Winner of the 1961 Newbery Medal, **Island of the Blue Dolphins** tells the story of a girl left alone for eighteen years in the aftermath of violent encounters with Europeans on her home island off the coast of Southern California. This special edition includes two excised chapters, published here for the first time, as well as a critical introduction and essays that offer new background on the archaeological, legal, and colonial histories of Native peoples in California. **Sara L. Schwebel** explores the composition history and editorial decisions made by author **Scott O'Dell** that ensured the success of **Island of the Blue Dolphins**—at a time when second-wave feminism, the civil rights movement, and multicultural education increasingly influenced which books were taught. This edition also considers how readers might approach the book today, when new archaeological evidence is emerging about the **ÖLone Woman of San Nicolas Island**, **Ö** on whom **O'Dell's** story is based, and Native peoples are engaged in the reclamation of indigenous histories and ongoing struggles for political sovereignty. **The 100th Day of School** From decorating a tree with 100 ribbons to baking 100 cookies, a class celebrates the 100th day of school with a variety of activities. **Fahrenheit 451 A Novel** *Simon and Schuster* A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit. **The Curious Incident of the Dog in the Night-Time** *Anchor Canada* A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. **Christopher John Francis Boone** knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his

parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. ANTHEM BEYOND BOOKS HUB Hailed by The New York Times as "a compelling dystopian look at paranoia from one of the most unique and perceptive writers of our time," this brief, captivating novel offers a cautionary tale. The story unfolds within a society in which all traces of individualism have been eliminated from every aspect of life — use of the word "I" is a capital offense. The hero, a rebel who discovers that man's greatest moral duty is the pursuit of his own happiness, embodies the values the author embraced in her personal philosophy of objectivism: reason, ethics, volition, and individualism. Anthem anticipates the themes Ayn Rand explored in her later masterpieces, *The Fountainhead* and *Atlas Shrugged*. Publisher's Weekly acclaimed it as "a diamond in the rough, often dwarfed by the superstar company it keeps with the author's more popular work, but every bit as gripping, daring, and powerful." Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and first published in 1938 in England. It takes place at some unspecified future date when mankind has entered another dark age characterized by irrationality, collectivism, and socialistic thinking and economics. Technological advancement is now carefully planned (when it is allowed to occur at all) and the concept of individuality has been eliminated.
