Original. Just Responsibility A Human Rights Theory of Global Justice [Oxford University Press](#) **It has been well-established that many of the injustices that people around the world experience every day, from food insecurity to unsafe labor conditions and natural disasters, are the result of wide-scale structural problems of politics and economics. These are not merely random personal problems or consequences of bad luck or bad planning. Confronted by this fact, it is natural to ask what should or can we do to mitigate everyday injustices? In one sense, we answer this question when we buy the local homeless street newspaper, decide where to buy our clothes, remember our reusable bags when we shop, donate to disaster relief, or send letters to corporations about labor rights. But given the global scale of injustices related to poverty, environmental change, gender, and labor, can these individual acts really impact****

the seemingly intractable global social, political, and economic structures that perpetuate and exacerbate them? Moreover, can we respond to injustices in the world in ways that do more than just address their consequences? In this book, Brooke A. Ackerly both answers the question of what should we do, and shows that it's the wrong question to ask. To ask the right question, we need to ground our normative theory of global justice in the lived experience of injustice. Using a feminist critical methodology, she argues that what to do about injustice is not just an ethical or moral question, but a political question about assuming responsibility for injustice, regardless of our causal responsibility and extent of our knowledge of the injustice. Furthermore, it is a matter that needs to be guided by principles of human rights. As she argues, while many understand human rights as political goals or entitlements, they can also guide political strategy. Her aims are twofold: to present a theory of what it means to take responsibility for injustice and for ensuring human rights, as well as to develop a guide for how to take responsibility in ways that support local and global movements for transformative politics. In order to illustrate her theory and guide for action, Ackerly draws on fieldwork on the Rana Plaza collapse in 2013, the food crisis of 2008, and strategies from 125 activist organizations working on women's and labor rights across 26 countries. *Just Responsibility* integrates these ways of taking political responsibility into a rich theory of political community, accountability, and leadership in which taking responsibility for injustice itself transforms the fabric of political life. *Teen Rights (and Responsibilities) A Legal Guide for Teens and the Adults in Their Lives* [SphinxLegal](#) Outlines the laws that relate specifically to teenagers, such as those pertaining to school, abuse, and work. *New York Power of Attorney Handbook With Forms* [Sphinx Publishing](#) *Resources in Education Children's Rights Education in Diverse Classrooms Pedagogy, Principles and Practice* [Bloomsbury Publishing](#) With PISA tables, accountability, and performance management pulling educators in one direction, and the understanding that education is a social process embedded in cultural contexts, tailored to meet the needs and challenges of individuals and communities in another, it is easy to end up in seeing teachers as positioned as opponents to the 'system'. Jerome and Starkey argue that the United Nations Convention on the Rights of the Child (UNCRC, 1989) can provide a pragmatic starting point for educators to challenge some of these unsettling trends in a way which does not set up unnecessary opposition with policy-makers. They review the evidence from international evaluations, surveys and case studies about practice in human rights and child right education before exploring the key principles of transformative and experiential education to offer a robust theoretical framework that can guide the development of child rights education. They also draw out practical implications and outline a series of teaching and learning approaches that are values informed, aligned with children's rights and focused on quality learning. *The Therapist's Notebook Homework, Handouts, and Activities for Use in Psychotherapy* [Routledge](#) When did you last have
