Approuvé par certains qui y voient l'opportunité d'améliorer la sécurité publique, la relation marchande ou encore leur propre confort quotidien, ce constat fait craindre à d'autres l'avènement d'une société de la surveillance érodant le respect de la vie privée. Cet ouvrage étudie la notion d'espace privé à l'ère du numérique. Il montre comment les changements technologiques, de services et d'usages redéfinissent l'acceptation traditionnelle de la vie privée fondée sur des normes, et comment, en complément du dispositif normatif existant, des modalités de régulation appropriables par les individus sont envisagées. Patrum, Doctorum Scriptorumque Ecclesiasticorum Qui Ab Aevo Apostolico Ad Usuque Innocentii III Tempora Floruerunt Journal of the Gypsy Lore Society From Penitence to Charity Pious Women and the Catholic Reformation in Paris Oxford University Press From Penitence to Charity radically revises our understanding of women's place in the institutional and spiritual revival known as the Catholic Reformation. Focusing on Paris, where fifty new religious congregations for women were established in as many years, it examines women's active role as founders and patrons of religious communities, as spiritual leaders within these communities, and as organizers of innovative forms of charitable assistance to the poor. Rejecting the too common view that the Catholic Reformation was a male-dominated movement whose principal impact on women was to control and confine them, the book shows how pious women played an instrumental role, working alongside--and sometimes in advance of--male reformers. At the same time, it establishes a new understanding of the chronology and character of France's Catholic Reformation by locating the movement's origins in a penitential spirituality rooted in the agonies of religious war. It argues that a powerful desire to appease the wrath of God through acts of heroic asceticism born of the wars did not subside with peace but, rather, found new outlets in the creation of austere, contemplative convents. Admiration for saintly ascetics prompted new vocations, and convents multiplied, as pious laywomen rushed to fund houses where, enjoying the special rights accorded founders, they might enter the cloister and participate in convent life. Penitential enthusiasm inevitably waned, while new social and economic tensions encouraged women to direct their piety toward different ends. By the 1630s, charitable service was supplanting penitential asceticism as the dominant spiritual mode. Capitalizing on the Council of Trent's call to catechize an ignorant laity, pious women founded innovative new congregations to aid less favored members of their sex and established lay confraternities to serve society's outcasts and the poor. Their efforts to provide war relief during the Fronde in particular deserve recognition. The Smart Set La Vie de Messire F. In La Splendeur des dieux, Gaëlle Tallet provides a full reappraisal of the transformation of Egyptian deities and of their Hellenized depiction in Graeco-Roman times, and questions the issues and strategies at stake behind the elaboration of an Egyptian Hellenicity. The need for clarifying the concepts and the interlink between criminal and quasi-criminal enforcement is a topic attracting a lot of discussion and debate both in academia and practice across Europe (and beyond). This volume adds to this debate by bringing to light the substantive and procedural problems stemming from the current parallel or dual use of the different enforcement systems. The collection draws on expertise from academia, practice and policy; its high-quality analysis will appeal to scholars, practitioners and policymakers alike. *The Norman Frontier in the Twelfth and Early Thirteenth Centuries* *Cambridge University Press* **Publisher Description** *Random-exercises in French Grammar, Homonyms and Synonyms For Advanced Students* *Les Pays-Bas sous Charles-Quint.
