The Evolution of Washington, DC

Historical Selections from the Albert H. Small Washingtoniana Collection at the George Washington University

Smithsonian Institution **The Evolution of Washington, DC is a striking volume featuring select pieces of the extraordinary collection of Washingtoniana donated by Albert H. Small to the George Washington University in 2011. It showcases treasures such as an 1860 lithograph of the equestrian statue of Andrew Jackson in front of the White House and a contemporary print of old Potomac River steamboats. Other unique pieces include early designs for the White House, the Capitol, and the Washington Monument as well as presidential portraits and Civil War memorabilia. Each object--from architectural plans and topographical maps to letters and advertisements--tells a fascinating story, and together they illustrate the history of our nation's capital and indeed our nation itself.**

W. Lloyd Wright Collection of Photographs

Capital Views

Historic Photographs of Washington, D.C., Alexandria and Loudoun County, Virginia, and Frederick County, Maryland

Smithsonian Inst Press **"Metropolitan areas change over the time. These changes come together and create a city's character and personality. Renowned Washington, DC, historian James Goode has assembled an incredible collection of images that look back at a Washington before it developed into the international metropolitan city it is today. The impactful historic photography exposes the elements of the DC metro area that have disappeared- the dairy farms of Loudoun County, the railroad round house in Alexandria, and model boats on the Rainbow Pool on the National Mall, as well as provide startling different views of areas and neighborhoods that still exist. The majority of these images have never been published, and under the curatorial eye of James Goode have been put together in a way that give readers a better understanding of the city Washington DC was, and the city it was to become."**

Confronting the Veil

Abram Harris Jr., E. Franklin Frazier, and Ralph Bunche, 1919-1941

[Univ of North Carolina Press](#) In this book, Jonathan Holloway explores the early lives and careers of economist Abram Harris Jr., sociologist E. Franklin Frazier, and political scientist Ralph Bunche--three black scholars who taught at Howard University during the New Deal and, together, formed the leading edge of American social science radicalism. Harris, Frazier, and Bunche represented the vanguard of the young black radical intellectual-activists who dared to criticize the NAACP for its cautious civil rights agenda and saw in the turmoil of the Great Depression an opportunity to advocate class-based solutions to what were commonly considered racial problems. Despite the broader approach they called for, both their advocates and their detractors had difficulty seeing them as anything but "black intellectuals" speaking on "black issues." A social and intellectual history of the trio, of Howard University, and of black Washington, *Confronting the Veil* investigates the effects of racialized thinking on Harris, Frazier, Bunche, and others who wanted to think "beyond race--who envisioned a workers' movement that would eliminate racial divisiveness and who used social science to demonstrate the ways in which race is constructed by social phenomena. Ultimately, the book sheds new light on how people have used race to constrain the possibilities of radical politics and social science thinking.

Chocolate City

A History of Race and Democracy in the Nation's Capital

[UNC Press Books](#) Monumental in scope and vividly detailed, *Chocolate City* tells the tumultuous, four-century story of race and democracy in our nation's capital. Emblematic of the ongoing tensions between America's expansive democratic promises and its enduring racial realities, Washington often has served as a national battleground for contentious issues, including slavery, segregation, civil rights, the drug war, and gentrification. But D.C. is more than just a seat of government, and authors Chris Myers Asch and George Derek Musgrove also highlight the city's rich history of local activism as Washingtonians of all races have struggled to make their voices heard in an undemocratic city where residents lack full political rights. Tracing D.C.'s massive transformations--from a sparsely inhabited plantation society into a diverse metropolis, from a center of the slave trade to the nation's first black-majority city, from "Chocolate City" to "Latte City"--Asch and Musgrove offer an engaging narrative peppered with unforgettable characters, a history of deep racial division but also one of hope, resilience, and interracial cooperation.

Designing Schools

Space, Place and Pedagogy

[Routledge](#) *Designing Schools* explores the close connections between the design of school buildings and educational practices throughout the twentieth century to today. Through international cases studies that span the Americas, Europe, Africa and Australia, this volume examines historical innovations in school architecture and situates these within changing pedagogical ideas about the 'best' ways to educate children. It also investigates the challenges posed by new technologies and the digital age to the design and use of school places. Set around three interlinked themes - school buildings, school spaces and school cultures - this book argues that education is mediated or framed by the spaces in which it takes place, and that those spaces are in turn influenced by cultural, political and social concerns about teaching, learning and the child.

Prestatehood Legal Materials

A Fifty-State Research Guide, Including New York City and the District of Columbia, Volumes 1 & 2

[Routledge](#) Explore the controversial legal history of the formation of the United States Prestatehood Legal Materials is your one-stop guide to the history and development of law in the U.S. and the change from territory to statehood. Unprecedented in its coverage of territorial government, this book identifies a wide range of available resources from each state to reveal the underlying legal principles that helped form the United States. In this unique publication, a state expert compiles each chapter using his or her own style, culminating in a diverse sourcebook that is interesting as well as informative. In Prestatehood Legal Materials, you will find bibliographies, references, and discussion on a varied list of source materials, including: state codes drafted by Congress county, state, and national archives journals and digests state and federal reports, citations, surveys, and studies books, manuscripts, papers, speeches, and theses town and city records and documents Web sites to help your search for more information and more Prestatehood Legal Materials provides you with brief overviews of state histories from colonization to acceptance into the United States. In this book, you will see how foreign countries controlled the laws of these territories and how these states eventually broke away to govern themselves. The text also covers the legal issues with Native Americans, inter-state and the Mexico and Canadian borders, and the development of the executive, legislative, and judicial branches of state government. This guide focuses on materials that are readily available to historians, political scientists, legal scholars, and researchers. Resources that assist in locating not-so-easily accessible materials are also covered. Special sections focus on the legal resources of colonial New York City and Washington, DC—which is still technically in its prestatehood stage. Due to the enormity of this project, the editor of Prestatehood Legal Materials created a Web page where updates, corrections, additions and more will be posted.

The Papers of Thomas Jefferson, Volume 32

1 June 1800 to 16 February 1801

[Princeton University Press](#) "I have sometimes asked myself whether my country is the better for my having lived at all?" Jefferson muses in this volume. His answer: "I do not know that it is." Required by custom to be "entirely passive" during the presidential campaign, Jefferson, at Monticello during the summer of 1800, refrains from answering attacks on his character, responds privately to Benjamin Rush's queries about religion, and learns of rumors of his own death. Yet he is in good health, harvests a bountiful wheat crop, and maintains his belief that the American people will shake off the Federalist thrall. He counsels James Monroe, the governor of Virginia, on the mixture of leniency and firmness

to be shown in the wake of the aborted revolt of slaves led by the blacksmith Gabriel. Arriving in Washington in November, Jefferson reports that the election "is the only thing of which any thing is said here." He is aware of Alexander Hamilton's efforts to undermine John Adams, and of desires by some Federalists to give interim executive powers to a president pro tem of the Senate. But the Republicans have made no provision to prevent the tie of electoral votes between Jefferson and Aaron Burr. Jefferson calls Burr's conduct "honorable & decisive" before prospects of intrigue arise as the nation awaits the decision of the House of Representatives. As the volume closes, the election is still unresolved after six long days of balloting by the House.

Law School

Legal Education in America from the 1850s to the 1980s

The Lawbook Exchange, Ltd. Comprehensive history of American legal education. Originally published: Chapel Hill: The University of North Carolina Press, [1983]. xvi, 334 pp. Law School: Legal Education in America from the 1850s to the 1980s examines legal education and its impact on the legal profession and the society it serves. This highly lauded work won a Certificate of Merit from the American Bar Association upon its original publication. Stevens' distinguished career in education and law includes his eight years as Master of Pembroke College, Oxford, seventeen-year term as professor of law at Yale University and nine-year term as president of Haverford College. Well-annotated and indexed, with a thorough bibliography. "the most comprehensive treatment of the subject." --LAWRENCE M. FRIEDMAN A History of American Law, Third Edition (2005) 589

Locking Up Our Own

Crime and Punishment in Black America

Farrar, Straus and Giroux In recent years, America's criminal justice system has become the subject of an increasingly urgent debate. Critics have assailed the rise of mass incarceration, emphasizing its disproportionate impact on people of color. As James Forman, Jr., points out, however, the war on crime that began in the 1970s was supported by many African American leaders in the nation's urban centers. In Locking Up Our Own, he seeks to understand why. Forman shows us that the first substantial cohort of black mayors, judges, and police chiefs took office amid a surge in crime

and drug addiction. Many prominent black officials, including Washington, D.C. mayor Marion Barry and federal prosecutor Eric Holder, feared that the gains of the civil rights movement were being undermined by lawlessness—and thus embraced tough-on-crime measures, including longer sentences and aggressive police tactics. In the face of skyrocketing murder rates and the proliferation of open-air drug markets, they believed they had no choice. But the policies they adopted would have devastating consequences for residents of poor black neighborhoods. A former D.C. public defender, Forman tells riveting stories of politicians, community activists, police officers, defendants, and crime victims. He writes with compassion about individuals trapped in terrible dilemmas—from the men and women he represented in court to officials struggling to respond to a public safety emergency. *Locking Up Our Own* enriches our understanding of why our society became so punitive and offers important lessons to anyone concerned about the future of race and the criminal justice system in this country.

Political Terrain

Washington, D.C., from Tidewater Town to Global Metropolis

Univ of North Carolina Press **Washington, D.C., President John F. Kennedy once remarked, is a city of "southern efficiency and northern charm." Kennedy's quip was close to the mark. Since its creation two centuries ago, Washington has been a community with multiple personalities. Located on the regional divide between North and South, it has been a tidewater town, a southern city, a coveted prize in fighting between the states, a symbol of a reunited nation, a hub for central government, an extension of the Boston-New York megalopolis, and an international metropolis. In an exploration of the many identities Washington has taken on over time, Carl Abbott examines the ways in which the city's regional orientation and national symbolism have been interpreted by novelists and business boosters, architects and blues artists, map makers and politicians. Each generation of residents and visitors has redefined Washington, he says, but in ways that have utilized or preserved its past. The nation's capital is a city whose history lives in its neighborhoods, people, and planning, as well as in its monuments and museums.**

The Invisible Line

A Secret History of Race in America

Penguin **"The Invisible Line" shines light on one of the most important, but too often hidden, aspects of American history and culture. Sharfstein's narrative of three families negotiating America's punishing racial terrain is a must read for all who are interested in the construction of race in the United States." --Annette Gordon-Reed, Pulitzer Prize winning author of The Hemingses of Monticello In America, race is a riddle. The stories we tell about our past have calcified into the fiction that we are neatly divided into black or white. It is only with the widespread availability of DNA testing and the boom in genealogical research that the frequency with which individuals and entire families crossed the color line has become clear. In this sweeping history, Daniel J. Sharfstein unravels the stories of three families who represent the complexity of race in America and force us to rethink our basic assumptions about who we are. The Gibsons were wealthy landowners in the South Carolina backcountry who became white in the 1760s, ascending to the heights of the Southern elite and ultimately to the U.S. Senate. The Spencers were hardscrabble farmers in the hills of Eastern Kentucky, joining an isolated Appalachian community in the 1840s and for the better part of a century hovering on the line between white and black. The Walls were fixtures of the rising black middle class in post-Civil War Washington, D.C., only to give up everything they had fought for to become white at the dawn of the twentieth century. Together, their interwoven and intersecting stories uncover a forgotten America in which the rules of race were something to be believed but not necessarily obeyed. Defining their identities first as people of color and later as whites, these families provide a lens for understanding how people thought about and experienced race and how these ideas and experiences evolved-how the very meaning of black and white changed-over time. Cutting through centuries of myth, amnesia, and poisonous racial politics, The Invisible Line will change the way we talk about race, racism, and civil rights.**

The Georgetown Ladies' Social Club

Power, Passion, and Politics in the Nation's Capital

Simon and Schuster **A portrait of the political and social life of Georgetown cites the influence of such women as Katharine Graham, Lorraine Cooper, and Sally Quinn, while offering insight into Washington life in the late twentieth century.**

Brookland

Arcadia Publishing Brookland is a neighborhood with strong connections to Howard and Catholic Universities, the Catholic Church, and Washington's black intelligentsia. Its rich past is well preserved in its architecture, historic sites, and social institutions. It is a thriving middle-class neighborhood and a place full of family stories. It is graced by beautiful institutional open spaces, woods, and large backyards. But above all, it is a place full of history. The Brooks Mansion, the Twelfth Street business corridor, the Franciscan monastery, Fort Bunker Hill, and the Ralph Bunche House--each site tells another story of Brookland.

Madness in the City of Magnificent Intentions

A History of Race and Mental Illness in the Nation's Capital

Oxford University Press From the mid-nineteenth to the late twentieth centuries, Saint Elizabeths Hospital was one of the United States' most important institutions for the care and treatment of the mentally ill. Founded in 1855 to treat insane soldiers and sailors as well as civilian residents in the nation's capital, the institution became one of the country's preeminent research and teaching psychiatric hospitals. From the beginning of its operation, Saint Elizabeths admitted black patients, making it one of the few American asylums to do so. This book is a history of the hospital and its relationship to Washington, DC's African American community. It charts the history of Saint Elizabeths from its founding to the late-1980s, when the hospital's mission and capabilities changed as a result of deinstitutionalization, and its transfer from the federal government to the District of Columbia. Drawing on a wide variety of sources, including patient case files, the book demonstrates how race was central to virtually every aspect of the hospital's existence, from the ways in which psychiatrists understood mental illness and employed therapies to treat it to the ways that black patients experienced their institutionalization. The book argues that assumptions about the existence of distinctive black and white psyches shaped the therapeutic and diagnostic regimes in the hospital and left a legacy of poor treatment of African American patients, even after psychiatrists had begun to reject racist conceptions of the psyche. Yet black patients and their communities asserted their own agency and exhibited a "rights consciousness" in large and small ways, from agitating for more equal treatment to attempting to manage the therapeutic experience.

Rules of Civility & Decent Behavior In Company and Conversation

Rules of Civility & Decent Behavior In Company and Conversation began as a school exercise in 1744 for George Washington, who became the first president of the United States of America. Washington copied a translation of these rules by Francis Hawkins', which was first published in England around 1640. The majority of the 110 rules originated from a French etiquette manual written in 1959 by the Jesuits, who were members of the Society of Jesus, a Roman Catholic order of men noted for educational, charitable and missionary works and teachings.
