Creating Business and Corporate Strategy

An Integrated Strategic System

Routledge Businesses need strategies that determine the direction of functioning and further development. If a company deals with several multifaceted businesses, each of them subsequently requires their own strategy. The issue of strategy creation and realization is a key factor that must receive the closest possible attention. In order to assure victory and be thoroughly prepared for various directions and situations that may arise, companies create their own unique strategies. This book is primarily aimed at suggesting the necessary repertoire of knowledge and skills for strategy creating with the help of the TASGRAM integrated system - Thinking, Analyzing, Strategy, Goals, Risks, Actions, and Monitoring. The main outcome of TASGRAM is a combined strategic table: business strategy, corporate strategy, goals, risks, actions, and monitoring. Each element in TASGRAM has a concrete goal and it helps users become more focused. Creating Business and Corporate Strategy: An Integrated Strategic System offers a new tool for company strategy creation, showcasing various cases and examples based on theory and practice. Unlike the existing tools, the suggested system of strategy creation is simpler and definite. Its main purpose is to help create and further develop the created strategy, making this book especially valuable to researchers, academics, practitioners, and students in the fields of strategy, leadership, and management.

Mostly Harmless

Del Rey Now celebrating the 42nd anniversary of The Hitchhiker's Guide to the Galaxy, soon to be a Hulu original series! "Hitchhiker fans rejoice! . . . [Here's] more of the same zany nonsensical mayhem."—The New York Times Book Review It's easy to get disheartened when your planet has been blown up and the woman you love has vanished due to a misunderstanding about space/time. However, instead of being disheartened, Arthur Dent makes the terrible mistake of starting to enjoy life a bit—and immediately all hell breaks loose. Hell takes a number of forms: there's the standard Ford Prefect version, in the shape of an all-new edition of The Hitchhiker's Guide to the Galaxy, and a totally unexpected manifestation in the form of a teenage girl who startles Arthur Dent by being his daughter when he didn't even know he had one. Can Arthur save the Earth from total multidimensional obliteration? Can he save the Guide from a hostile alien takeover? Can he save his daughter, Random, from herself? Of course not. He never works out exactly what is going on. Will you? "Douglas Adams is a terrific satirist. . . . He is anything but harmless."—The Washington Post Book World

A Wrinkle in Time

[GENERAL PRESS](#) *A Wrinkle in Time* is the winner of the 1963 Newbery Medal. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). Wilfrid Laurier Univ. Press Music lives where people live. Historically, music study has centred on the conservatory, which privileges the study of the Western European canon and Western European practice. The Eurocentric way music has been studied has excluded communities that are considered to be marginalized in one or more ways despite that the majority of human experiences with music is found outside of that realm. Community music has emerged as a counter-narrative to the hegemonic music canon: it seeks to increase the participation of those living on the boundaries. *Community Music at the Boundaries* explores music and music-making on those edges. "The real power of community music," writes Roger Mantie in the foreword, "lies not in the fiction of trying to eliminate boundaries (or pretending they don't exist), but in embracing the challenge of 'walking' them." Contributions from scholars and researchers, music practitioners, and administrators examine the intersection of music and communities in a variety of music-making forms: ensembles, university and police choirs, bands, prison performing groups, youth music groups, instrument classes, symphonies, drum circles, and musical direction and performance. Some of the topics explored in the volume include education and change, music and Indigenous communities, health and wellness, music by incarcerated persons, and cultural identity. By shining a light on boundaries, this volume provides a wealth of international perspectives and knowledge about the ways that music enhances lives.
