**Beyond Belief Agnostic Musings for 12 Step Life Rebellion Dogs Publishing is proud to announce a 21st century daily reflection book. Beyond Belief's 2014 second printing is now available with a Foreword by Ernie Kurtz and updated links and End Notes. What are "agnostic musings"? It is not news to anyone that the war of worldviews makes for sporting debate; does an intervening God grant sobriety, serenity, wisdom and courage or is conscious contact a delusion? Sorry, while we might be as amused as anyone with this question, Beyond Belief: Agnostic Musings for 12 Step Life doesn't enter this debate. Hate the game; don't hate the players. A good idea is a good idea. Why dismiss valid experience because of the beliefs that someone harbors? Beliefs aren't facts. Beyond our belief is where life is happening: chances have to be taken; processes have to be evaluated; life has to be lived. Atheists, humanists, skeptics and agnostics will feel included in these daily reflections. Believers won't feel mocked or belittled. Everyone in recovery is included. No one needs to adopt the beliefs of someone else nor deny our own beliefs to get clean and sober. Believing and belonging are not synonymous. We are well into Century 21. Anyone should feel free to doubt or believe with impunity. Everyone's experience is a valid currency. The 12 Step community has no experts. Rebellion Dogs Publishing neither canonizes nor vilifies 12 Step culture. This book draws on philosophy, psychology, entertainment, art, spiritual musings, skeptical inquiry and the uncanny wisdom of the rooms. Professional and 12&12 Member reviews: Melissa D., Clinical Psychologist, California says, "I have never seen a daily devotional book written for agnostics. I found the readings to be extremely thought provoking. I wonder sometimes since there is such talk about God at meetings, what kind of turn-off that must be for agnostics. I think this book will be very helpful to both the newcomer and the mature 12 Step member." Bob K, contributor to AAagnositca.org says, "I expected his book to be good. It's WAY, WAY better than good. The book is outstanding. Two decades of not being a 'daily reflections' kind of guy, are over. Now I have reflections worth reflecting over! Buy this book or you will suffer a horrible and painful death! Well, maybe not, but you'll be missing out on something very good." Michel D. says, "AA can, and must, adapt to changing circumstances and Bill Wilson was the first one to admit it. Unfortunately, members who have come after him are more zealous than our first members. We have seen this dogmatism in history before of course, especially in religion. This is a very slippery slope. I really like the fact that these reflections are for anyone who has an open mind. It does not cater to a specific group to the exclusion of others. " Denis K. says, "Many thanks for this great book; my Monday night group and I are having some great discussions related to the daily musings both at the group and often during the week over coffee. All of us were quickly losing interest in the local meetings; Beyond Belief: Agnostic Musings for 12 Step Life gave all of us a much needed spark that has renewed our interest in the fellowship." Dr. Amy, MSW, PhD, adds, "One criticism of the 12 Step movement of course is that its dogma can be limiting-Beyond Belief seems to have addressed this. The quotes are cogent, the organization superb and the contributors are diverse." The book includes an index of over 120 topics, extensive notes and a bibliography. Software Studies A Lexicon MIT Press This collection of short expository, critical and speculative texts offers a field guide to the cultural, political, social and aesthetic impact of software. Experts from a range of disciplines each take a key topic in software and the understanding of software, such as algorithms and logical structures. **The First Hundred Years of the Bureau of Labor Statistics** The Bureau of Labor Statistics' early work included studies of depressions, tariffs, immigrants, and alcoholism and many assignments to investigate and mediate disputes between labor and management. The Bureau of Labor in the Department of the Interior was created on June 26, 1884 as the culmination of almost two decades of advocacy by labor organizations that wanted government help in publicizing and improving the status of the growing industrial labor force. **Reminiscences of Famous Georgians Embracing Episodes and Incidents in the Lives of the Great Men of the State** The Beauty Myth How Images of Beauty Are Used Against Women [Harper Collins](#) The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of "the flawless beauty."

**Free from Civilization Notes Toward a Radical Critique of Civilization's Foundations: Domination, Culture, Fear, Economics, Technology** In clear, impassioned prose, Enrico Manicardi analyzes the evils of our age from their genesis. This or that economic, technological or cultural model is not to blame for our current crisis; the blame lies with economics, technology and culture as such. It is the ideology of fear that makes us afraid. It is the mentality of domination that jeopardizes all of our relationships. In short, the problem is civilization. Through its oppressive classes, values and processes that pervade everyone's life, civilization domesticates us, weakens our perceptiveness and distances us from the living world. We must radically change our way of thinking, feeling and behaving before it's too late—we must dam the flood of devitalization that is washing over us, and return to our wilder natures, both inside and outside ourselves. Manicardi's appeal is crystal clear: if we are to survive we must begin to search inside ourselves, not to celebrate the distant past as if it were a cult, but to return to ourselves, to grip life with our own two hands, and build upon that earlier ecocentric conscience which once held the place of the egocentric conscience now leading us astray. Enrico Manicardi was born in 1966 and is a member of La Scintilla, the Society for Libertarian Culture of Modena. A lawyer and founder of the antiauthoritarian media project "Infection," he has also played guitar and written music for an eponymous band since the 1980s. His lifelong wish has been to live in a free, radically off-kilter, ecologically sound world, one characterized by warm, spontaneous, non-hierarchical relationships rather than those consecrated by the cult of technology. Troubled by the way people have succumbed to a civilization that estranges, domesticates and regulates everything and everyone, he continues to protest against the modern world's project to enslave us. This book augurs the rise of an increasingly harmonious chorus loud enough to put an end to that project.

**The Fin-de-Siècle World** [Routledge](#) This comprehensive and beautifully illustrated collection of essays conveys a vivid picture of a fascinating and hugely significant period in history, the Fin de Siècle. Featuring contributions from over forty international scholars, this book takes a thematic approach to a period of huge upheaval across all walks of life, and is truly innovative in examining the Fin de Siècle from a global perspective. The volume includes pathbreaking essays on how the period was experienced not only in Europe and North America, but also in China, Japan, the Middle East, Latin America, Africa, India, and elsewhere across the globe. Thematic topics covered include new concepts of time and space, globalization, the city, and new political movements including nationalism, the "New Liberalism", and socialism and communism. The volume also looks at the development of mass media over this period and emerging trends in culture, such as advertising and consumption, film and publishing, as well as the technological and scientific changes that shaped the world at the turn of the nineteenth century, such as the invention of the telephone, new transport systems, eugenics and physics. The *Fin-de-Siècle World* also considers issues such as selfhood through chapters looking at gender, sexuality, adolescence, race and class, and considers the importance of different religions, both old and new, at the turn of the century. Finally the volume examines significant and emerging trends in art, music and literature alongside movements such as realism and aestheticism. This volume conveys a vivid picture of how politics, religion, popular and artistic culture, social practices and scientific endeavours fitted together in an exciting world of change. It will be invaluable reading for all students and scholars of the Fin-de-

**PreK-12 English Language Proficiency Standards** [Teachers of English to](#) The revised PreK-12 English Language Proficiency Standards build on the World-Class Instructional Design and Assessments (WIDA) Consortium's English Language Proficiency Standards for English Language Learners in Kindergarten through Grade 12 (Wisconsin, 2004). The WIDA Consortium is a group of ten states, formed in 2002 with federal monies, that has developed comprehensive English language proficiency standards. This volume also uses grade-level clusters that reflect current educational configurations in the United States. Each of the five language proficiency standards is divided into the four language domains of listening, speaking, reading and writing. The five levels of language proficiency reflect characteristics of language performance at each developmental stage and include: starting (L1), emerging (L2), developing (L3), expanding (L4), and bridging (L5).

**Thinking Through the Skin** [Routledge](#) This exciting collection of work from leading feminist scholars including Elspeth Probyn, Penelope Deutscher and Chantal Nadeau engages with and extends the growing feminist literature on lived and imagined embodiment and argues for consideration of the skin as a site where bodies take form - already written upon but open to endless re-inscription. Individual chapters consider such issues as the significance of piercing, tattooing and tanning, the assault of self harm upon the skin, the relation between body painting and the land among the indigenous people of Australia and the cultural economy of fur in Canada. Pierced, mutilated and marked, mortified and glorified, scarred by disease and stretched and enveloping the skin of another in pregnancy, skin is seen here as both a boundary and a point of connection - the place where one touches and is touched by others; both the most private of experiences and the most public marker of a raced, sexed and national history.
