Meaning-Making in the Contemporary Congregational Song Genre

Springer Nature This book analyses the most sung contemporary congregational songs (CCS) as a global music genre. Utilising a three-part music semiology, this research engages with producers, musical texts, and audiences/congregations to better understand contemporary worship for the modern church and individual Christians. Christian Copyright Licensing International data plays a key role in identifying the most sung CCS, while YouTube mediations of these songs and their associated data provide the primary texts for analysis. Producers and the production milieu are explored through interviews with some of the highest profile worship leaders/songwriters including Ben Fielding, Darlene Zschech, Matt Redman, and Tim Hughes, as well as other music industry veterans. Finally, National Church Life Survey data and a specialized survey provide insight into individual Christians' engagement with CCS. Daniel Thornton shows how these perspectives taken together provide unique insight into the current global CCS genre, and into its possible futures.

Direct Licensing and the Music Industry

How Technology, Innovation and Competition Reshaped Copyright Licensing

Springer This book discusses the economics of the music industry in the context of the changing landscape brought about by innovation, technological change, and rapid digitization. The ability of digital technology to reduce the transaction costs of music copyright licensing has all but destroyed the traditional media business models of incumbent Performance Rights Organizations (PROs), music publishers, record labels, and radio and television stations. In a climate where streaming services are rapidly proliferating and consumers prefer subscription models over direct ownership, new business models, such as direct licensing, are developing. This book provides an overview of the economics of the traditional music industry, the technology-induced changes in business models and copyright law, and the role of publishers, copyright holders and songwriters in the emerging direct licensing model. In Part One, the author examines the economic aspects of direct licensing as an alternative to the traditional blanket license for copyrighted musical compositions, with an emphasis on the often monopolistic nature of PROs. In Part Two, the author focuses on the music publisher and the role direct licensing and competition may play in the changing business models in the music industry and the potential benefits this may bring to copyright holders, such as songwriters. To compliment this model, the author proposes a maximum statutory fixed-rate for musical performances to further streamline the royalty process, especially where distributors such as Google and YouTube are concerned. This book adds to the growing body of literature on the economics of music licensing in the digital age. It will be useful to those in the fields of economics and law, as well as music executives, musicians, songwriters, composers, and other industry professionals who are interested in understanding how technology, innovation and competition have reshaped the music industry.

The Oxford Handbook of Music Making and Leisure

Oxford University Press Music has been a vital part of leisure activity across time and cultures. Contemporary commodification, commercialization, and consumerism, however, have created a chasm between conceptualizations of music making and numerous realities in our world. From a broad range of perspectives and approaches, this handbook explores avocational involvement with music as an integral part of the human condition. The chapters in **The Oxford Handbook of Music Making and Leisure** present myriad ways for reconsidering and refocusing attention back on the rich, exciting, and emotionally charged ways in which people of all ages make time for making music. The contexts discussed are broadly Western, including an eclectic variety of voices from scholars across fields and disciplines, framing complex and multifaceted phenomena that may be helpfully, enlighteningly, and perhaps provocatively framed as music making and leisure. This volume may be viewed as an attempt to reclaim music making and leisure as a serious concern for, amongst others, policy makers, scholars, and educators who perhaps risk eliding some or even most of the ways in which music - a vital part of human existence - is integrated into the everyday lives of people. As such, this handbook looks beyond the obvious, asking readers to consider anew, "What might we see when we think of music making as leisure?"

The Future of the Music Business

How to Succeed with New Digital Technologies Fourth Edition

Hal Leonard Corporation (Music Pro Guide Books & DVDs). **New technologies have revolutionized the music business. While these technologies have wrecked havoc on traditional business models, they've also provided new opportunities for music business entrepreneurs, as well as new challenges for musicians, recording artists, songwriters, record labels and music publishers. The Future of the Music Business provides a road map for success by explaining legal fundamentals including copyright law's application to the music business, basic forms of agreement such as recording, songwriting and management contracts, PLUS the rules pertaining to digital streaming, downloading and Internet radio. This book also shows exactly how much money is generated by each of these models, and details how the money flows to the principal stakeholders: artists, record labels, songwriters and music publishers. Part I is a comprehensive analysis of the laws and business practices applying to today's music business Part II is a guide for producers on how to clear music for almost any kind of project including movies, TV, ad campaigns, stand-alone digital projects AND how much it will cost Part III presents new discussions on the hottest industry controversies including net neutrality; and the financial battles between the new digital music services & copyright owners and artists Part IV discusses how to best use the new technologies to succeed The book contains URLs linking to 2 on-line videos: Fundamentals of Music Business and Law, and Anatomy of a Copyright Infringement Case. discernment How to hit the mark of the high calling of God

Senza Vestimenta: The Literary Tradition of Trecento Song

Ashgate Publishing, Ltd. The metaphor of marriage often describes the relationship between poetry and music in both medieval and modern writing. While the troubadours stand out for their tendency to blur the distinction between speaking and singing, between poetry and song, a certain degree of semantic slippage extends into the realm of Italian literature through the use of genre names like canzone, sonetto, and ballata. Yet, paradoxically, scholars have traditionally identified a 'divorce' between music and poetry as the defining feature of early Italian lyric. *Senza Vestimenta* reintegrates poetic and musical traditions in late medieval Italy through a fresh evaluation of more than fifty literary sources transmitting Trecento song texts. These manuscripts have been long noted by musicologists, but until now they have been used to bolster rather than to debunk the notion that so-called 'poesia per musica' was relegated to the margins of poetic production. Jennings revises this view by exploring how scribes and readers interacted with song as a fundamentally interdisciplinary art form within a broad range of literary settings. Her study sheds light on the broader cultural world surrounding the reception of the Italian ars nova repertoire by uncovering new, diverse readers ranging from wealthy merchants to modest artisans.

Experiencing the Psalms

Bible Study Commentary for Devotional Use, Groups, Or Preaching

The Book of Psalms represents a rich tapestry of prayer and praise. Some reflect a texture of deep despair, others glow with a deep peace in the Lord's strength, still others bubble with an exuberant exaltation in the Most High God, reaching out to God from every imaginable experience. In this study you will enter into the experience of the Psalms. You will study thoughtfully. But more than that, you will learn how to pray, how to find peace in the midst of turmoil, to be thankful. You will begin to follow the pattern of the psalmists as you begin to praise. Twelve detailed lessons, each with probing discussion questions, can be used for personal enrichment, as a study by small groups and classes, and for preparation by teachers and preachers.

Empire of Song

Europe and Nation in the Eurovision Song Contest

Scarecrow Press Essays in *Empire of Song* adopt theoretical and epistemological orientations in their exploration of "popular music" within ethnomusicology and critical musicology, questioning the idea of "Europe" and the "nation" through and in music, at a time when the European self appears more fragmented, if not entirely shattered. Bringing together ethnomusicology, music studies, history, social anthropology, feminist theory, linguistics, media ethnography, postcolonial theory, comparative literature, and philosophy, *Empire of Song* will interest students and scholars in a vast array of disciplines.

The Show Must Go On! Popular Song in Britain During the First World War

Ashgate Publishing, Ltd. Using a collection of over one thousand popular songs from the war years, as well as around 150 soldiers' songs, John Mullen provides a fascinating insight into the world of popular entertainment during the First World War. He considers the position of songs of this time within the history of popular music, and the needs, tastes and experiences of their working-class audiences. He assesses the different genres of musical entertainment which were common in the war years and presents a subtle and nuanced approach to the nature of popular song, the ways in which audiences related to the music and the effects of the competing pressures of commerce, propaganda, patriotism, social attitudes and the progress of the war.

The Oxford Handbook of Music Education

Oxford University Press Music education takes place in many contexts, both formal and informal. Be it in a school or music studio, while making music with friends or family, or even while travelling in a car, walking through a shopping mall or watching television, our myriad sonic experiences accumulate from the earliest months of life to foster our facility for making sense of the sound worlds in which we live. The Oxford Handbook of Music Education offers a comprehensive overview of the many facets of musical experience, behavior and development in relation to this diverse variety of contexts. In this first of two volumes, an international list of contributors discuss a range of key issues and concepts associated with music learning and teaching. The volume then focuses on these processes as they take place during childhood, from infancy through adolescence and primarily in the school-age years. Exploring how children across the globe learn and make music and the skills and attributes gained when they do so, these chapters examine the means through which music educators can best meet young people's musical needs. The second volume of the set brings the exploration beyond the classroom and into later life. Whether they are used individually or in tandem, the two volumes of The Oxford Handbook of Music Education update and redefine the discipline, and show how individuals across the world learn, enjoy and share the power and uniqueness of music.

Eurovisions: Identity and the International Politics of the Eurovision Song Contest since 1956

Springer Nature This book uses the Eurovision Song Contest (ESC), as an analytical entry point to understand and illuminate post-War Europe and the drive to create an identity that can legitimise the European project in its broadest sense. The ESC presents an idealised vision of Europe, and this has long existed in a strained relationship with reality. While the trajectory of post-war European integration is a high-profile topic, we believe that the ESC offers a unique and innovative way to think about the role of culture in the history of post-

War European integration and tensions between the ideal and reality of European unity. Through the series of case studies that make up the chapters in this book, analysis brings these interlinked tensions to light, exploring the roles of culture and identity, alongside and a productive conversation with the political and economic projects of post-war European integration.

Songs for a Saviour's Birth

Journey Through Advent with Elizabeth, Mary, Zechariah, the Angels, Simeon and Anna

Inter-Varsity Press Most of us are on the lookout for something fresh and different as we approach Advent and Christmas. How can we fully appreciate the familiar truths, treasuring yet again the good news and joy of the season? What will really make our hearts sing? Look no further. In this sure-footed, yet conversational and down-to-earth, little volume, William Philip looks at the 'songs' of key characters in the Christmas story: Elizabeth (joy for the hearers) Mary (joy for the humble) Zechariah (joy for the helpless) The Shepherds (joy for the heavens) Simeon and Anna (joy for the hopeful) This is a book to engage heart and head, as it moves between key passages from Luke's Gospel, from the song of the heavily pregnant to the song of a humble peasant, from the song of the helpless priest to the song of the heavenly proclaimers, and finally to the song of the hopeful 'pensioners'. The author concludes, 'Countless people throughout the centuries have... joined the chorus of praise and proclamation, singing the song of the Saviour with Simeon and Anna, Zechariah and Elizabeth, Mary and all the host of heaven. My hope is that your voice is already part of that wonderful refrain. But if not, then my prayer is that this Christmas is the time to do what these others have done and embrace the Saviour for yourself.'

Song of the Sparrow

Scholastic Inc. This eloquent and gripping addition to the Camelot canon -- written in beautiful verse -- has received glowing, starred reviews and early awards buzz! Since the days of King Arthur, there have been poems and paintings created in her name. She is Elaine of Ascolat, the Lady of Shalott, and now there is a book all her own. The year is 490 A.D. and 16-year-old Elaine has a temperament to match her fiery red hair. Living on a military base with her father, brothers, and the rest of Arthur's army, Elaine pines for the handsome Lancelot, and longs for a female friend. But when the cruel, beautiful Gwynivere arrives, Elaine is confronted with startling emotions of jealousy and rivalry. Can Elaine find the strength to survive the birth of a kingdom?

I Have a Song

A Collection of Original Poems, Songs, and Sermon Outlines

Archway Publishing Author Charles H. Jones has a song, and he is delighted to share it with you. He seeks to share his inspiration, to elicit and facilitate worship, and to effect transformation. He prays that the Holy Spirit will imbue these words and melodies with the power to accomplish God's intent and purpose in your life. I Have a Song presents a collection of Jones's inspired and uplifting poems; prose essays; new Christian songs, including sheet music; and sermon outlines and excerpts. The music features a soft lullaby, a rousing centennial song, a timeless wedding song, and a new hymn, while the prose works offer beautiful, powerful words of life, worship, and transformation. This collection provides works of life, love, and hope designed to encourage you on your journey. Much of what I wanted I have not received; Some of what I longed to do I cannot believe; But everything I ever needed, Jesus gave; All that I ever hope to be, He is. Jesus is everything to me. —from "Jesus Is Everything to Me"

MENC Handbook of Research on Music Learning

Volume 1: Strategies

Oxford University Press The MENC Handbook of Research on Music Learning, Volume 2: Applications brings together the best and most current research on best practice for music learning, focusing squarely on the profession's empirical and conceptual knowledge of how students gain competence in music at various ages and in different contexts. The collection of chapters, written by the foremost figures active in the field, addresses a range of best practices for approaching current and important areas in the field, including cognition and perception, music listening, vocal/choral learning, and the needs of special learners. The book's companion volume, Strategies, provides the solid theoretical framework and extensive research upon which these practices stand. Throughout both volumes in this essential set, focus is placed on the musical knowledge and musical skills needed to perform, create, understand, reflect on, enjoy, value, and respond to music. A key point of emphasis rests on the relationship between music learning and finding meaning in music, and as music technology plays an increasingly important role in learning today, chapters move beyond exclusively formal classroom instruction into other forms of systematic learning and informal instruction. Either individually or paired with its companion Volume 1: Strategies, this indispensable overview of this growing area of inquiry will appeal to students and scholars in Music Education, as well as front-line music educators in the classroom.

A Redemption Song

Illuminations on Black British Pastoral Theology and Culture

SCM Press This landmark text offers critical reflection and practical tool for pastors working and leading congregations where there is a large percentage of African Caribbean worshippers and other marginalised communities. Drawing from real-life pastoral examples, socio-political analysis and the theme of Eucharist as a means to human healing and restoration, it outlines and explores what a black British pastoral theology might look like.

Popular Song in the First World War

An International Perspective

Routledge What did popular song mean to people across the world during the First World War? For the first time, song repertoires and musical industries from countries on both sides in the Great War as well as from neutral countries are analysed in one exciting volume. Experts from around the world, and with very different approaches, bring to life the entertainment of a century ago, to show the role it played in the lives of our ancestors. The reader will meet the penniless lyricist, the theatre chain owner, the cross-dressing singer, fado composer, stage Scotsman or rhyming soldier, whether they come from Serbia, Britain, the USA, Germany, France, Portugal or elsewhere, in this fascinating exploration of showbiz before the generalization of the gramophone. Singing was a vector for patriotic support for the war, and sometimes for anti-war activism, but it was much more than that, and expressed and constructed debates, anxieties, social identities and changes in gender roles. This work, accompanied by many links to online recordings, will allow the reader to glimpse the complex role of popular song in people's lives in a period of total war.

Alleluia is Our Song

Reflections on Eastertide

Canterbury Press Alleluia is our Song draws together a collection of profound and beautiful seasonal reflections for the great fifty days from Easter Day to Pentecost, arguably the greatest season of the Church's year. Michael Mayne was one of Anglicanism's most compelling and attractive voices, a gifted preacher and writer whose works have remained popular. These unpublished writings come from a large archive and are offered as an inspirational resource for preaching at a time of the year when many preachers seek fresh ways of opening up familiar texts, and also for individual devotional reading.

"Jews, Race and Popular Music "

Routledge Jon Stratton provides a pioneering work on Jews as a racialized group in the popular music of America, Britain and Australia during the twentieth and early twenty-first centuries. Rather than taking a narrative, historical approach the book consists of a number of case studies, looking at the American, British and Australian music industries. Stratton's primary motivation is to uncover how the racialized positioning of Jews, which was sometimes similar but often different in each of the societies under consideration, affected the kinds of music with which Jews have become involved. Stratton explores race as a cultural construction and continues discussions undertaken in Jewish Studies concerning the racialization of the Jews and the stereotyping of Jews in order to present an in-depth and critical understanding of Jews, race and popular music.

Slave Songs of the United States

Courier Corporation **This 1867 landmark book represents the first systematic effort to collect and preserve the songs sung by the plantation slaves of the Old South. Most of the 130 songs, arranged by geographic area, were recorded directly from the singers themselves. Includes the melody line and all known verses to each song.**
