cognition, and behavior to the relationship between dogs and humans As one of the oldest domesticated species, selectively bred over millennia to possess specific behaviors and physical characteristics, the dog enjoys a unique relationship with humans. More than any other animal, dogs are attuned to human behavior and emotions, and accordingly play a range of roles in society, from police and military work to sensory and emotional support. Selective breeding has led to the development of more than three hundred breeds that, despite vast differences, still belong to a single species, *Canis familiaris*. The Dog is an accessible, richly illustrated, and comprehensive introduction to the fascinating natural history and scientific understanding of this beloved species. Ádám Miklósi, a leading authority on dogs, provides an appealing overview of dogs' evolution and ecology; anatomy and biology; behavior and society; sensing, thinking, and personality; and connections to humans. Illustrated with some 250 color photographs, The

Dog begins with an introductory overview followed by an exploration of the dog's prehistoric origins, including current research about where and when canine domestication first began. The book proceeds to examine dogs' biology and behavior, paying particular attention to the physiological and psychological aspects of the ways dogs see, hear, and smell, and how they communicate with other dogs and with humans. The book also describes how dogs learn about their physical and social environments and the ways they form attachments to humans. The book ends with a section showcasing a select number of dog breeds to illustrate their amazing physical variety. Beautifully designed and filled with surprising facts and insights, this book will delight anyone who loves dogs and wants to understand them better.

HEALTH AND WELFARE OF BRACHYCEPHALIC (FLAT-FACED) COMPANION ANIMALS

A COMPLETE GUIDE FOR VETERINARY AND ANIMAL PROFESSIONALS

CRC Press Health and welfare issues of brachycephalic (flat-faced) animals are one of the most pressing problems facing companion animals right now. Dogs, in particular, are suffering from a 'brachycephalic crisis' resulting from a perfect storm where predispositions to an array of health issues are amplified by a population boom for certain brachycephalic breeds such as the French Bulldog and Pug. But yet, for many owners, these dogs represent the perfect companion: endearing personas and cute looks in a socially desirable package. So where is the truth in all of this? This book will equip veterinary professionals, animal welfare scientists, breeders and owners with the fuller story about brachycephalic health and welfare. The first half of the book provides the context of how and why we are in this crisis, offering in-depth historical, social, ethical, communication, nursing, welfare, epidemiological, genetics and international perspectives. The second half shifts towards the clinical arena, with chapters that cover the background, diagnosis, treatment and prevention of the many unique healthcare needs of brachycephalic animals. Cutting-edge knowledge is shared on a range of disciplines including respiratory disease, ophthalmology, dermatology, dentistry, neurology, obesity, reproduction and anesthesia. With twenty chapters written by world-leading experts, lifetimes of experience and knowledge are condensed into the first book dedicated exclusively to brachycephaly in

companion animals. This essential reference resource will inform, challenge and stimulate; it will open your mind to new opportunities for you to improve the welfare of brachycephalic animals by your personal and collective choices and actions. But prepare to be surprised: you may just find that your views on brachycephaly in companion animals will be changed forever.
