RADICAL TECHNOLOGIES

THE DESIGN OF EVERYDAY LIFE

Verso Books A field manual to the technologies that are transforming our lives Everywhere we turn, a startling new device promises to transfigure our lives. But at what cost? In this urgent and revelatory excavation of our Information Age, leading technology thinker Adam Greenfield forces us to reconsider our relationship with the networked objects, services and spaces that define us. It is time to re-evaluate the Silicon Valley consensus determining the future. We already depend on the smartphone to navigate every aspect of our existence. We're told that innovations—from augmented-reality interfaces and virtual assistants to autonomous delivery drones and self-driving cars—will make life easier, more convenient and more productive. 3D printing promises unprecedented control over the form and distribution of matter, while the blockchain stands to revolutionize everything from the recording and exchange of value to the way we organize the mundane realities of the day to day. And, all the while, fiendishly complex algorithms are operating quietly in the background, reshaping the economy, transforming the fundamental terms of our politics and even redefining what it means to be human. Having successfully colonized everyday life, these radical technologies are now conditioning the choices available to us in the years to come. How do they work? What challenges do they present to us, as individuals and societies? Who benefits from their adoption? In answering these questions, Greenfield's timely guide clarifies the scale and nature of the crisis we now confront —and offers ways to reclaim our stake in the future.

AGAINST LOVE

A POLEMIC

Vintage Who would dream of being against love? No one. Love is, as everyone knows, a mysterious and all-controlling force, with vast power over our thoughts and life decisions. But is there something a bit worrisome about all this uniformity of opinion? Is this the one subject about which no disagreement will be entertained, about which one truth alone is permissible? Consider that the most powerful organized religions produce the occasional heretic; every ideology has its apostates; even sacred cows find their butchers. Except for love. Hence the necessity for a polemic against it. A polemic is designed to be the prose equivalent of a small explosive device placed under your E-Z-Boy lounge. It won't injure you (well not severely); it's just supposed to shake things up and rattle a few convictions.

THE FEMALE THERMOMETER

EIGHTEENTH-CENTURY CULTURE AND THE INVENTION OF THE UNCANNY

Oxford University Press on Demand The work of leading scholar Terry Castle, called by the *New York Times* "always engaging...consistently fascinating," has helped to revolutionize eighteenth-century studies. *The Female Thermometer* brings together Castle's essays on the phantasmagoric side of eighteenth-century literature and culture. Taking as her emblem the fanciful "female thermometer," an imaginary instrument invented by eighteenth-century satirists to measure levels of female sexual arousal, Castle explores what she calls the "impinging strangeness" of the eighteenth-century imagination--the ways in which the rationalist imperatives of the age paradoxically worked to produce what Freud would later call the uncanny. In essays on doubling and fantasy in the novels of Defoe and Richardson, sexual impersonators and the dream-like world of the eighteenth-century masquerade, magic-lantern shows, automata, and other surreal inventions of Enlightenment science, and the hallucinatory obsessions of Gothic fiction, Castle offers a haunting portrait of a remarkable epoch. Her collection explores the links between material culture, gender, and the rise of modern forms and formulas of subjectivity, effectively rewriting the cultural history of modern Europe from a materialist and feminist perspective.

LITERARY CULTURE IN EARLY MODERN ENGLAND, 1630-1700

ANGLES OF CONTINGENCY

Walter de Gruyter GmbH & Co KG This book explores literary culture in England between 1630 and 1700, focusing on connections between material, epistemic, and political conditions of literary writing and reading. In a number of case studies and close readings, it presents the seventeenth century as a period of change that saw a fundamental shift towards a new cultural configuration: neoclassicism. This shift affected a

wide array of social practices and institutions, from poetry to politics and from epistemology to civility.

THE DEATH PENALTY, VOLUME I

University of Chicago Press In this newest installment in Chicago's series of Jacques Derrida's seminars, the renowned philosopher attempts one of his most ambitious goals: the first truly philosophical argument against the death penalty. While much has been written against the death penalty, Derrida contends that Western philosophy is massively, if not always overtly, complicit with a logic in which a sovereign state has the right to take a life. Haunted by this notion, he turns to the key places where such logic has been established—and to the place it has been most effectively challenged: literature. With his signature genius and patient yet dazzling readings of an impressive breadth of texts, Derrida examines everything from the Bible to Plato to Camus to Jean Genet, with special attention to Kant and post-World War II juridical texts, to draw the landscape of death penalty discourses. Keeping clearly in view the death rows and execution chambers of the United States, he shows how arguments surrounding cruel and unusual punishment depend on what he calls an “anesthetical logic,” which has also driven the development of death penalty technology from the French guillotine to lethal injection. Confronting a demand for philosophical rigor, he pursues provocative analyses of the shortcomings of abolitionist discourse. Above all, he argues that the death penalty and its attendant technologies are products of a desire to put an end to one of the most fundamental qualities of our finite existence: the radical uncertainty of when we will die. Arriving at a critical juncture in history—especially in the United States, one of the last Christian-inspired democracies to resist abolition—*The Death Penalty* is both a timely response to an important ethical debate and a timeless addition to Derrida's esteemed body of work.

OPERA AND MODERN SPECTATORSHIP IN LATE NINETEENTH-CENTURY ITALY

Cambridge University Press At the turn of the twentieth century Italian opera participated to the making of a modern spectator. The Ricordi stage manuals testify to the need to harness the effects of operatic performance, activating opera's capacity to cultivate a public. This book considers how four operas and one film deal with their public: one that in Boito's *Mefistofele* is entertained by special effects, or that in Verdi's *Simon Boccanegra* is called upon as a political body to confront the specters of history. Also a public that in Verdi's *Otello* is subjected to the manipulation of contemporary acting, or one that in Puccini's *Manon Lescaut* is urged to

question the mechanism of spectatorship. Lastly, the silent film *Rapsodia satanica*, thanks to the craft and prestige of Pietro Mascagni's score, attempts to transform the new industrial medium into art, addressing its public's search for a bourgeois pan-European cultural identity, right at the outset of the First World War.

DEATH IN JEWISH LIFE

BURIAL AND MOURNING CUSTOMS AMONG JEWS OF EUROPE AND NEARBY COMMUNITIES

Walter de Gruyter GmbH & Co KG Jewish customs and traditions about death, burial and mourning are numerous, diverse and intriguing. They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period. In order to examine the accurate historical origins of many of them, an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic. This volume includes most of the papers given then, as well as a few added later. What emerges are a wealth of fresh material and perspectives, as well as the realization that the high Middle Ages saw a set of exceptional innovations, some of which later became central to traditional Judaism while others were gradually abandoned. Were these innovations influenced by Christian practice? Which prayers and poems reflect these innovations? What do the sources tell us about changing attitudes to death and life-after death? Are tombstones an important guide to historical developments? Answers to these questions are to be found in this unusual, illuminating and readable collection of essays that have been well documented, carefully edited and well indexed.

THE BODY OF EVIDENCE

CORPSES AND PROOFS IN EARLY MODERN EUROPEAN MEDICINE

"When, why and how was it first believed that the corpse could reveal 'signs' useful for understanding the causes of death and eventually identifying those responsible for it? *The Body of Evidence. Corpses and Proofs in Early Modern European Medicine*, edited by Francesco Paolo de Ceglia, shows how in the late Middle Ages the dead body, which had previously rarely been questioned, became a specific object of investigation by doctors, philosophers, theologians and jurists. The volume sheds new light on the elements of continuity, but also on the effort made to liberate the semantization of the corpse from what were, broadly

speaking, necromantic practices, which would eventually merge into forensic medicine"--

BASTARD OR PLAYMATE?

ADAPTING THEATRE, MUTATING MEDIA AND THE CONTEMPORARY PERFORMING ARTS

Theater Topics "Artistic media seem to be in a permanent condition of mutation and transformation. Contemporary artists often investigate the limits and possibilities of the media they use and experiment with the crossing, upgrading and mutilation of media. Others explicitly explore the unknown intermedial space between existing media, searching for the hybrid beings that occupy these in-betweens. This issue of Theater topics explores the theme of mutating and adapting media in its relation with theatre and performance"--P. [4] of cover.

CONTESTING ORTHODOXY IN MEDIEVAL AND EARLY MODERN EUROPE

HERESY, MAGIC AND WITCHCRAFT

Springer This book breaks with three common scholarly barriers of periodization, discipline and geography in its exploration of the related themes of heresy, magic and witchcraft. It sets aside constructed chronological boundaries, and in doing so aims to achieve a clearer picture of what 'went before', as well as what 'came after'. Thus the volume demonstrates continuity as well as change in the concepts and understandings of magic, heresy and witchcraft. In addition, the geographical pattern of similarities and diversities suggests a comparative approach, transcending confessional as well as national borders. Throughout the medieval and early modern period, the orthodoxy of the Christian Church was continuously contested. The challenge of heterodoxy, especially as expressed in various kinds of heresy, magic and witchcraft, was constantly present during the period 1200-1650. Neither contesters nor followers of orthodoxy were homogeneous groups or fractions. They themselves and their ideas changed from one century to the next, from region to region, even from city to city, but within a common framework of interpretation. This collection of essays focuses on this complex.

ORGAN TRANSPLANTATION IN TIMES OF DONOR SHORTAGE

CHALLENGES AND SOLUTIONS

Springer This book analyzes the reasons for organ shortage and ventures innovative ideas for approaching this problem. It presents 29 contributions from a highly interdisciplinary group of world experts and upcoming professionals in the field. Every year thousands of patients die while waiting for organ transplantation. Health authorities, medical professionals and bioethicists worldwide point to the urgent and yet unsolved problem of organ shortage, which will be even intensified due to the increasing life expectancy. Even though the practical problem seems to be well known, the search for suitable solutions continues and often restricts itself by being limited through disciplinary and national borders. Combining philosophical reflection with empirical results, this volume enables a unique insight in the ethics of organ transplantation and offers fresh ideas for policymakers, health care professionals, academics and the general public.

should strive toward, Peter Trifonas and Michael Peters gather together in a single volume original essays by major scholars in the humanities today. Using Derrida's seven programmatic theses as a springboard, the contributors aim to reimagine, as Derrida did, the tasks for the new humanities in such areas as history of literature, history of democracy, history of profession, idea of sovereignty, and history of man. Deconstructing Derrida engages Jacques Derrida's polemic on the future of the humanities to come and expands on the notion of what is proper to the humanities in the current age of globalism and change.

GHOSTS

DECONSTRUCTION, PSYCHOANALYSIS, HISTORY

Palgrave Macmillan Did you know that the father of psychoanalysis believed in ghosts, or that Frederick Engels attended seances? **Ghosts: Deconstruction, Psychoanalysis, History** is the first collection of theoretical essays to evaluate these facts and consider the importance of the metaphor of haunting as it has appeared in literature, culture, and philosophy. Haunting is considered as both a literal and figurative term that encapsulates social anxieties and concerns. The collection includes discussions of nineteenth-century spiritualism, gothic and postcolonial ghost stories, and popular film, with essays on important theoretical writers including Freud, Derrida, Adorno, and Walter Benjamin.

SHAKESPEARE WITHOUT CLASS

MISAPPROPRIATIONS OF CULTURAL CAPITAL

MacMillan This study simultaneously supports and challenges Shakespeare's universality. It does this by showing that Shakespeare is not universal insofar as his poetry speaks to all people of all classes, beyond class distinctions, but by demonstrating just how deeply entrenched Shakespeare is across a spectrum of socioeconomic structures and class, gender and ethnic struggles. The subjects of these essays range from Shakespeare's own appropriation of the sonnet form from Elizabethan couriers to reinterpretations of Shakespeare's plays in 19th-century African theatre to Brecht's political reworkings of Shakespeare's plays to pedagogical uses of Shakespeare in cultural studies courses to adaptations of Shakespeare in gay porn films.
