• The Real History of the End of the World Apocalyptic Predictions from Revelation and Nostradamus to Y2K and 2012 Penguin From the author of The Real History Behind the Templars--the origins and stories behind end-of-the-world predictions throughout history, from Revelations to 2012. In entertaining and sharp prose, historian Sharan Newman explores theories of world destruction from ancient times up to the present day- theories which reveal as much about human nature as they do about the predominant historical, scientific, and religious beliefs of the time. Readers will find answers to the following end-of-times questions: • Did the Mayans really say the world will end in December 2012? • How have the signs in the New Testament Book of Revelations been interpreted over the years? • How did ancient Egyptians, Norse, and Chinese think the world would end? • When did Nostradamus predict that the last days would come? • Does the I Ching reference 2012? • Why didn't the world end in Y2K? • Are meteors, global warming, super-volcanoes, and the threat of nuclear war signs that the end is near? Paul Copan has been answering questions like these for many years. In When God Goes to Starbucks, he offers readers solid and caring Christian responses to these and many other concerns that are being discussed in Starbucks, shopping malls, youth groups, and schools. Each chapter provides succinct answers and points for countering the cultural questions believers are faced with today. With the family's home and social standing at risk, Violet makes a drastic decision. Meanwhile, Montana rancher Morgan Callahan rode away from his family's cattle farm to make his own fortune. Now as he finishes exploiting a mother lode of silver, a young woman claiming to be his late partner's daughter turns up wanting to be taken to her father's mine. Suspecting that the pretty schemer works for the mining outfit that is trying to steal his land, he has no qualms about snatching her and holding her at his camp where she can do no harm. But he underestimated the new thorn in his side. Determined to claim what rightfully belongs to her family, Violet summons up the courage and grit to cope with the hazards and discomforts of an untamed land and the disturbingly masculine stranger who holds her fate in his hands. But an error of judgment brings down a hailstorm of danger that upends her plans and deepens her bond to a man who may turn out to be all she desires. With her signature "strong characters, humor, interesting plots—and, of course—romance" (The Cincinnati Enquirer), Johanna Lindsey crafts another irresistible and adventurous love story.

American Pickers Guide to Picking Hachette Books A true adventure story and the go-to guide for "picking" American treasures from anyone's backyard, straight from the stars of History's American Pickers In these pages, professional treasure hunters Mike Wolfe and Frank Fritz chronicle their road trips across the American countryside in search of "rusty gold" to buy and sell among the picking world's one-of-a-kind characters. Whether you are a fan of the show or just like finding hidden riches, you will love seeing what Wolfe and Fritz dig up and enjoy meeting the devoted collectors, extreme stockpilers, and elite dealers who they encounter along the way. Wolfe and Fritz do not deal in fine antiques. Their secondhand treasures are of the down-and-dirty and sometimes even bizarre variety, from old bicycles and vintage tools, to sun-bleached cars and handmade furniture, retired carnival games and unusual taxidermy. Assisted by Danielle Colby, who helps out at Antique Archaeology, Wolfe and Fritz buy on the cheap and then sell to dealers, art directors, interior designers, or anyone looking for a little bit of authentic Americana. The three now share their secrets to finding hidden gems, offering helpful hints that will show what average Americans can do to find the treasures that await them. From American Pickers Guide to Picking: Junk is Beautiful When we knock on a door, 90 percent of the time the things we find are junk. But we don't care about the odds; a picker never turns down an opportunity, no matter where it is. We've picked pickup trucks. We've picked flat beds. We've picked dumpsters. We even picked a Mercury Sable. We're looking for the unusual, the impossible, the funky, the different, the bizarre-things we have never seen before. And we'll go anywhere we have to go to find it. No location is off-limits to a hard-core picker. And there's plenty of things to be found at antique stores, thrift and consignment shops, flea markets, estate sales, and swap meets, and a lot of the tips in this book apply to finding treasures at these joints. But that's not really the kind of picking we do anymore. We look outside the box to find our junk-a word we use almost like a term of endearment: to us: junk is beautiful.
