Assessing Multilingual Children

Disentangling Bilingualism from Language Impairment

Multilingual Matters This book presents a comprehensive set of tools for assessing the linguistic abilities of bilingual children. It aims to disentangle effects of bilingualism from those of Specific Language Impairment (SLI), making use of both models of bilingualism and models of language impairment.

Shakespeare's Pictures

Visual Objects in the Drama

Bloomsbury Publishing Shakespeare's Pictures is the first full-length study of visual objects in Shakespearean drama. In several plays (Hamlet, The Merchant of Venice and Twelfth Night, among others) pictures are brought on stage - in the form of portraits or other images - as part of the dramatic action. Shakespeare's characters show, exchange and describe them. The pictures arouse in their beholders strong feelings, of desire, nostalgia or contempt, and sometimes even taking the place of the people they depict. The pictures presented in Shakespeare's work are part of the language of the drama, and they have a significant impact on theatrical performance, from Shakespeare's time to our own. Keir Elam pays close attention to the iconographic and literary contexts of Shakespeare's pictures while also exploring their role in performance history. Highly illustrated with 46 images, this volume examines the conflicted cooperation between the visual and the verbal.

Crisis Talk

Negotiating with Individuals in Crisis

Routledge Based on extensive analysis of real-time, authentic crisis encounters collected in the UK and US, Crisis Talk: Negotiating with Individuals in Crisis sheds light on the relatively hidden world of communication between people in crisis and the professionals whose job it is to help them. The crisis situations explored in this book involve police hostage and crisis negotiators and emergency dispatchers interacting with individuals in crisis who threaten suicide or self-harm. The practitioners face various communicative challenges in these encounters, including managing strong emotions, resistance, hostility, and unresponsiveness. Using conversation analysis, Crisis Talk presents evidence on how practitioners deal with the interactional challenge of negotiating with people in crisis and how what they say shapes outcomes. Each chapter includes recommendations based on the detailed analysis of numerous cases of actual negotiation. Crisis Talk shows readers how every turn taken by negotiators can exacerbate or solve the communicative challenges created by crisis situations, making it a unique and invaluable text for academics in psychology, sociology, linguistic sciences, and related fields, as well as for practitioners engaging in crisis negotiation training or fieldwork.
