Security of Self-Organizing Networks

MANET, WSN, WMN, VANET

CRC Press Reflecting recent advancements, **Security of Self-Organizing Networks: MANET, WSN, WMN, VANET** explores wireless network security from all angles. It begins with a review of fundamental security topics and often-used terms to set the foundation for the following chapters. Examining critical security issues in a range of wireless networks, the book proposes specific solutions to security threats. Ideal for those with a basic understanding of network security, the text provides a clear examination of the key aspects of security in self-organizing networks and other networks that use wireless technology for communications. The book is organized into four sections for ease of reference: General Topics—Security of Wireless and Self-Organizing Networks Mobile Ad-Hoc Network and Vehicular Ad-Hoc Network Security Wireless Sensor Network Security Wireless Mesh Network Security Highlighting potential threats to network security, most chapters are written in a tutorial manner. However, some of the chapters include mathematical equations and detailed analysis for advanced readers. Guiding you through the latest trends, issues, and advances in network security, the text includes questions and sample answers in each chapter to reinforce understanding.

Strategies for Success with English Language Learners

ASCD Approximately 4.7 million designated English language learners attend public schools (Office of English Language Acquisition, 2002). It is predicted that by the 2030s, English language learners will account for about 40 percent of the school-age population. Yet very few teachers have been trained to address the needs of these students, and the questions they ask are the same as they asked decades ago: Who are English language learners and what are effective ways for schooling them? What kind of educational program brings about the best results? What are sound practices for facilitating English language acquisition? How can English language learners have academic success in subject areas? How do we teach English language learners in our classrooms? - p. 5.

Moving Forward!

The President Making a Better America and the World

Trafford Publishing **Why this book?** Barack Obamas life has been the subject of endless news reports, blogs, memoirs, and case histories. And yet at a deeper personal level, he has remained an enigma, a riddle, a person shrouded in mystery and mystique. There is a need for something definite and specific: a constructive setting forth of reality and truth. That reality and truth is embalmed in the antiseptic pages of this book.

Business Analysis Based on BABOK® Guide Version 2 – A Pocket Guide

Van Haren **A Guide to the Business Analysis Body of Knowledge® (BABOK® Guide)** is the collection of knowledge within the profession of business analysis and reflects current generally accepted practices. As with other professions, the body of knowledge is defined and enhanced by the business analysis professionals who apply it in their daily work role. The purpose of this pocket guide to the BABOK® Guide is to help understand the key knowledge found within the BABOK Guide and how it can be applied to a particular situation. Primary target groups for this pocket guide are: • Individuals interested in how business analysis works or who may want to become Business Analysts; • Business Analysts as a quick reference during the course of their day-to-day work; • Team members working on projects or within normal organizational operations where business analysis is performed; • Managers and executives who need to understand how business analysis can help improve their organizations. This pocket guide is based upon the content found in Version 2 of the BABOK Guide. The BABOK Guide was first published by the International Institute of Business Analysis (IIBA) in 2005. Version 2.0 was released in March 2009. The BABOK® Guide describes business analysis areas of knowledge, their associated activities and the tasks and skills necessary to be effective in their execution. The BABOK® Guide is a reference for professional knowledge for business analysis and provides the basis for the Certified Business Analysis Professional™ (CBAP®) and the Certification of Competency in Business Analysis™ (CCBA®) certifications.

FUNDAMENTALS OF EDUCATIONAL ADMINISTRATION, MANAGEMENT AND ORGANIZATION

Ashok Yakkaldevi Introduction Education is a complex process which involves different components such as pupils, teachers, employees, building, money, equipment, rules and regulations etc. All these components have to be managed properly in order to run the entire process smoothly. Educational Administration deals with all these components of education and integrates the different parts into a comprehensive whole for the smooth functioning of educational process. We all know that for any process to run, we need different components, a proper procedure and a machinery to fulfill its specific end in view. Educational administration is a comprehensive effort to integrate different components of education to achieve the aim and objectives of education. It is a dynamic side of education, which generally deals with the educational practices. Educational administration always deals with an educational organization or institution right from school, college, to university or any other seat of higher learning. It also deals with the different aspects of education such as planning, decision making, implementation of educational policies, evaluation, framing and implementing rules and regulations of the institution, finances, and different problems of pupils, teachers, employees and above all, realization of some specific aims of education.

Functional Thinking for Value Creation

Proceedings of the 3rd CIRP International Conference on Industrial Product Service Systems, Technische Universität Braunschweig, Braunschweig, Germany, May 5th - 6th, 2011

Springer Science & Business Media After the IPS2 conferences in Cranfield and Linköping in 2009 and 2010 the 3rd CIRP International Conference on Industrial Product Service Systems (IPS2) 2011 takes place in Braunschweig, Germany. IPS2 itself is defined as "an integrated industrial product and service offering that delivers value in use". The customers expect comprehensive solutions, which are adapted to their individual needs. IPS2 offers the possibility to stand out from competition and for long-term customer loyalty. Particularly in times of economic crisis it becomes apparent which producing companies understand to satisfy the needs and requirements of their customers. Especially in this relatively new domain IPS2 it will be important to keep track of the whole context and to seek cooperation with other research fields and disciplines. The 3rd CIRP International Conference on Industrial Product Service Systems (IPS2) 2011 serves as a platform for such collaborations and the discussion of new scientific ideas.

Programming Languages

An Active Learning Approach

Springer Science & Business Media **Programming Languages: An Active Learning Approach** introduces students to three programming paradigms: object-oriented/imperative languages using C++ and Ruby, functional languages using Standard ML, and logic programming using Prolog. This interactive textbook is intended to be used in and outside of class. Each chapter follows a pattern of presenting a topic followed by a practice exercise or exercises that encourage students to try what they have just read. This textbook is best-suited for students with a 2-3 course introduction to imperative programming. **Key Features:** (1) Accessible structure guides the student through various programming languages. (2) Seamlessly integrated practice exercises. (3) Classroom-tested. (4) Online support materials. **Advance praise:** "The Programming Languages book market is overflowing with books, but none like this. In many ways, it is precisely the book I have been searching for to use in my own programming languages course. One of the main challenges I perpetually face is how to teach students to program in functional and logical languages, but also how to teach them about compilers. This book melds the two approaches very well." -- David Musicant, Carleton College

Selected Writings on Self-organization, Philosophy, Bioethics, and Judaism

Fordham Univ Press During the last thirty years, biophysicist and philosopher Henri Atlan has been a major voice in contemporary European philosophical and bio-ethical debates. In a massive oeuvre that ranges from biology and neural network theory to Spinoza's thought and the history of philosophy, and from artificial intelligence and information theory to Jewish mysticism and to contemporary medical ethics, Atlan has come to offer an exceptionally powerful philosophical argumentation that is as hostile to scientism as it is attentive to biology's conceptual and experimental rigor, as careful with concepts of rationality as it is committed to rethinking the human place in a radically determined yet forever changing world. --Book Jacket.

Software Process Improvement

13th European Conference, EuroSpi 2006, Joensuu, Finland, October 11-13, 2006, Proceedings

Springer Science & Business Media This textbook is intended for use by SPI (Software Process Improvement) managers and researchers, quality managers, and experienced project and research managers. The papers constitute the research

proceedings of the 13th EuroSPI (European Software Process Improvement, www.eurospi.net) conference, held in Joensuu, Finland, 11-13 October 2006. The conference was held in 1994 in Dublin (Ireland), 1995 in Vienna (Austria), 1997 in Budapest (Hungary), 1998 in Gothenburg (Sweden), 1999 in Pori (Finland), 2000 in Copenhagen (Denmark), 2001 in Limerick (Ireland), 2002 in Nuremberg (Germany), 2003 in Graz (Austria), 2004 in Trondheim (Norway), and 2005 in Budapest (Hungary). EuroSPI has established an experience library (library.eurospi.net) which will be continuously extended over the next years and will be made available to all attendees. EuroSPI has also initiated a European Qualification Network in which different SPINs and national initiatives join mutually beneficial collaborations (EQN -- EU Leonardo da Vinci network project). With a founding conference on 5. 12. 2006 through EuroSPI partners and networks, in collaboration with the European Union (supported by the EU Leonardo da Vinci Programme), a European certification association will be created for the IT and services sector to offer SPI knowledge and certifies to industry, establishing close knowledge transfer links between research and industry. The biggest value of EuroSPI lies in its function as a European knowledge and experience exchange mechanism for SPI know-how between research institutions and industry. September 2006 Richard Messnarz www.eurospi.net Organization Organization Committee EuroSPI 2006 is organized by the EuroSPI partnership (www.eurospi.net).

Le Règlement des différends sur les nouvelles ressources naturelles

colloque, La Haye, 8-10 novembre 1982

Martinus Nijhoff Publishers Between 1988 & 1993 over fifty nations have either enacted new mining legislation, had such legislation pending adoption or were in the process of drafting new or revised legislation. In almost every case, this legislation carried with it changes in the fiscal regimes. The ability to attract mineral investment, be it in either a developed or a developing country, is partly dependent on the legislative & fiscal systems which regulate the industry. In the light of the changes taking place, this new reference work is timely & provides essential reading for those with an interest in mining taxation. The first part of the book analyses general topics which are applicable to understanding the taxation of mineral enterprises, while the second part provides a comprehensive & detailed account of actual taxation systems & methods.

Bottom-Line Organization Development

Routledge Organization development practitioners have, for over half a century, engaged with organizations to help them grow and thrive. The artful application of Organization Development (OD) has helped business leaders articulate vision, rethink business processes, create more fluid organization structures and better utilize people's talents. While business leaders and OD practitioners intuitively believe that OD provides valuable results, rigorous measurement of the value delivered has long eluded many OD practitioners. 'Bottom-Line Organization Development' provides powerful tools to capture and measure the financial return on investment (ROI) of OD projects to the business. Given the increasing competition for budget and resources within organizations and the requirements of demonstrating tangible results, the need for such OD measurement tools is very high. But in addition to proving the value of OD projects, integrating evaluation into the change management process itself can actually increase the value of the change initiative because it opens up new ways of capturing and increasing the value of change initiatives. In other words, there is an ROI to ROI. Merrill Anderson calls this new way of approaching OD "strategic change valuation." The book explains the five steps in the OD value process - diagnosis, design, deployment, evaluation and reflection. In addition, three case studies take readers through the process of applying bottom-line OD to three types of popular strategic change initiatives: executive coaching, organization capability, and knowledge management. Readers will gain a holistic perspective of how to make the seemingly intangible benefits of these initiatives tangible.

Cases in Sport Marketing

Jones & Bartlett Learning Cases in Sport Marketing, simulates real-life scenarios for sport marketers as exhibition games in the preseason simulate the regular season for professional athletes. The text begins with four introductory chapters to explain the case study method and then dedicates the remaining fifteen chapters to fifteen sport marketing cases that cover a wide range of issues and sport industry segments. By working through the cases, students can examine an array of situations and gain experience grappling with actual problems faced by managers. Each case presents the critical issues at hand, possible alternatives for consideration, and the criterion necessary to make an informed decision. The final chapter provides an overview of the sport marketing field.
