**The Ultimate Sniper An Advanced Training Manual for Military and Police Snipers** paladin Press *Through revised text, new photos, specialised illustrations, updated charts and additional information sidebars, The Ultimate Sniper once again thoroughly details the three great skill areas of sniping; marksmanship, fieldcraft and tactics. The Master Sniper Island Books In the death throes of World War II, one man is still at war, and he's got got the world's deadliest weapon in his hands . . . With a sniper's rifle he has calmly executed hundreds of enemy soldiers in a single battle, and gunned down thousands of innocent civilians in a single day, waiting patiently for the barrel of his gun to cool before resuming his craft . . . It is the spring of 1945. And Repp, the master sniper, is about to carry out his final mission—even as Germany's enemies overrun it, even while a tired, disorganized team of American and British agents tries everything in its power to stop him. Because for Repp, this is the one job at which he cannot fail. For this time, he possesses the ultimate killing tool. And with it, he will commit the ultimate crime. . . . Praise for The Master Sniper "Mesmerizing suspense."—Kirkus Reviews "Hunter is a deft craftsman with a sure sense of pace and scene. He also knows about irony and sprinkles just a bit over every corpse."—The Washington Post "Stephen Hunter is the best writer of straight-out thrillers working today."—Rocky Mountain News*

**Illustrated Manual of Sniper Skills Pen and Sword** *This heavily illustrated manual provides a timely, in-depth review of the art of sniping in war and antiterrorist environments. Drawing on a vast, firsthand knowledge of sniper skills, former British Army sniper and sniper instructor Mark Spicer describes the role of the sniper in peace and in war, in reconnaissance and counter-surveillance, in cities, in vehicles, at night and by day. He presents crucial information about training and equipment, judgment and positioning, details of great relevance to professional marksmen, both military and law enforcement. This*

comprehensive manual will also be of interest to hunters, weapons enthusiasts, competition shooters, and paintball participants. The book is complimented by 280 full color illustrations, diagrams, and related information. **Sniper Training University Press of the Pacific** This manual is organized as a reference for snipers and leads the trainer through the material needed to conduct sniper training. Subjects include equipment, weapon capabilities, fundamentals of marksmanship and ballistics, field skills, mission planning, and skill sustainment. **American Sniper The Autobiography of the Most Lethal Sniper in U.S. Military History Harper Collins** The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." —PATRICIA CORNWELL, *New York Times Book Review* "Jaw-dropping...Undeniably riveting." —RICHARD ROEPER, *Chicago Sun-Times* From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time. **SOG The Secret Wars of America's Commandos in Vietnam Simon and Schuster** John Plaster's riveting account of his covert activities as a member of a special operations team during the Vietnam War is "a true insider's account, this eye-opening report will leave readers feeling as if they've been given a hot scoop on a highly classified project" (*Publishers Weekly*). Code-named the Studies and Observations Group, SOG was the most secret elite US military unit to serve in the Vietnam War—so secret its very existence was denied by the government. Composed entirely of volunteers from such ace fighting units as the Army Green Berets, Air Force Air Commandos, and Navy SEALs, SOG took on the most dangerous covert assignments, in the deadliest and most forbidding theaters of operation. In SOG, Major John L. Plaster, a three-tour SOG veteran, shares the gripping exploits of these true American warriors in a minute-by-minute, heartbeat-by-heartbeat account of the group's stunning operations behind enemy lines—penetrating heavily defended North Vietnamese military facilities, holding off mass enemy attacks, launching daring missions to rescue downed US pilots. Some of the most extraordinary true stories of honor and heroism in the history of the US military, from sabotage to espionage to hand-to-hand combat, Plaster's account is "a detailed history of this little-known aspect of the Vietnam War...a worthy act of historical rescue from an unjustified, willed oblivion" (*The New York Times*). **Super Snipers The Ultimate Guide to History's Greatest and Most Lethal Snipers Skyhorse** In *Super Snipers*, the editors of *Soldier of Fortune* show readers the ways of the expert sniper in forty stories from those who have mastered the craft. Becoming an elite sniper involves more than learning how to shoot. Snipers need to know how to judge terrain, wind, and sometimes even the curve of the Earth. They train their

eyes to spot enemy movement in the distance and to never hesitate. A sniper is more than a finger behind a trigger; he is a scout, a scientist, a strategist, and the support group for a platoon. *Super Snipers* brings you into the world of some of the most accomplished snipers. From Finland to Iraq, Korea to Somalia, *Soldier of Fortune* magazine provides forty stories directly from the eyes and minds of the snipers who made the kills. These trained marksmen describe their method of calculating, aiming, and taking the perfect shot, all the way down to the type of chewing tobacco they prefer. Some of the super snipers in this collection include: Chris Kyle (American Sniper) Major Charles Greene Sergeant Dan Mills Gunnery Sergeant Jack Coughlin Robert K. Brown And many more! Every sniper—just like every situation that calls for a sniper—is unique, and *Super Snipers* will show you every step of the way, as you find the target, narrow the scope, and take the shot. **Secret Commandos Behind Enemy Lines with the Elite Warriors of SOG Simon and Schuster** Major John L. Plaster recalls his remarkable covert activities as a member of a special operations team during the Vietnam War in a “comprehensive, informative, and often exciting...account of an important part of the overall Vietnam tragedy” (*The New York Times*). Before there were Navy SEALs, there was SOG. Short for “Studies and Operations Group,” it was a secret operations force in Vietnam, the most highly decorated unit in the war. Although their chief mission was disrupting the main North Vietnamese supply route into South Vietnam, SOG commandos also rescued downed helicopter pilots and fellow soldiers, and infiltrated deep into Laos and Cambodia to identify bombing targets, conduct ambushes, mine roads, and capture North Vietnamese soldiers for intelligence purposes. Always outnumbered, they matched wits in the most dangerous environments with an unrelenting foe that hunted them with trackers and dogs. Ten entire teams disappeared and another fourteen were annihilated. This is the dramatic, page-turning true story of that team’s dedication, sacrifice, and constant fight for survival. In the “gripping” (*Publishers Weekly*) *Secret Commandos*, John Plaster vividly describes these unique warriors who gave everything fighting for their country—and for each other. **The History Of Sniping And Sharpshooting Paladin Press** Thirty-six months in combat. Twenty-four years as a sniping instructor. Twenty years of exhaustive research, including decades spent seeking out hundreds of historic volumes long out of print, test-firing historic firearms, walking Revolutionary and Civil War battlefields with a laser rangefinder, and visiting military museums in the United States and Europe. Only Major John Plaster, author of the highly acclaimed *The Ultimate Sniper*, has the background and knowledge to bring you this authoritative history of sniping and sharpshooting – the first such book from a combat rifleman’s unique perspective. In *The History of Sniping and Sharpshooting*, John Plaster has assembled the most comprehensive combat history ever published on the subject. It begins in the 15th century, with the first use of “precision” musket fire in Europe and continues into the 21st century with the significant role sniping is playing in the Iraq and Afghanistan and the global War on Terror. Detailing major engagements and minor skirmishes over five centuries of warfare, Plaster has unearthed hundreds of incidents where calculated precision rifle fire has changed the course of battles – and, sometimes, history. He fittingly addresses well-known sharpshooters and snipers – Hiram Berdan, Vasili Zaitsev, Carlos Hathcock – but also pays tribute to forgotten riflemen such as John Burns, Benjamin Forsyth and Arthur Wermuth,

to name but a few. He also explains how the evolution of firearms and optical technology has intertwined with sniping on the battlefield and how it has influenced tactics, organizations, and capabilities - a subject that has never before been address adequately. **100+ Sniper Exercises Paladin Press** A professional sniper needs to accomplish three things to do his job: be predictable, repeatable, and precise! To help achieve that goal, veteran sniping instructor and competitive long-range shooter Eduardo Abril de Fontcuberta has collected dozens of exercises from elite military and police sniping programs and organized them into a complete training course. Now, snipers, instructors, and even civilian long-range target shooters can develop and assess their performance, individually or as a unit, and meet the standards of the best snipers in the world. The exercises in this book—from the U.S. Marines and U.S. Army, U.S. Navy SEALs, Spanish Foreign Legion, Swedish Marines, Gunsite, Snipercraft, and many other top sniping programs—cover the entire spectrum of the professional sniper's skill set, including: close-range and known-distance shooting—testing cold-bore zeros, target identification, knowing your limits . . . long-range shooting—range estimation, ballistics and wind reading, hard-target interdiction . . . complex and skills-oriented exercises—accuracy under stress, simultaneous engagements, shooting through glass, angle shooting, shooting through loopholes . . . nonshooting requirements—communications, camouflage and observation, land navigation, tactical medicine, survival and tracking . . . The author wraps up with his recommendations for sniper competitions, schools, instructors, and equipment. Whether you need stand-alone training drills or a complete course in tactical marksmanship, you will get it with the exercises in this book. **Navy SEAL Sniper An Intimate Look at the Sniper of the 21st Century Simon and Schuster** The sniper is a battlefield threat second to none. Mastering the art of marksmanship is critical but is only part of what makes a Navy SEAL sniper. Snipers must be able to apply the craft in an urban environment or alone on a hostile mountain top with equal effectiveness. Today's sniper must not just leverage technological advances but also have the foreknowledge to select the best rifle and gear for the mission. Increasingly, he must have the mental toughness to adapt to a constantly changing environment, gather intelligence, and truly act as a force multiplier. In this comprehensive look through the eyes of former Navy SEAL sniper instructor Brandon Webb and fellow Navy SEAL snipers Chris Kyle and Glen Doherty, the authors reveal not just the fundamentals of marksmanship but also the science of shooting, stalking, and camouflage and how technological advances have changed the training and increased the effectiveness of the modern sniper. Including maritime, helicopter, and urban sniper operations, this updated edition also goes into detail on the latest research, development, testing, and evaluation of weapons and optics. From the basics like compensating for wind and bullet drop, to camouflage and placing yourself or your team in the best position to take a photo or pull a trigger, Webb and Doherty cover the critical elements that comprise the twenty-first century sniper. **The Ultimate Sniper Elite 4 Guide: How to Play for Beginner, Tips Guide** Sniper Elite 4 is a stealth-oriented third-person tactical shooter video game. This book examines the role of the sniper, and the unique skills employed, when serving as part of a Special Forces unit including the British SAS, the US Navy Seals and the Russian Spetznaz. The book is illustrated with photographs of every aspect of the sniper's trade and stories from the real-life experiences of the author's comrades: men who have served in almost every overt and covert conflict since World War II.

**Marine Scout Snipers True Stories from U.S. Marine Corps Snipers Rowman & Littlefield** Author Lena Sisco, a former Department of Defense Military Interrogator and U.S. Navy officer, takes the reader through the missions and personal lives of U.S. Marines who have been forward-deployed in hostile environments all across the Middle East. She shows how they use the mastery of their sniper skills to mitigate threats and negate the enemy's ability to disrupt U.S. operations. Her book lets you feel the stress and anxiety of their operational tempo; you witness their successes and failures, their struggles, and lessons learned. Snipers are highly trained, brave, silent killers. They undergo specialized training and operate independently with little support from their parent commands, close to enemy positions. Snipers are chosen based on their marksmanship, mental stability, patience, and physical ability. They stalk the enemy, while concealed in their operational overwatches, to protect our checkpoints and convoys, and to direct action missions. Despite the renown of Chris Kyle and the extraordinary success of the book and movie *American Sniper*, snipers do not have lead lives of glory and fame; their lives are a struggle. Serving as a sniper requires that you do your job successfully every time, because the consequences of not being successful include the loss of innocent lives, or living with other consequences that can haunt a shooter till the day he dies. In the end, just like any other service members, they put their lives on the line - willingly - to defend our freedom and liberties, and our country.

**Maritime Sniper Manual Precision Fire from Seaborne Platforms Paladin Press** "This manual is a necessity for any unit attempting to combat piracy or undertake any maritime operation." -Chief Chris Kyle, former Navy SEAL sniper/instructor "I strongly recommend adding this book to your training resources." -Sgt. Major Mark Spicer, retired British Army sniper instructor. For the professional sniper, engaging a target on the high seas is one of the most challenging assignments of all. Erratic movement introduced by waves, vessel speeds, and engine vibrations; short, sudden windows of opportunity; and a host of unique environmental factors make the shot that much more demanding for even experienced marksmen. Now, master sniper Fredrik Jonsson has written what is destined to become the classic manual on precision fire from seaborne platforms. Jonsson combines his vast experience in sniping deployment and instruction, specialized operations in troubled waters around the world, and competitive shooting to instruct dozens of specialized skills, including: timing shots for wave harmonics firing from one moving vessel at targets on another moving vessel firing through shipboard glass determining range and reading the wind in the tricky ocean arena establishing a suitable shooting platform on a vessel at speed conducting sniper-specific training at sea maintaining weapons and optics in the harsh saltwater environment The maritime sniper plays a vital role in combating piracy,

providing cover for vessel- and GOPLAT-boarding teams, protecting high-value vessels, and many other missions. To hope that the sea will be calm the day you will have to take that crucial shot is simply not an option. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. His memory of the past few days is hazy and full of blackouts, and even he has to wonder, is he being framed? Or is he the killer? As Harwood runs from the

authorities, his girlfriend falls off the radar, his missing spotter resurfaces, and the assassinated men are outed as drug and sex traffickers. Nothing is adding up. It's all here in great detail—the weapons, optics, ammunition, silencers, and numerous wartime improvisations, from disguised periscopes to fake trees, from body armor to fixed and periscope rifles, plus sniping tactics, training, and organization. Here, too, are the people. From the Allied sniping trailblazers—adventurers, big-game hunters, British and American NRA riflemen—who rose up to challenge Germany's snipers to the colorful characters who fought this war within a war: The Igorot headhunter-turned-U.S. Army sniper who hoped to carry German heads back to his village "rizzly" Christie, the Yukon hunter who inspired Canada's snipers The shy French village girl who shot down German snipers The billionaire industrialist who recruited and financed an Allied sniping unit The Eurasian legend who out-sniped the Turks at Gallipoli The Canadian and U.S. Native American snipers the Germans feared the most And, for the first time ever, renowned sniping authority Major John L. Plaster tells the story of Canada's and England's sniper veterans who trained America's snipers at 34 sites all across the United States, readying them for this no-holds-barred contest. Sniping in the Trenches is profusely illustrated with nearly 500 rare photographs from U.S., Canadian, and European museums and archives, many never before published, others unseen for 100 years. Rounding out this amazing compilation are a dozen full-length, firsthand sniping accounts by American, Canadian, British, and Australian snipers.* **Trigger Men Shadow Team, Spider-Man, the Magnificent Bastards, and the American Combat Sniper St. Martin's Press** *Combat veteran and author Hans Halberstadt takes readers deeper inside the elusive world of snipers than ever before, from recruitment and training to the brutality of the killing fields. Shadow Team is probably the most productive sniper team in American military history, accounting for 276 confirmed kills in a six months span with no casualties of their own. Their leader made what was, and may still be, the longest range kill with a 7.62mm rifle. For the first time ever they explain what it's like to kill a man and what it takes to become one of the elite. The tragic tale of Headhunter Two is altogether different. This four man sniper team from a regiment known within the Corps as the Magnificent Bastards was killed in 2004 in Ramadi, Iraq. Their deaths not only caused a reevaluation of sniper tactics and techniques, but created a desire for vengeance that was exacted nearly two years later in dramatic fashion. Based on hundreds of hours of exclusive interviews, Halberstadt gets inside the sniper mind and shows how they think and interact with each other, how missions are planned and executed, how the weapons work, and even what happens when a bullet finally strikes its target. There are only a few hundred snipers from all the services put together in combat at any one time, making this true inside story a rare and important event. Both a uniquely intimate look at what makes a sniper tick and*

a harrowing read filled with dramatic war tales, *Trigger Men* is a book about killers and killing, without apology and without remorse.

"A rare glimpse into the mind of a Navy SEAL," (Clint Emerson, New York Times bestselling author of *100 Deadly Skills*) Kevin Lacz brings you onto the battlefield and relays the tough realities of war. At the same time, Lacz shares how these experiences made him a better man and how proud he is of his contributions to one of this country's most difficult military campaigns. *The Last Punisher* is the story of a SEAL and an "honest-to-God American hero" (Mike Huckabee, #1 bestselling author) who was never afraid to answer the call. **Special Operations Association Turner Publishing Company The Complete .50-caliber Sniper Course Hard-Target Interdiction Paladin Press** Nowhere are the big guns covered in more detail. Simo Häyhä is the most famous sniper in the world. During the Winter War fought between Russia and Finland from 1939 to 1940, he had 542 confirmed kills with iron sights, a record that still stands today. A man of action who spoke very little, Simo Häyhä was hugely respected by his men and his superiors and given many difficult missions, including taking out specific targets. Able to move silently and swiftly through the landscape, melting into the snowbound surroundings in his white camouflage fatigues, his aim was deadly and his quarry rarely escaped. The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire. He was promoted from corporal to second lieutenant, and he was awarded the Cross of Kollaa. For sniping, Simo Häyhä only ever used his own M/28-30 rifle.
