King Trends and the Future of Public Policy Springer This study presents, for the first time, a synoptic picture of the future directions in which public policy in EU countries is likely to move based on using contemporary theories of policy-making to deduce the implications for public policy of major long-term technological, economic, environmental and social trends. **Global Trends 2040 A More Contested World** Cosimo Reports "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." - **Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021)**, released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading. **Public Policy and Administration Recent Trends and Future Prospects** The Future of Health Care Public Concerns and Policy Trends E-Government Website Development: Future Trends and Strategic Models Future Trends and Strategic Models IGI Global "This book provides fundamental clues about the direction forward in electronic government needed to achieve even greater value from websites and assist the continuing transformation of governmental interaction with citizens"--Provided by publisher. **Public Service, Governance and Web 2.0 Technologies: Future Trends in Social Media** Future Trends in Social Media IGI Global "This book investigates the effects of Web technologies and social media on interaction and the political process helping readers to use Web technologies to address local and global problems and improve systems of governance, social equity, economic activity, sustainability, service delivery, transparency, and the ethical and legal dimensions of public service"--Provided by publisher. **The Future of Public Housing** Ongoing Trends in the East and the West Springer Science & Business Media Public housing was once an important strand in western housing policies, but is seldom seen as a mainstream policy instrument for the future. In contrast, in many East Asian countries large public housing programs are underway. Behind these generalizations, there are exceptions, too. By including perspectives of scholars from across the world, this book provides new insights into public housing in its various forms. It contains in-depth chapters on public housing in five East Asian countries and six Western countries, together with three comparative overview chapters. **State Arts Policy Trends and Future Prospects** Rand Corporation This report, the final in a series of four on state arts agencies, looks at these agencies' efforts to rethink their roles and missions, reflecting on what the changes may mean for state arts policy and the structure of state arts funding. The author offers a view of what the future may hold for state arts agencies and for state arts policy if current trends and strategies continue. **European Union Public Health Policy** Regional and global trends Routledge Ranging from influence over world trade laws affecting health to population health issues such as obesity to the use of comparative data to affect policy, the EU's public health policies are increasingly important, visible, expensive and effective. They also provide an invaluable case study for those who want to understand the growth and impact of the EU as well as how states can affect their populations' lives and health. **European Union Public Health Policy** capitalizes on extensive new research, providing an introduction to the topic and indicating new intellectual directions surrounding the topic. An introductory section and extended conclusion explore the meaning of public health, the relationship of EU public health policy to health care policy, and the place of public health in the study of European integration and Europeanization. Focusing on health system transformation, global health governance and population health, the chapters address: Relevant policy issues and EU policies; Effects of the EU policies on practice or outcomes; An explanation of the policy trajectory; Current issues and likely future directions or conflicts. Drawing together an international and multidisciplinary selection of experts, this volume is an important contribution for all those interested in public health policy, EU health policy and EU governance. **The Future of National Urban Policy** Duke University Press The Future of National Urban Policy brings together scholars, policymakers, and journalists to explore the condition of America's cities. The authors focus on policies of the previous five presidential administrations to examine the history of urban policy and offer suggestions for its future. Individual chapters address a variety of topics, including housing, employment, education, the infrastructure of cities, and public policy. **Past Trends and Future Prospects of the American City** The Dynamics of Atlanta Rowman & Littlefield This book provides a comprehensive and detailed investigation of a major U.S. city, examining topics that include the economy, demographics, transportation, housing, and race. The book examines the changes that have occurred over the past three decades, exploring the factors associated with those changes and discussing future prospects. **Public Service, Governance and Web 2.0 Technologies** Future Trends in Social Media "This book investigates the effects of Web technologies and social media on interaction and the political process helping readers to use Web technologies to address local and global problems and improve systems of governance, social equity, economic activity, sustainability, service delivery, transparency, and the ethical and legal dimensions of public service"-- Handbook on Complexity and Public Policy Edward Elgar Publishing 'Over recent years Complexity Science has revealed to us new limits to our possible knowledge and control in social, cultural and economic systems. Instead of supposing that past statistics and patterns will give us predictable outcomes for possible actions, we now know the world is, and will always be, creative and surprising. Continuous structural evolution within such systems may change the mechanisms, descriptors, problems and opportunities, often negating policy aims. We therefore need to redevelop our thinking about interventions, policies and policy making, moving perhaps to a humbler, more 'learning' approach. In this Handbook, leading thinkers in multiple domains set out these new ideas and allow us to understand how these new ideas are changing policymaking and policies in this new era.' - Peter M Allen, Cranfield University, UK **Future Trends in East Asian International Relations** Security, Politics, and Economics in the 21st Century Routledge The world has undergone significant change since the end of the Cold War. One such development is that the Asia-Pacific has become increasingly prominent in international affairs. This comprehensive study provides a detailed understanding of key issues, actors and future trends in the region. **Global Trends 2030 Alternative Worlds** Createspace Independent Publishing Platform This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in **Global Trends 2030**, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. **Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment 8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information Technologies 83 AUTOMATION AND MANUFACTURING TECHNOLOGIES 87 Resource Technologies 90 Health Technologies 95 The Role of the United States 98 Steady US Role 98 Multiple Potential Scenarios for the United States' Global Role 101 Alternative Worlds 107 Stalled Engines 110 FUSION 116 Gini-out-of-the-Bottle 122 Nonstate World 128 Acknowledgements 134 GT2030 Blog References 137 Audience: Appropriate for anyone, from businesses to banks, government agencies to start-ups, the technology sector to the teaching sector, and more. This book examines the 'territorial dimension' of EU Cohesion Policy, specifically assessing territorial impacts at the various spatial levels, engaging theoretically and empirically with the notion and role of the 'territorial dimension' within a strongly fragmented EU policymaking process, and examining more generally EU Cohesion Policy, as the main driver of the EU territorial development process. It provides an updated and fresh theoretical discussion on the precise meaning of the 'territorial dimension' of policies and the relatively recent EU policy evaluation technique, known as 'Territorial Impact Assessment' (TIA). Assessing the history, relevance, efficiency and effectiveness of these procedures, it presents several empirical findings on the implementation of specific territorial-focus and place-based financial instruments, as part of the Territorial Agendas and the EU goal of achieving a more integrated, territorial approach. This text will be of key interest to scholars, students and practitioners of spatial planning and cohesion policy, European sector policies and European spatial planning, and more broadly to European and EU studies/politics, regional economic geography and public policy. The Future of the Public's Health in the 21st Century National Academies Press The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. The Future of the Public's Health in the 21st Century reaffirms the vision of Healthy People 2010, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. Providing an accessible analysis, this book will be important to public health policy-makers and practitioners, business and community leaders, health advocates, educators and journalists. The Future of Home Health Care Workshop Summary National Academies Press Individuals with disabilities, chronic conditions, and functional impairments need a range of services and supports to keep living independently. However, there often is not a strong link between medical care provided in the home and the necessary social services and supports for independent living. Home health agencies and others are rising to the challenges of meeting the needs and demands of these populations to stay at home by exploring alternative models of care and payment approaches, the best use of their workforces, and technologies that can enhance independent living. All of these challenges and opportunities lead to the consideration of how home health care fits into the future health care system overall. On September 30 and October 1, 2014, the Institute of Medicine and the National Research Council convened a public workshop on the future of home health care. The workshop brought together a spectrum of public and private stakeholders and thought leaders to improve understanding of the current role of Medicare home health care in supporting aging in place and in helping high-risk, chronically ill, and disabled Americans receive health care in their communities. Through presentations and discussion, participants explored the evolving role of Medicare home health care in caring for Americans in the future, including how to integrate Medicare home health care into new models for the delivery of care and the future health care marketplace. The workshop also considered the key policy reforms and investments in workforces, technologies, and research needed to leverage the value of home health care to support older Americans, and research priorities that can help clarify the value of home health care. This summary captures important points raised by the individual speakers and workshop participants. Transportation Policy in the States Current and Future Trends Monetary Policy and the Management of the Public Debt Their Role in Achieving Price Stability and High-level Employment Estimating the Range of Uncertainty in Future Development from Trends in Physical Constants and Predictions of Global Change Public Policy Issues Research Trends Nova Publishers In any society, governmental entities enact laws, make policies, and allocate resources. This is true at all levels. Public policy can be generally defined as a system of laws, regulatory measures, courses of action, and funding priorities concerning a given topic promulgated by a governmental entity or its representatives. Individuals and groups often attempt to shape public policy through education, advocacy, or mobilisation of interest groups. Shaping public policy is obviously different in Western-style democracies than in other forms of government. But it is reasonable to assume that the process always involves efforts by competing interest groups to influence policy makers in their favour. A major aspect of public policy is law. In a general sense, the law includes specific legislation and more broadly defined provisions of constitutional or international law. There are many ways that the law can influence how survivors of violence against women are treated and the types of services they receive. Global Trends 2030 Alternative Worlds : a Publication of the National Intelligence Council U.S. Government Printing Office This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report. Handbook of Life-Course Criminology Emerging Trends and Directions for Future Research Springer Science & Business Media The wide-ranging scope of the Handbook of Life-Course Criminology covers genetics and environment, child offenders and late bloomers, the impact of school and peers, lifelong and time-limited criminal careers, and qualitative and quantitative methodologies. This unique Handbook is further set apart by its dual coverage of the leading edge of current research and innovative directions for future work in the field. Pathways to crime have been a central concept of criminology from its inception. Accordingly, a lifespan approach to the field has replaced earlier biological and sociological perspectives with a more nuanced understanding of offender behavior and a wider lens of study. The contributions to this Handbook break down issues of criminal and antisocial behavior from early childhood to late adulthood, examining developmentally targeted prevention and intervention strategies and reviewing emerging trends in research. Among the topics: · Childhood: including physical aggression in childhood, pre- and peri-natal development, and environment. · Adolescence: the impact of schooling, unstructured time with peers, gang membership and peer networks. · Adulthood: Adult onset crime, unemployment in emerging adulthood, crime and adult outcomes. · Prevention and Intervention: community programs, lifetime intervention strategies, re-entry. This volume will be a valuable piece for researchers in Criminology and Criminal Justice as well as related disciplines such as Sociology, Developmental Psychology, and Social Policy. It will serve as an important reference for the current state of research, as well as a roadmap for future scholars. "This impressive Handbook provides comprehensive coverage of key developmental and life course issues in criminology from birth to adulthood, including biology, genetics, gangs, schools, neighborhoods, adult onset, desistance, and interventions. The research recommendations in each chapter are especially important, and they should stimulate advances in knowledge for many years to come. This Handbook should be required reading for all criminologists." David P. Farrington, Professor of Psychological Criminology, Cambridge University, Cambridge, UK "In just a few decades developmental criminology has become the dominant intellectual force in criminology. This volume demonstrates why. It provides incisive reviews of important themes in developmental criminology. More importantly, it lays out rich agendas for future research that should inspire the next generation of developmental criminologists." Daniel S. Nagin, Teresa and H. John Heinz III University Professor of Public Policy and Statistics, Carnegie Mellon University, Pittsburgh, PA, USA The Future of Evaluation Global Trends, New Challenges, Shared Perspectives Springer Evaluation has become an important instrument for rational governance and is used in an increasing number of countries and policy fields. Recent developments at the global, national and local level are changing the conditions and functions of evaluation worldwide. This book examines current global development trends and changing demands for evaluation. It addresses issues surrounding professionalisation and globalisation, examining the need to strengthen accountability for social development in various different policy fields, regions and countries to improve governance and its impacts on social betterment. It also considers issues of quality, utility and further education and the upgrading of evaluation in a broad variety of different organisations, such as multilateral donor organisations, national public administrations, private consultancies, civil-society organisations, universities, and research institutes. With contributions from 30 different countries, this book combines a broad variety of viewpoints to examine the global future of evaluation.
