A JOURNEY THROUGH THE GLOBAL CRIMINAL UNDERWORLD

House of Anansi Drugs, weapons, migrant labour, women – these are just a few of the many goods that effortlessly cross national borders in this globalized age, often without the knowledge or permission of the nations concerned. How is this remarkable criminal feat managed? From gun runners in the Ukraine, to money launderers in Dubai, cyber criminals in Brazil, racketeers in Japan, and the booming marijuana industry in western Canada, McMafia builds a breathtaking picture of a secret and bloody business. Internationally celebrated writer Misha Glenny crafts a fascinating, highly readable, and impressively well-researched account of the emergence of organized crime as a globalized phenomenon and shows how its secret and bloody business mirrors both the methods and the rewards of the legitimate world economy. Employing his journalistic talent and his prior experience covering organized crime in Eastern Europe, Glenny reports on his travels around the planet to investigate this worrying and worsening situation. After comprehensively surveying the criminal scene, Glenny ends by considering the future of organized crime. McMafia is an important book that assembles all the pieces of this worldwide puzzle for the first time.

INTERNATIONAL CRIME AND JUSTICE

Cambridge University Press International crime and justice is an emerging field that covers international and transnational crimes that have not been the focus of mainstream criminology or criminal justice. This book examines the field from a global perspective. It provides an introduction to the nature of international and transnational crimes and the theoretical perspectives that assist in understanding the relationship between social change and the waxing and waning of the crime opportunities resulting from globalization, migration, and culture conflicts. Written by a team of world experts, it examines the central role of victim rights in the development of legal frameworks for the prevention and control of transnational and international crimes. It also discusses the challenges to delivering justice and obtaining international cooperation in efforts to deter, detect, and respond to these crimes.

INTERNATIONAL AND TRANSNATIONAL CRIME AND JUSTICE

Cambridge University Press Provides a key textbook on the nature of international and transnational crimes and the delivery of justice for crime control and prevention.

CRIME-TERROR ALLIANCES AND THE STATE

ETHNONATIONALIST AND ISLAMIST CHALLENGES TO REGIONAL SECURITY

Routledge This book examines the trans-border connections between militant and criminal networks and the relationship between these and the states in which they operate. "Unholy alliances" is a term used to describe hybrid trans-border militant and criminal networks that pose serious threats to security in Europe and elsewhere. Identity networks provide the basis for militant organizations using violent strategies - insurgency and terrorism - for political objectives. To gain funds and weapons militant networks may establish criminal enterprises, or align with existing trans-border criminal and financial networks. This book extends the concept of unholy alliances to include the trans-state criminal syndicates that arise in failed and dysfunctional states, exemplified by Serbia and Bulgaria during their post-Communist transitions. To deal with this complex and unconventional subject, the authors develop a theoretical framework that looks at four kinds of factors conditioning the interaction between the political and the criminal: trans-state identity networks, armed conflict, the balance of market opportunities and constraints, and the role of unstable and corrupt states. The volume also examines actors at two levels of analysis: the structure and activities of militant (and/or criminal) networks, and the policies of state actors that shape and reshape the interaction of opportunities and constraints. This book will be of much interest to students of terrorism, insurgency, transnational crime, war and conflict studies, and IR in general.

Cambridge University Press The Global Burden of Armed Violence 2015 examines international debates on including peace and security in the post-2015 development framework.

JUGGERNAUT

HOW EMERGING POWERS ARE RESHAPING GLOBALIZATION

Brookings Institution Press Against the long sweep of economic history, the current moment is special. Living standards advanced so rapidly and across so many countries over the last decade that it is difficult to think of parallels—even the deepest recession since the Great Depression did not halt progress. In Juggernaut, Uri Dadush and William Shaw explore the rise of developing countries and how they will reshape the economic landscape. Dadush and Shaw project that the global economy will more than triple over the next forty years and the advance of a large group of developing countries—home to most of the world's population but seen as supplicants rather than trendsetters less than a generation ago—will drive this improvement. The authors systematically examine the effects of this seismic shift on the main avenues of globalization—trade, finance, migration, and the global commons—and identify the policy options available to leaders in managing the transformation. In the years to come, the rise of emerging economies will likely enhance prosperity but also create great tensions that could slow the process or even stop it in its tracks. Juggernaut calls for leadership by the largest countries in managing these tensions, and underscores the need to cultivate a "global conscience."

ON THE TRAIL OF CAPITAL FLIGHT FROM AFRICA

THE TAKERS AND THE ENABLERS

Oxford University Press On the Trail of Capital Flight from Africa investigates the dynamics of capital flight from Angola, Côte d'Ivoire, and South Africa, countries that have witnessed large-scale illicit financial outflows in recent decades. Quantitative, qualitative, and institutional analysis for each country is used to examine the modus operandi of capital flight; that is, the 'who', 'how', and 'where' dimensions of the phenomenon. 'Who' refers to major domestic and foreign players; 'how' refers to mechanisms of capital acquisition, transfer, and concealment; and 'where' refers to the destinations of capital flight and the transactions involved. The evidence reveals a complex network of actors and enablers involved in orchestrating and facilitating capital flight and the accumulation of private wealth in offshore secrecy jurisdictions. This underscores the reality that capital flight is a global phenomenon, and that measures to curtail it are a shared responsibility for Africa and the global community. Addressing the problem of capital flight and related issues such as trade misinvoicing, money laundering, tax evasion, and theft of public assets by political and economic elites will require national and global efforts with a high level of coordination.

THE QUEST FOR SECURITY

PROTECTION WITHOUT PROTECTIONISM AND THE CHALLENGE OF GLOBAL GOVERNANCE

Columbia University Press The essays in this collection boldly confront the quest for security arising from the social, economic, environmental, and political crises and transformations of our century. Joseph E. Stiglitz and Mary Kaldor begin with an expansive, balanced analysis of the global landscape and the factors contributing to the growth of insecurity. Whereas earlier studies have touched on how globalization has increased economic insecurity and how geopolitical changes may have contributed to military insecurity, this volume looks for some common threads: in a globalized world without a global government, with a system of global governance not up to the task, how do we achieve security without looking inward and stepping back from globalization? In each of their areas of expertise, contributors seek answers to questions about how we achieve protection of those people who are most insecure without resorting to economic, military, or mafia protectionism. Some have suggested that the turmoil in the Eurozone "proves" the deficiencies in the welfare state. This book argues that the superior performance of Scandinavian countries arises from their superior systems of social protection, which allow their citizens to undertake greater risk and more actively participate in globalization. Some suggest that we can address terrorism or transnational crimes through the strengthening of borders or long-distance wars. This book develops the proposition that such approaches have the opposite effect and that only through spreading the human security experienced in well-ordered societies can these dangers be managed. This book also examines how these global changes play out, not only in the relations among countries and the management of globalization, but at every level of our society, especially in our cities. It explores the potential for cities to ensure personal security, promote political participation, and protect the environment in the face of increasing urbanization.

WESTERN FINANCIAL ASSISTANCE TO THE DEVELOPING WORLD

PERCEPTIONS OF THE POWER IMBALANCE AND ITS IMPACT ON FISCAL TERMS

Springer This unconventional book addresses the imbalance of power between countries that give and receive funds for international financial development, with particular attention to the outcomes and impacts of this imbalance on recipient countries. It provides an in-depth analysis of the perceptions that population segments of recipient countries have of the power plays inherent in giving and receiving financial assistance, delving deep into the factors that affect these perceptions to examine how and why developed countries wield power over countries receiving financial assistance. While the text focuses primarily on African countries, it also addresses the broader power imbalance between developed countries in the global north and developing countries in the global south. It also examines perceptions of development assistance and power imbalance between the global south in general and the BRICS countries which provide assistance to the global south in particular. This book is an ideal tool for those studying the socioeconomic impacts of international financial assistance to developing countries.

GLOBAL CRIMINAL AND SOVEREIGN FREE ECONOMIES AND THE DEMISE OF THE WESTERN DEMOCRACIES

DARK RENAISSANCE

Routledge Much has been written about the many economic benefits of globalization and the triumph and spread of democratic liberalism with the end of the Cold War, following the demise of the Soviet Union. This work takes issue with such "wine and roses" perspectives about the future of the Western democracies and their faith-based views on the moral purity of a globalized marketplace. It also questions many of the assumptions found in the status quo reinforcing discipline of international political economy (IPE)—a discipline that focuses on the formal and legitimate economies and the façade they present that international relations and commerce is still dominated and dictated solely by the old Westphalian state centric system. Having highlighted these concerns, this book looks at two major themes. The first theme focuses on the theoretical perception that a "Dark Renaissance" is taking place globally—one in which the Western liberal democracies and its citizens are ill prepared to respond because it exists at the trans-civilization level, bridging the modern to the post-modern world. The second theme focuses on the actual process of state deconstruction that is taking place. This process is leading to what may become the very undoing of the democracies. Drawing together experts from a variety of backgrounds, this work explores the increasing shift away from formal based capitalism and evaluates through case studies how different states are responding to the challenges they face. This work will be of great interest to students and scholars of international political economy.

A RESEARCH AGENDA FOR GLOBAL CRIME

Edward Elgar Publishing This multidisciplinary collection of essays by leading international scholars explores many pressing issues related to global crime. The book opens with essays that look across this diverse terrain and then moves on to consider specific areas including organised crime, cyber-crime, war-crimes, terrorism, state and private violence, riots and political protest, prisons, sport and crime and counterfeit goods. The book emphasises the centrality of crime to the contemporary global world and mobilises diverse disciplinary positions to help understand and address this.

THE ILLICIT AND ILLEGAL IN REGIONAL AND URBAN GOVERNANCE AND DEVELOPMENT

CORRUPT PLACES

Routledge Discussions of the illicit and the illegal have tended to be somewhat restricted in their disciplinary range, to date, and have been largely confined to the literatures of anthropology, criminology, policing and, to an extent, political science. However, these debates have impinged little on cognate literatures, not least those of urban and regional studies which remain almost entirely undisturbed by such issues. This volume aims to open up debates across a range of cognate disciplines. The Illicit and Illegal in Regional and Urban Governance and Development is a multidisciplinary volume that aims to open up these debates, extending them empirically and questioning the dominant discussions of governance and development that have been rooted largely or entirely in the realm of licit and legal actors. The book investigates these issues with reference to a variety of different geographical contexts, including, but not limited to, places traditionally considered to be associated with illegal activities and extensive illicit markets, such as some regions in the so-called Global South. The chapters consider the ways in which these questions deeply affect the daily lives of several cities and regions in some advanced countries. Their comparative perspectives will demonstrate that the illicit and the illegal are an underappreciated structural aspect of current urban and regional governance and development across the globe. The book is an edited collection of research-informed essays, which will primarily be of interest to those taking advanced undergraduate and taught postgraduate courses in human geography, urban and regional planning and a range of social science disciplines that have an interest in urban and regional issues and issues related to crime and corruption.

WEAK LINKS

FRAGILE STATES, GLOBAL THREATS, AND INTERNATIONAL SECURITY

Oxford University Press Conventional wisdom holds that weak and failing states are the source of the world's most pressing security threats. However, our assumptions are based on anecdotal arguments, not on a systematic analysis. Analyzing terrorism, transnational crime, WMDs, pandemic diseases, and energy insecurity, Stewart Patrick shows that while some global threats do emerge in failed states, most of their weaknesses create misery only for their own citizenry. Moreover, many threats originate farther up the chain, in wealthier and more stable countries like Russia and Venezuela. Weak Links will force policymakers to rethink what they assume about state failure and transnational insecurity.

HOW BAD HABITS BECAME BIG BUSINESS

Harvard University Press "A fascinating history of corporate America's efforts to shape our habits and desires." —Sean Illing, Vox "[A] compulsively readable book about bad habits becoming big business...In crisp and playful prose and with plenty of needed humor, Courtwright has written a fascinating history of what we like and why we like it, from the first taste of beer in the ancient Middle East to opioids in West Virginia." —American Conservative "A sweeping, ambitious account of the evolution of addiction...This bold, thought-provoking synthesis will appeal to fans of 'big history' in the tradition of Guns, Germs, and Steel." —Publishers Weekly "A mind-blowing tour de force that unwraps the myriad objects of addiction that surround us daily...This intelligent, incisive, and sometimes grimly entertaining book will become the standard work on the subject." —Rod Phillips, author of Alcohol: A History We live in an age of addiction, from compulsive gaming and shopping to binge eating and opioid abuse. Sugar can be as habit-forming as cocaine, researchers tell us, and social media apps are deliberately hooking our kids. But what can we do to resist temptations that insidiously rewire our brains? A renowned expert on addiction, David Courtwright reveals how global enterprises have both created and catered to our addictions. The Age of Addiction chronicles the triumph of what he calls "limbic capitalism," the growing network of competitive businesses targeting the brain pathways responsible for feeling, motivation, and long-term memory.

ORGANIZED CRIME AND THE NATION-STATE

GEOPOLITICS AND NATIONAL SOVEREIGNTY

Routledge Geopolitics is an increasingly important tool to understand national and international relations. This book unravels how organized crime is not just a marginal problem but part of a bigger geopolitical and asymmetrical warfare strategy. It seeks to establish a direct relationship between Nation States and organized crime groups. Many States have been using criminal and terrorist organizations as a policy for issues of national sovereignty or as a tool to strengthen a nation's geopolitical position. This book demonstrates how national states are utilizing criminal organizations in covert operations and "dirty jobs" such as espionage, proxy war, arms trafficking and sabotage. Examples from the United States, China and the Soviet Union are explored, providing both an historical and contemporary analysis, from World War II through to the Cold War and to the present day. The book brings together perspectives from international relations and criminology drawing on insights from a variety of sources, including public documents and interviews.

OVERBOOKED

THE EXPLODING BUSINESS OF TRAVEL AND TOURISM

Simon and Schuster "Travel is no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product; nations as stewards. Seeing the tourism industry from the inside out, the world offers a dizzying range of travel options but very few quiet getaways"--

INTELLIGENCE SHARING, TRANSNATIONAL ORGANIZED CRIME AND MULTINATIONAL PEACEKEEPING

Springer This book describes the problems of intelligence sharing among peacekeeping partners, mainly due to security concerns and a lack of policies and resources. The study posits that the current emphasis on violent extremism as a driver of conflict is misplaced, as TOC is a more pervasive cause, creating and exacerbating instability to increase its markets and capabilities and is an essential funding stream for violent extremists. The book identifies approaches to future missions emphasizing training and resourcing for analysts in the field.

Since 2005, the partnership between the European Commission and the Council of Europe in the field of youth activities has focused on the following topics: European citizenship, human rights education and intercultural dialogue, quality and recognition of youth work and training, better understanding and knowledge of youth and youth policy development. The partnership between the European Commission and the Council of Europe in the field of youth brings together the two institutions' experience in non-formal education, youth policy, youth research and youth work practice. Activities organised within its framework gather representatives of those areas who share their knowledge and experience for the benefit of enhancing evidence-based policy, practice, quality and recognition of youth work and training. Results and other material are made available on the partnership website (<http://youth-partnership-eu.coe.int>) and in various publications, including the Training Kits (T-Kits). UNDERSTANDING ENERGY SECURITY IN CENTRAL AND EASTERN EUROPE

RUSSIA, TRANSITION AND NATIONAL INTEREST

Routledge The purpose of this book is to move beyond the approach which views energy as a purely geopolitical tool of the Russian state and assumes a 'one size fits all' approach to energy security in Central and Eastern Europe (CEE). It argues that in order to fully understand Russian involvement in the regional energy complex, the CEE-Russian energy relationship should be analysed in the context of the political and economic transitions that Russia and the CEE states underwent. The chapters on individual countries in the book demonstrate that, although Russia has and will continue to play a substantial role in the CEE energy sector, the scope of its possible influence has been overstated.

THE SEX TRADE, EVIL, AND CHRISTIAN THEOLOGY

Wipf and Stock Publishers As a scholar and an activist, Glenn Harden seeks a theology of hope that can sustain opposition to evil. Looking into the face of evil without blinking, he uses the sex trade as an example of how horrendous evil can be. But he also uncovers stories of radical healing which are problematic for those who deny either God or the resurrection. This book is for those people of faith who walk in dark places and need deeper theological sustenance to sustain their journey.

CORRUPTION, GLOBAL SECURITY, AND WORLD ORDER

PLUTOCRATIC INSURGENCY READER

Xlibris Corporation Plutocratic insurgency represents an emerging form of insurgency not seen since the late 19th century Gilded Age. It is being conducted by high net worth globalized elites allowing them to remove themselves from public spaces and obligations—including taxation—and to maximize their ability to generate profits transnationally. It utilizes 'lawyers & lobbyists' and corruption, rather than armed struggle—though mercenaries may be employed—to create shadow governance in pursuit of plutocratic policy objectives. Ultimately, this form of insurgency is representative of the challenge of 21st century predatory and sovereign-free capitalism to 20th century state moderated capitalism and its ensuing public welfare programs and middle class social structures. It can be viewed as a component of 'Dark Globalization' that, along with the emergence of criminal insurgency, is now actively threatening the public institutions and citizenry of the Westphalian state form. This important and groundbreaking Small Wars Journal book is composed of over thirty readings by fifteen contributors.
